General Manager to Administer Class Expenditures; Submit Amendment to Raise Student Body Fee

All proposed amendments to the Student Constitution have been accepted by the Central Board at Monday's meeting. They will go into effect immediately. Next Thursday, March 10, the change in the constitution will be voted upon by the student body.

The proposed amendments are as follows: The managerial system, in which there will be a manager for each sport, except baseball, will be discontinued. The appointment of the manager will be made by the student body, with the platform system of security will be followed by the approval of the managers. The budget for basketball must be signed; of baseball, and track at least junior and senior managers.

Limit Sweater Awards

Students will be restricted to men making a varsity team last requiring one in each sport that will be awarded. However, letters will be presented each spring. Seniors who win the award, each letter, in the first time in their senior year will receive a sweater.

The election of class officers will be held annually instead of annually. In the absence of the election of the officers, the election of the freshmen, who will hold elections each semester. Class funds are to be incorporated into the A. B. C. P. F. financial expenditures. The elections will be made by the Central Board only upon presentation of a regulation sheet by class treasurer and class president.

Proposed Amendments to be submitted to the student body at election next Thursday, March 9. The second class fee of 25 cents will be included in the student body fee at time of registration. This fee will be raised accordingly. The maximum number of members will be 100.85 instead of 125.4. This provision does not necessitate a raise in student fee to $3.00, but makes this the maximum amount which can be charged. Thus the fee may be increased by Central Board in case of an emergency.

determined to bring the Northwest Conference football championship to the College of Puget Sound for the 1932-33 season. Senior gridiron warriors under Coach Sandberg began spring training Monday. The number of men participating was 24. As the sessions reach their height, about 28 candidates will turn out regularly.

Practitioners are not limited to lettermen, and anyone who desires for a position in the tennis league and white aggression is asked to contact Coach Grant as soon as possible. With a small squad to handle, he will be able to give individual practice and instruction on the weak points of each.
STUDENTS BEWARE

Central Board made a bold but justifiable by-law to the constitution limiting the granting of athletic sweat- ers to two or more year letter men. This limitation does not effect seniors winning an award for the first time, however. At first such a by-law seems too limited and rather narrow on the part of the governing body, but on second thought it is an intelligent move on the part of the authorities.

A year ago this spring when the athletic awards were made, 337 sweaters were presented to the seniors going to high- school. This brought about an overabundance of Logger sweaters and somewhat drained the college fund. Stop and think of the fellows that have been wearing their sweaters and how much hope for College of Puget Sound forestry students, who rely on the mountain and road work for a good half of their income. This limitation does not require vacuum or gas, there is nothing wrong with the sweater, but it does cut down on the number of those who must wear them. Perhaps this restriction by Central Board will remedy the problem to some extent.
