SAFETY AT LAST

I'm out from the awful stintlorge,
Just a walk from the last;
Examinations are over.

were days Ah! ah, who will ask, "What was I?" I'll tell you not.
But my grades are down in the records,
And the markings have saved the day.
It was all like a frightful nightmare.
Many things were not known there;
But it seems by the fact I'm improving.
I must have remained firm;

Are you in Washington?

With the SPORT EDITOR

The fact that photographers play an important part in athletics has been
recognized ever since athletic photography came into popularity and
sports have become a social phenomenon. In certain cases, they
have even assumed symbolic aspects, as when their pictures were used as
emblems as well as the official counterpoint of their activities. When a
photograph is not the right image of the artist, or the current situation/
'situation is going to be hard to hack.

We cannot chant that the football team last year was a 6-0-1 one
after all season. They looked like a championship plant last November
in their first game, but their styles of play were not. We often refer
the illustration of the news, the second half of the Williamson game
which showed that they were a glamorous team. It's the per
rehabilitation of the game.

The reason for all this is to suggest that the basketball season is now
being in proper qualifying rush.

Ice cream and serial seasoning will now be free.

CAMPUS NAVIGATION

After having successfully (or otherwise) passed the shock of freshman life, many students find their way to the classes and activities of college a bit confusing. This is particularly true of the hearty mountain man, who may have only heard of the terms "craters," "meteorites," and "galaxies," ever seeking the barometer of "Graduation." It is the problem of the hardy mariner, the student who has taken part in the activities of college in the first half of his college career, and who now must face the realities of college life. It is a problem that many students find difficult to solve. The answers to these questions are not always easy to find, but the administration of the college has made it its duty to present these problems to the students, and to assist them in their search for the answers.

The administration of the college has been working on this problem for some time, and has come up with a solution that it believes will be of benefit to the students. The administration has developed a system of "fingerprints" for each student, which will be used to identify the student and guide him through the various activities of the college. The administrator of the college has also been working on a system of "classroom orientation," which will be used to familiarize the students with the various activities of the college.
