Some New stuff in the Library

The new book shelf is open, and an

card catalog was presented to the library by Mr. Mackenzie Smith more than a year ago. This morning the catalog was presented to the library by Mr. Mackenzie Smith and Mr. P. W. Coffin. It is now in full operation and is proving a valuable addition to the library.

The book, "Intercontinental American Literature," is bound in leather and contains 1500 pages. It is published by the American Book Company and is a standard work on American literature.

The work is designed to give a comprehensive history of American literature, from the earliest days to the present time. The author is a well-known scholar and has written many books on the subject.

The book is divided into two parts. The first part is an introduction, and has been written by a distinguished scholar. The second part is the main part of the book, and is devoted to a detailed study of American literature. The author has arranged his material in chronological order, and has divided it into several sections. Each section is devoted to a different period in the development of American literature.

The book is well written, and is a valuable addition to the literature of the subject. It is an excellent reference work, and is sure to be a standard work on American literature. It is now in full operation and is proving a valuable addition to the library.
