A hypnotic sport that during the last of the last few years more and more people are taking up is basketball. Only occasionally enough that this newspaper is taking up the game and going to meetings, the games, and a good deal of the game is just being played, which makes it very attractive.

Our Basket men have been playing and will continue to play as long as there is a game to be played.

The Capital City Basketball League will continue to play as long as there is a game to be played.

SCIENCE

THE NEW DORIS CANDY

The business which runs every public place, give its income to the recreation of the public, and its development will be a source of satisfaction to all. The man who does not need a small place or two will be able to afford one, and the man who has the advantage of a small place will be glad to see it thrive. Many small places, however, are not able to make their income to be satisfied with the rule of the public.

MEPHIS REAR

Washington was the home of the Amphictoniugui tradition. The Amphictyonis were the oldest of the United States, and they held a prominent position in the American republic. **REUNION**

**Collegeian**

By Elizabeth Stark

All that Peter Richard could think of was that his life was over. The moment he had mumbled his answer to the question, he knew he was going to be in trouble. The schools would not stand for such an insubordinate attitude. He had always thought of school as a place where he could do as he pleased, and now he realized that he had been wrong. He knew that he would have to leave school and find another way of life.

collegians are either very mean or very kind depending on the occasion. Sometimes they are very mean, taking their revenge on those who have wronged them. Other times, they are very kind, especially towards those who have helped them.

The College of Southern California is one of the largest universities in the United States. It was founded in 1880 and has a student body of over 30,000. The university offers a wide range of programs, including business, engineering, and law.

Peter had struggled with a determination to prove himself as a student. He had taken it upon himself to study hard and make the most of his time at college. He had finally succeeded in passing his exams, and he knew that he had made the right decision.

Peter was nervous in his first class. He had always been a good student, but he was nervous in his first class. He had studied hard for the exam, but he was still nervous. He was afraid that he would not do well on the exam. He had prepared his materials, but he was still nervous. He was afraid that he would not do well on the exam.

Peter was nervous in his first class. He had always been a good student, but he was nervous in his first class. He had studied hard for the exam, but he was still nervous. He was afraid that he would not do well on the exam. He had prepared his materials, but he was still nervous. He was afraid that he would not do well on the exam.
