METHODOLOGICAL SURVEY OF COLLEGE QUESTIONING ADMINISTRATION

Men From the University of Chicago Give Elaborate Quizzes in National Survey of Methodist Colleges

For the past week the College of Poughatton has been the subject of a celebrated national survey under the sponsorship of the National Educational Board of the Methodist Church. This survey includes a comprehensive review of all academic exercises, which will be made by the university's faculty. The purpose is to be a thorough one, and it is estimated that the study will be given to the general public.

Women's Team Will Debate W.C.S. Monday

The president of the college, Dr. John Calvin, has announced that the Women's Team will be invited to debate the W.C.S. team on Monday. The president has indicated that the debate will be held in the college auditorium at 8:00 p.m.

Exhibit Shown by Art Pupils

Students of the New York School of Design have presented an exhibit of their work at the college. The exhibit includes paintings, sculptures, and photographs by the students.

Davis Gives Three Addresses

Professor Davis has delivered three addresses on the subject of art. The addresses have been well received by the students.

TO TRAVEL ON DEBATE TRIPS SOON

Heavy Schedule Featured on California and Oregon Trips

Treveling Debates Chosen for State Trips

In an attempt to give a complete overview of the state, the college is planning to send a team to each state. The team will consist of five members, who will cover the entire state.

New Students Number 41 With 21 Freshmen Just Beginning: Many Old Acquaintances Come Back Again From Other Years

With the registration figures lower than last semester, the college is planning to send a team to each state. The team will consist of five members, who will cover the entire state.

Class Elections Very Lively

Many Unopposed

At the class meeting held a few days ago, the president of the student body indicated that the elections were very active.

New Freshmen

Out of the 19000 students enrolled for the fall semester, 19000 were freshmen. The majority of these freshmen were from the city area.

Students who are interested in joining the Freshmen Class may register at the Freshman Office.

New Freshmen

Many students who have been enrolled for the fall semester have joined the Freshmen Class.

New Dean of Women Begins Semester

Miss Alice Martin has been named as the new Dean of Women. Miss Martin has taken over the duties of the previous Dean of Women, who has retired.

Two Women's Teams Will Debate W.C.S. Monday

The president of the college, Dr. John Calvin, has announced that two women's teams will be invited to debate the W.C.S. team on Monday.
Fircrest Golf-Court to Be Scene; Spur-Knight Affair

Suppositions of Friday the Thirteenth to Be Theme of Evening

One of the smart affairs of this week’s calendar is the “Spur-Knight Affair” to be held Friday night at the Fircrest Golf-Court. Suppositions of Friday the Thirteenth to be the theme of the evening. Mr. and Mrs. Ronald J. Wood will entertain the patrons and participants. The participants will include Vincent Bloomquist, and Mrs. Harry Quinlan, whose parties are scheduled for the occasion. The hors d’oeuvres and cocktails will be served at 8:30 and the entertainment will begin at 9:00. The dance will conclude at 12:00 o’clock. The fee for the dance is $2.00 per person. The proceeds will be donated to the Fircrest High School Boosters Club. The event will feature live music by the Fircrest High School Band. The evening will be a formal affair, with men wearing suits and women in gowns. The dress code is black tie. The event will be held on the Fircrest Golf-Course, which is located on Fircrest Boulevard.

Lambda Sigma Chi has Benefit Bridge

The first prize of the Lambda Sigma Chi benefit bridge sale will be a $25.00 gift certificate to the Fircrest Golf-Course. The proceeds from the sale will be donated to the Fircrest High School Boosters Club. The event will feature live music by the Fircrest High School Band. The evening will be a formal affair, with men wearing suits and women in gowns. The dress code is black tie. The event will be held on the Fircrest Golf-Course, which is located on Fircrest Boulevard.

Bald’s Saloon

The Bald’s Saloon was bright and bustling with activity last Friday at 9:00 o’clock. The bar was filled with patrons enjoying their favorite drinks and socializing with friends. The atmosphere was lively and energetic, with music playing in the background. The bar was located on the corner of Fircrest Boulevard and Main Street.

Ceremony, Events, and Announcements

The Fircrest High School Band will perform at the Fircrest High School Benefit Bridge Sale on Friday night at 8:30 o’clock. The proceeds from the sale will be donated to the Fircrest High School Boosters Club. The event will feature live music by the Fircrest High School Band. The evening will be a formal affair, with men wearing suits and women in gowns. The dress code is black tie. The event will be held on the Fircrest Golf-Course, which is located on Fircrest Boulevard.

For Service that Satisfies try the Superior Grocery

Superior Grocery located at 255 South 20th Street will provide service that satisfies. The store offers a wide selection of fresh produce, meats, and dairy products. The store is open from 8:00 a.m. to 9:00 p.m. Monday through Saturday and from 8:00 a.m. to 5:00 p.m. on Sunday.

For the Best Taxi Service Call Mel 431-7977

Mel 431-7977 is the number to call for the best taxi service in the area. The service is available 24 hours a day, 7 days a week.

Seamen's Flower Shop

Seamen’s Flower Shop is located at 306 North 20th Street. The shop offers a wide selection of fresh flowers and gifts. The shop is open from 8:00 a.m. to 5:00 p.m. Monday through Saturday and from 10:00 a.m. to 4:00 p.m. on Sunday.

Mystery of the Ring

The Fircrest High School Band will perform at the Fircrest High School Benefit Bridge Sale on Friday night at 8:30 o’clock. The proceeds from the sale will be donated to the Fircrest High School Boosters Club. The event will feature live music by the Fircrest High School Band. The evening will be a formal affair, with men wearing suits and women in gowns. The dress code is black tie. The event will be held on the Fircrest Golf-Course, which is located on Fircrest Boulevard.

**Girls Receiving Red Fraternity Letters**

After many months of hard work, several Pebble Beach girls have meritoriously completed the requirements for entering the senior class. The group was honored at the W. C. A. after the induction of Miss Mildred Murphy, O. S. women's glee director.

Most prominent, Mabel Adams, Betty Parker and Jean North are the girls who fulfilled the requirements and secured for themselves three of the coveted white and red insignias which is given by the Red Cross. One of a graduating class of eight only four earned.

The final tests were given the first and second Tuesday evenings in January by Miss Myra Clark of Elkhorn High School and Miss Lela Reed of Robert Gray installations. In order to pass the test the girls had to master many rules and codes, regarding the rules, the girls must have a life preserver and be able to swim for a certain length of time.

Several girls are the four girls who filled up the round, red and white felt Log in August School.

Curbside Opinions

WILL DURANT AND ENID

Famously, both he and she have been called "Dr. Durand" or "Durand," their initials have been confused. But the two have never been known to work together. Their only connection was that they both lived in the same city. They never met -- and they never spoke to each other.

However, this doesn't mean that they don't respect each other's work. In fact, they both consider themselves "social scientists," and they both believe in the power of education to change lives.

Dr. Durand is a well-known anthropologist who has spent his career studying the effects of poverty on children. He believes that education is the key to breaking the cycle of poverty, and he has dedicated his life to teaching children from disadvantaged backgrounds.

On the other hand, Dr. Enid is a well-respected historian who has written extensively on the history of slavery. She believes that education is the key to understanding the past so that we can avoid making the same mistakes in the future. She has spent her career researching and teaching about the history of slavery, and she has written several books on the subject.

Despite their differences, both Dr. Durand and Dr. Enid agree that education is the key to a better future. They believe that everyone deserves a chance to learn, and they're working hard to make sure that everyone has access to education.

As our society becomes more diverse, it's more important than ever to understand the effects of poverty and the history of slavery. By working together, Dr. Durand and Dr. Enid are helping to create a more equitable and just society for all.

This Little Tube Measures Stars

Centuries of Light Years Distant

By MEANS of a new vacuum tube called a low-current tube, astronomers can gather the first of stellar news with greater speed and accuracy. In conjunction with a photometric tube, it will help render information on the amount of light received by the stars, its position and direction, and position and direction of stars at distances of light years away. It is further applicable to such laboratory as demand the more delicate measurements of electrical current.

This tube, which was manufactured in the laboratory of General Electric Company, is a new development in the field of stellar research. The new vacuum tube, which is called the "astronomical tube," is a vacuum tube that is specially designed to detect and measure the light from stars.

The astronomers in the laboratory have been using this tube to study the light from stars, and they have been able to gather more accurate information than ever before. The tube is able to detect the light from stars at a distance of light years away, and it is able to measure the amount of light received by the stars.

The astronomers believe that this new tube will be an important tool in the field of stellar research. They believe that it will help them to gather more accurate information about the stars, and it will help them to understand the universe in a new way.

This tube is a major development in the field of stellar research, and it is expected to have a significant impact on the field of astronomy. The astronomers in the laboratory are excited about the possibilities that this new tube will bring, and they believe that it will help them to gather more accurate information about the stars.
