Excuse Seniors From Exams

Twelve Students With "B" Average Avoid Finals

Seniors having an average of "B" or 2.0 or better for three or one half years of college work, will not be required to take final examinations for his last semester according to Dean Raymond G. Drewry. This was decided by the administration at its meeting last week. However any senior may be required by his instructor to take the final examination if he does not have an assured grade of "A" or better.

I believe that this will provide a stimulus for freshmen to give forth their best work. The change" says Dean Drewry. "Students who have done such work during the years will be of such caliber that it would not be necessary for them to take the exam."

All work art on the Tamanawas is to be done by Mr. Dorne Marlin, freshman chairman of the art department. He will probably do the work in the studio of Jack Mathlin, last year's editor of the Tamanawas, who was very pleased at the opportunity to work.

This is the first time that a work of the present freshman class will be done for the entire college for the Annual.

Another feature are the large printed pages. These are emblazoned with the names of the members of the squad, and also some group picture.

The paper was done by Molloy Company, of Chicago, the printing firm and binding are being taken care of by Johnson-Cox Printing Company, and the Liberal Engraving Company, firm in charge of the engraving on the Annual.

A. S. C. P. S. HEADS TO RECEIVE RINGS

That to each outgoing student body president a ring will be given was the decision reached by Central Board at the meeting last Monday. The style of ring will be left to the discretion of the president while the choice of the ring will be left to the discretion of Mr. Mathlin, secretary of the firm, and the engraving on the ring will be left to the discretion of Mr. Wright, printing manager.

Sanctions

The scheduled course of study before school is to be completed in June, so that it will be possible for students to plan their programs before vacation.

Leggers Uncertain of Going to Conference Meet

For the first time in Puget Sound Conference history, the Leggers are uncertain of sending a team to compete in the conference meet at Walla Walla, May 30. This uncertainty has been caused by the fact that the athletic department of the college is short $500 which is to be made available on the morning of May 20, so that the team can secure the money necessary to travel to Walla Walla. In addition to this, each manager will keep his own book and the money in the office will be carried over by that department. This will not prevent the Leggers from continuing their passioning of ready funds and forcing departments to start the campaign early in order to be able to meet current bills.

For the second consecutive year, the Puget Sound Trail has been awarded the First Class Honor Rating for universities and colleges belonging to the National Scholastic Press Association. This recognition is not only a freshiian has had the chance to see the Puget Sound Trail has been awarded 765 points out of a possible 1000 performances over the country and has received very high praise from the nation's dramatic critics.

The scene is laid in the Catskills and has received very high praise from the nation's dramatic critics. In order to take care of general winter expenses will be taken out of that department's apportionment for the coming year.

This magazine is published in Tusaee College Students Press Association. This award carries with it a $200 prize and a subscription to the Sigma Mu Chi fraternity. In order to take care of general winter sports expenses will be taken out of that department's apportionment for the coming year.

SPORTS PROGRAM DRAWS TO FINISH

By Ray Campbell

Baseball and track schedules are soon to be completed and then Father Time will ring down the curtain on another act of Logger sports. Looking back on the past year of C. P. S. athletics, the outstanding scenes may be recalled. Let us look at them.

Roy E. Sandberg ends his initial start with local sports—be it con- tinued or abandoned—of Logger campuses. The Sigma Zeta Epsilon, 5 1/2 months ago, was the campus of Sigma Zeta Epsilon track meet over the preliminary

The Peter Puget defeated the Washington Bearcats downed Coach Sandberg's nine in both games of the two-game series and remained leaders of the Northwest Conference. The Loggers lost 7 to 3 in Tuesday's fray and 6 to 5 in Wednesday's game at the Ath-letic Park.

Loggers Defeat

Bellingham Team

Logger track and field men scored their fourth consecutive victory of the season Saturday afternoon on the home oval, winning an easy 8 to 44 verdict over the Bellingham Normal normals. C. P. S. won almost every event and triumphed in a manner that sent all predictions to the dustbin. The Bellingham normals brought down in the cellar positions, he is credit- ed with bringing outside athletes into the college sport program.

The Intramural playground schedule drawing to a close, the Sigma Zeta Epsilon fraternity has advanced into first place by de- feating the Delta Pi Omicron outfit. The Omicrons and Kappa Phi are now in second position.

In the games played in the past week, the Sigma Zeta Epsilon downsed the Delta Pi Omicron 13 to 3 in last Friday's game. Monday the Zeises again won, this time defeating the Peter Pugets 17 to 3. On Tues- day the Delta Kappa Phi outfit over- whelmed the Sigma Mu Chi team by the score of 24 to 6. The Peter Puget lost a close game to the Alpha Chi Nu fraternity by the score of 7 to 3 in Wednesday's game. Thursday the Omicrons ousted the Mu Chi group by a 14 to 4 count.

SCORES WANTED

Louis Grant, Intramural sports director, requests that captains of the winning golf and tennis teams turn in the scores of the games played. All complete scores with the names of the players must be turned in im- mediately after the games are played.
TRANSMITTED
This week's Trail marks the end of journalistic activities for the second semester. Looking back, there have been some worthwhile projects completed during this year. Puget Sound College enters into a new era of learning with the completion of the endowment. College standing has been furthered by the records of the debate squad, the Adelphian Society and Dramatics, whose work has been of the highest quality. The presentation of the new organ is looked upon as a step towards higher culture and appreciation.

Student activities freed themselves from a handicap when the Central Board passed on the plan to guarantee departmental funds and prohibit needless expense. More interest and a sense of security will be instilled by this new plan, and the outlook is bright for next year with the acceptance of the per-cent apportionments. —B.

“ELECTRIC BULLETS”

The result of exhaustive wind-tunnel tests of conventional trolley car models revealed that at speeds of 70 and 80 miles per hour, 70 per cent of the total power was consumed in overcoming air resistance. Streamlining saves approximately 50 per cent of the power. When the Philadelphia and Western Railway Company decided to replace its cars with faster and more efficient equipment, it chose "electric bullets"—new streamlined cars—each powered by 4 G.E. 700-hp. motors. The cars, constructed of aluminum alloy, with tapered noses and tails, are much lighter in weight and capable of greater operating efficiency.

In developing transportation apparatus, college-trained General Electric engineers have conducted extensive tests to improve operating conditions. On land, on sea, and in the air, to-day's equipment is safer, swifter, more dependable, and more comfortable.
