

**Baseball Squad to Meet Huskies**

Marion to Journey to Seattle in Play Washington University Varsity School

Baseball postmen on the Logger squad will travel to Seattle this afternoon, to meet the varsity baseball team of the University of Washington—on the university diamond.

Coach O. H. Darnell has his earlier squad in for the game which is scheduled for 3 p.m. Tuesday.

The performance of the game will be determined by the fate of the team. A win is the only result of the game which is scheduled for 3 p.m. Tuesday.

**New Smythe**

Starter经验 will be in the upper west.

A new starter is being held in the middle of the line. The
team has been huge last week.

\FOR THE
Tennis Ladder To Commence

Thomas, Manager, Makes Announcements for New Men

Putting up the men’s ladder tennis tournament will be made early next week according to David Thomas, manager, of the Elks tennis court. The ladder for the top of the ladder will consist of twenty men. The first round will be a match between twenty-five men who have played teams of twenty or fewer.

Shire-isms...

The ladder dropped its teams to be played on Portland Wednesday.

The game was made up of a local tennis club at the Shire tennis court and the Shire members were the tennis players.

A neatly executed double play from the Shire team play the Washington varsity team.

"quality—always at a saving"
It is evident that this is the last issue of The Trail to be collated by the present editor. The readers, (if any), will evidently have to make do with the litany of uninitiated and uncorrected errors that are always a certain amount of satisfaction coupled with a little regret on completing a task—satisfaction in knowing that the task has been done and regret on not realizing you through the editing process.

Speaking of satisfaction on editing the first issue by one who is also working as hardworking as he is accurate as a judge, I wish to thank my new editor, Bruce Thomas. Mr. Thomas has served as news editor for the past semester and has been one of the most critical editors of the H. C. L. column. I should also like to say that through a system of student criticism and to bring about a closer linking of the between faculty and student body.

The staff has handily filled the spirit of cheerful co-operation and has made our added work together a pleasure.

In one of these "farewell stunts" there is always a certain amount of satisfaction on looking forward to the next year and still feeling the same way about the old one. May the staff be a constant source of joy to you.

Sincerely,

[Signature]

ALBOTT HOBSON, JR.

FOREWORD

"It is generally the policy of The Trail to treat an unimportant subject as an unimportant matter on the ground that there is no particular reason for the matter in which our college radio program has been published is unimportant. While it is not the policy of the College of Puget Sound to publish the news of the world, it is the policy of this newspaper to publish the news of our college."

Our Black Eye

"It is generally the policy of The Trail to treat an unimportant subject as an unimportant matter on the ground that there is no particular reason for the matter in which our college radio program has been published is unimportant. While it is not the policy of the College of Puget Sound to publish the news of the world, it is the policy of this newspaper to publish the news of our college."

The aesthetic policies of the past year have been unprecedentedly successful in giving the student body a better understanding of the world in which they live.

Puget Sound radio station KVI started a successful experiment in American Broadcasting. The station has been located for some time in a building that has been used for commercial purposes, but it has recently been moved to a more modern and comfortable studio.

This is a series of some things over a hundred cuts, beautifully done, with a strong, capable technique that carries one along. A strong modern flavor is evident in the program, which is running at the Fox Theatre.

Novel in Woodcuts

One novel is not well sold, for it is not in sale. It is in itself rather unimportant, but it is something that even Lord Lytton could not have sold.

But there is also a good deal of satisfaction in seeing the expression of success on the face of the writer, for there is no greater satisfaction than to see the writer's face when he sees the work he has been working on for a year.

In one of these "farewell stunts" there is always a certain amount of satisfaction coupled with a little regret on completing a task—satisfaction in knowing that the task has been done and regret on not realizing you through the editing process.
