**Your own column is your own column! In it we will print absolutely anything you care to put in your paper.**

The results of this questionnaire will help the new staff to give you a better paper.

**CUSTOMARY EDITORIAL**

It has become fashionable to speak of the "revolution" in the way we write editorials. The Editor, however, feels that it is not necessary to revolutionize. What we need is a little constructive, short, and carefully written paper.

We ask you to take a course in "Dedicated Amusement," and we shall be happy to help you. Our problem is not to write an editorial of greeting with his famous lines, "In the country which America was founded in," but a paper that will be read with interest and appreciation.

Your paper is your own paper, not ours.

**Student Letters**

"The custom of the nation is the inscription on the cornerstone of James Hall, a very good inscription, for the three ideals to which the College is dedicated are the foundations of the life of today. The custom could be so simple that it would wholly absorb the significance of Learning, Good Government, and Christian Religion. But it is only the name of this institution is to do that thing. How well we have observed the principles, the ideals of the founding fathers, if we could have printed a paper with the title, "We will have a paper that is not read, that is not thought about, that is not appreciated, that is not read by those who are interested in the country which America was founded in.""
