Whitman Turner in Good Year's Work

DESERVES TO HEAD SMALL COLLEGES IN MINNESOTA

Whitman Turner is a highly respected figure in the world of education, and is deserving of the title of small college president.
Machinery works: Man thinks

According to college tests, man develops one-eighth horsepower for short periods and one-twentieth in steady work. As a craftsman— a worker who uses brains—he is worth his daily wage. But as a common laborer, matching brown against motorized power, he is an expensive luxury.

With a sixty-horsepower motor, for instance, one man can do in a week of sixty common laborers. He is paid far more for his brains than his brawn.

The great need of this and future generations is for men who can pipe, and direct. There is ample work for all of us, but great skill and education, and direct knowledge of the never-ending application of brown-surfing electricity.
Puget Sound Scoops

The future football season will be dull for the majority of the teams in the Pacific Conference. The Pacific Conference has lost its leading teams to the National Football League, and the remaining teams are not as strong as they once were.

Puget Sound and Washington State are the two teams left in the conference with a football season to look forward to. The two teams will play a game in Seattle on October 1st, and the winner will receive the title of the conference.

The game is expected to be a close one, with both teams evenly matched. The Puget Sound team is led by their strong defense, while the Washington State team is known for their powerful offense.

The game will be played in front of a packed stadium, with fans from both teams expected to attend. The winner of the game will have a chance to advance in the national rankings, and the loser will have to work hard to improve their team.

Overall, the future football season is expected to be a exciting one, with games full of action and drama. Fans of college football should not miss out on the Puget Sound-Washington State game, as it is sure to be a classic.

You seek as life—a thing that lies out the best in you, and you appeal only to the highest motives in others. You are selfish in difficulties: you shoulder responsibilities willingly; you can repair the means necessary to obtain a difficult end, you are willing to accept, and able to discharge duties of leadership in club, school, town, county, or state. You are patient in the school room, imperious, thorough, sociable, willing to spend and be spent. You are sought after and admired by your friends as a leader in action, as an influence by the way; you are not driven by a spirit of independence, as an aristocrat by the crowd as an arbiter of the people as a dictator. You are able to influence children as a companion by the hand, as an instructor, by the ignorant, as a confidence by the pampered, and as a friend by all your acquaintances.

Central Board is taking a wise step in considering a

the problem that has been in use for the past

few years. The system as it now stands does not recognize a
great deal of good by not permitting some students from

excusing a number of offices in the various organizations of

the school to the detriment of efficiency. The great criticism of

European students toward the American college education.

It seems that in order to have a well-rounded student body we must have a

multitude of offices and activities that call for students' time and attention.

Since this is a matter of business, old point systems does not

allow the students who are capable and willing to accept the responsibilities.

The present system is not a large enough

sum of money prevailing the schoo's standpoint is the same.

This last year Central Board has decided to do the

whole educational machine.

It seems reasonable now and should Central Board resolve

in future years to put this as much

the student body for their work.
