Come Home Magrini;
All Is Forgiven!

A candidate has been missing from our campus almost all week! A blanket committee composed of faculty, students and Alumnae has searched high and low for Mr. Louis Magrini...but all to no avail.

In a well-intended yet misdirected effort CPS Walton Winfield placed "orange" athletes. The particular victims of his well-intended yet misdirected effort are New Mexico State University. New Mexico's football team must play their first and last game.

Magrini's scholastic were too general. A few athletes—not over a hundred—might consider themselves scholastic athletes without all our variance.

Neil is content to be directed too slightly in the womb who came to college primarily to play varsity. They are the products and not the means of the system which endorses athletes to publish a scholar.

In fairness to the varisty men, it must be admitted that those who work really hard. Athletes have no less of free will. Persons with their own characters should make a decision at once.

If we are to accept the statement that varsity athletes help grade students and help the college—we must ask why the decision turn over Coach Bixler at least 20 full scholarships annually. Let's quit dealing from the bottom. We must make our own decisions on the basis of a varsity program—as is done in the "O" and "U" and women.

Another alternative is to eliminate varsity participation—at Red College—and stress intramural programs.

A third angle—hardly an alternative—is to accept varsity athletes as a device to develop the individual. No attempt under this setup would be made to attract athletes—let those who attend CPS for an education turn out for athletics as a secondary interest.

The present situation is unhealthy. Our coach has enough to do without undergoing harrasing looking jobs for his men who are financially unable to get to school without financial assistance.

Our future or another elimnates various men. The coach must plan a year in advance. CPS football, golf, etc., is a complete and well-organized program. The Washington State college has the highest financial power that support the out of our athletic program which emphasizes the academic to a great degree. We reluctantly take the stand that the college pays attention.

1. Either recognize varsity while handsomely and turn over 20 scholarships to Coach Bixler.
2. The other would create a higher specialized intramural program.

Club Notes
A gallery to be held at Ve. Defrances today. May 18, during which efforts for the fall semester will be elected, will feature the last meeting of the International Relations club. Reuben Shlaman has been elected President. Various announcements regarding the club's plans for the coming year will be made.

OBSERVATORY HALL OF FAME
THE MAN OF THE SEMESTER...Edward Holbrook, a junior, is the man in the observatory hall of fame for the past semester. Holbrook earned his place by being the most efficient and considerate of our club's patrons. If fifty people appear in a minute you certainly don't destroy them by dealings with the public. Holbrook's name should be known to the entire industry.

OBSERVATORY HALL OF FAME
THE LADY OF THE SEMESTER...Frances Homer, a senior, is the lady in the observatory hall of fame for the past semester. Frances earned her place by being the most considerate of our club's patrons. If fifty people appear in a minute you certainly don't destroy them by dealings with the public. Frances's name should be known to the entire industry.

The List Wind-Up...Incidentally, the best phrase we encountered all semester is this one...

"There is built in solitude: character in the stream of the world!"

With the Delta Mu Phi Inter-collegiate football title in question as a split program this Thursday, the basketball double-header may be changed to the following Tuesday to avoid conflict with this important Pacific Fairlawn banquet and picnic.
