Many contacts were made by the society with high school students and faculties in Eastern Washington and Idaho.

Martha Pearl Jones, who chaperoned the trip, said, "The tour was decidedly successful from the standpoint of the crowds and the attitude of the audiences who heard the concerts."

The task of editing this paper, with its consequent joys and griefs, now rests upon other shoulders. In order to justify the confidence expressed at the recent election, every effort will be expended by the new editor to give the school a paper of which students, faculty, alumni and friends of the college may be justly proud.

As to the policy of the paper it is only necessary to say that it will be edited from a purely non-partisan point of view with the best interests of CPS always in mind. "Support of those ideals that assure a well-balanced program for CPS", adequately expresses the attitude of the new regime.

However, in our enthusiasm for the future, let us not pass by, without a word of appreciation, the work of the former editor and business manager who have worked long and faithfully to give CPS the best paper that it was possible with the funds available.
