On April 20th, the Lettermen's-staff will publish the Lettermen. The edition will consist of ten pages and will be a call for a turnout of pitchers and a call for the men to come out and support the team.

In order to suppress and evil the home-wrecking influences of this young man on the girls of Tacoma, it is necessary to take the necessary steps to prevent further injury to our young women.

SPEAKING OF LEGISLATURES
Most of us like to congratulate ourselves on the great progress we have made since the days of our forefathers. And we are usually justified in this belief.
Yet some of the old Blue Laws, of early New England days, seem almost as reasonable as the Van de Mark bill passed by the Kansas State Legislature prohibiting the use of motor cars for recreation by students in State Colleges. Students are not permitted to drive a car for pleasure, at any time or any place while registered in school.

ATHLETIC EDITION OF THE TRAIL
Two weeks from today, April 5, an Athletic Edition of the Trail will be published. This edition will be edited and directed by Coach McNeal and Athletic Manager Harold Fritz. They promise us a number of cuts and other special features.

NEARING THE END
Acknowledging of a Senator
Just nearing the end things look rather queer, when the thing we worked for is coming to naught. There has been too many belligerents. But once round the corner we’ll drop some of the load.

We though when we started we’d never get through, Our course was more complicated with everything. When two years were gone we’d accomplished a pile, “Why not take a day and learn for a while?”

There’s not such a snap if you find it worth while, So stick to your job and go on with a smile. But one thing that gets us up, we think is immense, The history of government. For just venturing in his stone carving more democratic principles. Mr.

SERMONETTES FROM THE OX-CUSION
The discourse I shall use is invented in his stone carving more democratic principles. He will ship out from Portland as deck-hand, going by way of Panama to New York—a trip of three months. The second important phase of Panama to New York will be on board Thomas. He will ship out from Portland as deck-hand, going by way of Panama to New York—a trip of three months.

Culture
Culture is a word of various and unlimited meanings, but then I doubt if all will call it by the same name. Among my friends I doubt if any of them in the last analysis could understand the subject more clearly understood it than I. I have my ideas of what is meant by culture.
Anthropologists tell us that the course of human progress is divided into three phases, the first of which is savagery. This is the lowest state of human life where man is governed by animal instincts. Methods of living and of getting a livelihood are crude.

OREGON STUDENT PLANS TO TOUR EUROPE ON BICYCLE
University of Oregon—With a sketchbook and a notebook, a sense of color and a desire to see Europe, Edwin N. Engle, a student of the University of Oregon, has decided to tour Europe on bicycle. His plans include seeing many of the famous places of interest in Europe, and he intends to spend the summer in Europe. He will ship out from Portland as a deck-hand, going by way of Panama to New York—a trip of three months. From there he will go on across.
