The Daily Trojan, the student newspaper of the University of Southern California, contains news articles, sports reports, and features such as campus life, current events, and advertisements.

The page contains a variety of content, including a story about the University of Southern California, its students, and their activities. There is a report on a debate event, with details about the participants and their roles. The page also includes a section on student organization news, including updates on the Board of Directors and Student Council. Additionally, there are references to upcoming events, such as a debate on the stage of the Mechanics Auditorium and a special election for a bill.

The content is rich with information about the university community, its activities, and the various organizations that uphold its traditions and enhance its culture.

Overall, the page provides a snapshot of the diverse and dynamic life within the University of Southern California, capturing the essence of student life and its multifaceted experiences.
discussed the girls entered a small room not far from the street, where a whole and colorful church was served by the church.

ADMINISTRATION

Arkansas entered their last program Tuesday evening, at the home of Mrs. Henry Tonner. The program was in the form of a surprise party in honor of Susan Williams, who has been a leader in that organization for many years. The group was entertained after the home program was presented at the meeting.

The program included a new song, "A Joyful Noise," which was sung by the girls. The program was followed by a dance and refreshments served to the guests.

Open Letters

The first meeting saw a big crowd, and this policy is expected to continue throughout the year.

The schedule for the rest of the year will be announced later.

Badgers Take Count of Puget Sound Eleven For Fifth Straight Year

PACIFIC ROMES THRU LOGGERS FIRST HALF

Pine Gives Loggers a Lone Goal

GOOD CROWD OF REPORTERS ACCOMPANY GAME

A worried network was submitted by the College of Puget Sound football team in their game with Pacific University last Saturday. The Tigers held the Loggers to the low score of 11-0.

The game was a revelation to the network of the fact that the Pacific intercollegiate worlfd. The Tigers had every advantage of the game marred during the first half as defeat was the superior team. Their ideas of what type and skill never were exalted by the local coaches. The Pacifics used a formation that emphasized the weaknesses of the Loggers.

Men who are not out for football and in college are frequently asked to turn up for the game and give it their all. Such a request was not made. The Intercollegiate Committee of the Tacoma Branch staged a trip to Seattle over the weekend. The meetings on the program were devoted to the business of the lodge as well as entertainment for the members. The officers of the lodge will hold their monthly meeting on Wednesday of next week. The next business meeting of the lodge will be held on November 25th. All members are requested to be present. The officers and committee members are requested to meet with the lodge at the lot at the corner of 7th and Grant Street on November 25th. The meeting will be held at 7:30 p.m. The lodge will be in charge of the entertainment for the members. The meeting will be held in the lodge room at the corner of 7th and Grant Street.

WE'VE NOT DONE FOR YET! For some reason or other the enthusiasm that up to this week has been current around school on our football achievements has suddenly taken an abrupt downfall. It is possible that because we lost a game, the elderly body has decided to hold the team and has lost its pep enthusiasm over the sport.

Those who saw the game Saturday morning at the Pownal field were convinced that the team achieved something down at Forest Grove that is worthily of your consideration. They succeeded in making a team of young men who were playing better football than they did throughout the game right from the start. Many of our backers who followed us around the field watching us play the better football at least during the first half. And yet our man battered and punched and grimly kept fighting and never once quit in their trying. That is all we can say of us. In the television game we have been known not to show fighting for winning. We did not have the chance of very lucky or some other reason was advanced. Now we can stand up and honestly say that we were worthy of credit even in our defeat.

The quotas which accompanied the defeat should be the same as in the victory. Many of the fans locked the team is the last ditch, and like the U.C., never once quit.

Never trouble another for what you want. This year we can do for yourself.

THE WORLD COURT

The world's Court, as everyone knows, is the most important court in the world. It is the only tribunal to which the world as a whole is subject.

A U.S. representative of the world court is to be the only person who has ever successfully handled issues of international law before the court. This is a great credit to this country, and we believe that the appointment of a U.S. representative will do much to advance the cause of peace and justice in the world.

"RUGGED WATER"

A Self-Starting Power Plant

Down— the lumbering city electric and coal plants for electric current. Many miles away will be the shining stainless steel plant which will shower a plentiful supply of water. A peacock, open automatically, will clean the coal, and then, with the help of the electric current, it will make the water run through the power plant. This plant will start and run itself. Power plants with automatic control are now making the electric current and use water as a resource to produce it.

Then another milestone has been reached in the generation of electric power. And with present-day industry, more and more will be generated anywhere may be applied everywhere.

The non-technical student who doesn't know where electricity comes from and what it is used for can do for himself.
