Spring Festival
To Be Gala Occasion

Spring Festival will open on campus Friday, May 15, with a luncheon in honor of Queen Joanne Wood and Princesses Mercedes Cox and Janet Carlson. In the royal court will be class representatives Dorothy Powell and Donna Dettrich, along with princesses from Lincoln, Stadium, Clover Park, Renton, Kent, Auburn, Sumner, Puyallup, Enumclaw, Buckley, and High Line high schools. Incoming and outgoing members of Associated Women's Students' cabinet will be honored guests. Among these will be Maris Anderson, new president, and Jo Anne Lowry, president retiring. Dr. R. Franklin Thompson, Mrs. Lyle Ford Drushel, and Mrs. Doris Bennett, AWS adviser, will be the guests.

After two o'clock an assemblage in the Quadrangle will precede the coronation procession. Dr. Thompson will give the welcoming address.

Wally Tonstad, master of ceremonies, will present the Queen and her attendants. A court jester will add to the merriment. Song Fest winner, Pi Beta Phi, will provide background music and Kathryn Standifer will offer vocal selections. Rev. Chester B. Fish will direct square dancing.

Concluding the ceremony will be the traditional recessional, the royal court being escorted to Jones Hall by the Spurs, who will carry the daisy chain.

After the recessional, open house will be held from three until five o'clock. Knights and Spurs will conduct planned tours through the departments. There will be special displays in Howarth Hall and the occupational therapy department. The home economics department will also be open and refreshments will be served in these various departments. A special part of the tour will be a visit to the art gallery of Jones Hall, where a student-produced art show will be on display. The exhibit will include all forms of graphic arts, pottery, sculpture, and textiles.

Gen Fisher and Pat Parrott are co-chairmen for the May Day Festivities, aided by Doris Soder, open house; Janet Vroman, publicity; Robin Enschede, Queen's attendants; and Ruth Wallen and Marcia Wallin, coronation.

Mrs. Drushel To Retire
After Many Years of Service

A landmark will be missing on the CPS campus when school resumes in the fall. Mrs. Lyle Ford Drushel, dean of women for the past 21 years, is retiring in August.

A product of Winfield, Kans., the dean of women entered CPS as a freshman when her family moved to Tacoma. She was graduated in 1912, after which she entered the teaching profession. For two years she taught in the hinterlands before coming back to Tacoma and Lincoln High School, where she was on the faculty four years.

World War I found Mrs. Drushel in Astoria, Ore., where she did war work. With the peace she returned to Lincoln High, where she taught until her marriage in 1927. The Drushels moved to Grand Rapids, Mich., where they remained until Mr. Drushel's death in 1932.

Mrs. Drushel returned to Tacoma—and CPS—the same year and became the college's dean of women. She spent several summers at New York university, where she obtained a Master's degree in personnel. In future years, in addition to her duties as dean of women, she taught American literature and English composition.

After spending the winter visiting relatives in Texas, Alabama, Missouri, Ohio and Michigan, Mrs. Drushel plans to relax in an apartment near the campus she has been a part of for 21 years.

CPS Long-Range Building Program Moves Ahead

The long cherished dreams of CPS friends and supporters are rapidly materializing as the building program at the college moves into high gear and the first phase of a carefully planned, long-range building program nears completion. Laying out and constructing a campus and buildings over a period of many years so that the end product does not remind one of a patchwork quilt requires far-sighted, long-range planning and a Cassandra-like ability to gaze into the future. Before campus ground can be landscaped, levels of all future buildings must be determined; the earth must be graded to proper level and the water mains installed before lawns can be planted; each tree on the campus must be marked and planned for future deposition. Such foresight went into the plans for the building of the college at the end of North Lawrence street.

The total building program is divided into three distinct phases, and at present the first phase is just nearing completion. Phase one of the building program consists of the building of Todd Hall to house 122 men students; the construction of the Memorial Fieldhouse, with a seating capacity of 5000; the President's residence, built by the trustees; the completion of the Music Building, to be completed in time for the fall semester; the completion of the Collins Memorial library, to be completed by next year. Also included in phase one is the addition of considerable equipment and the landscaping of 50 acres of the campus.

Even though phase one is not yet completed, work has begun on phase two. With the completion of the new library, an all-out effort will be made to increase the college endowment fund. The added revenue from this larger endowment fund will be used to raise faculty salaries and to add to the courses and services offered by the college.

The third and final phase of the present building program will consist of a Christian Education building, which will house additional classrooms; a new stadium, to be located on the west bank of the present football field; a chapel auditorium with a seating capacity of 1200 to 1500, to be located on the
south side of the inner quadrangle; and another science building to complete the outer quadrangle, to be located across from Howarth Hall.

Sometime before the final brick is laid in the building program, it is hoped that CPS will be able to boast a new swimming pool at the rear of the Fieldhouse, which was originally constructed with just such a plan in mind.

CPS President, Dr. R. Franklin Thompson, in discussing the new buildings, stated that the college is constructing the finest buildings that can be built, and that no shortcuts or inferior grade materials are being used in order to save a few dollars. Dr. Thompson is in perfect agreement with former CPS President Dr. Edward H. Todd, who said, "We are building for 50 years, and planning for 500."

Commencement Ball To Be Held at Winthrop

The senior class will be honored by members of the junior class at the Commencement Ball, to be given in the Crystal Ball Room of the Winthrop Hotel, May 30. The hours of the dance are from nine to twelve, with Ivy Cozart's musicians providing dance music.

Co-chairmen of the dance, Fran Ellertson and Sail Hendricks, have completed arrangements. Bernadine Budil and Duane Wegner have planned a beautifully-decorated ball room. Entertainment during the course of the evening has been arranged by Don Charleston. Publicity chairman for the occasion is Tom Baker.

Tickets may be obtained after May 15.

High School Debate Coaches Receive Awards

This month the CPS Forensic department recognized the unsung heroes of forensic activity—the high school coaches who lay the groundwork for future speakers.

In connection with the 20th annual high school tournament which was held earlier in the season, Dr. Battin has been making awards to high school coaches who have done outstanding work in high school forensics. Awards are based on team performance, sportsmanship and quality of competition.

High school coaches who have or will soon receive awards are: Harvey Albrecht of Stadium, Sister Lil-
ROTC Cadets March in Honor of Dr. Thompson

Thursday, the 14th of May, was a colorful day here at the College of Puget Sound Campus with the Air Force ROTC Cadets marching in review in honor of Dr. R. Franklin Thompson at the 2nd annual "Prexy's" review. As part of the review, awards for outstanding achievement in Air Science were presented to the following cadets:

Richard L. Colombini received the Air Force Association Achievement Medal for outstanding leadership. The medal was presented by Dr. R. Franklin Thompson. The Department of Washington Reserve Officers' Association Scholarship awards were presented to Michael D. Sheean and Keith H. Hagen for highest scholastic achievement during the academic year in their specialized fields. These awards were presented by Lt. Col. M. M. Scott. Russell L. Wilkerson received the National Sojourners Achievement Awards, presented by Mr. Harold Johnson of the Fort Lewis Chapter No. 89, for the basic student who made the greatest scholastic improvement in Air Science. Mr. L. C. Ceder of the Tacoma Rotary Club presented John G. Bartenetti the Rotary Achievement award, as the advanced student who made the greatest scholastic improvement in Air Science. Dr. R. Franklin Thompson presented the Prexy's Leadership Cup to Mead C. McDonald for the greatest improvement in leadership and drill during the academic year. The American Legion Citizenship Awards for outstanding college and civic activities were presented to Walberg Tonstad and Donald B. Pierie. Mr. William Miller of American Legion Post No. 138 presented the award to Cadet Tonstad, Mr. Norman E. Bradley of American Legion Post No. 2 to Cadet Pierie. The 26th and Proctor Business Men's Leadership Award was presented to Charles G. Adams by Martin Nowicki for outstanding leadership qualities. Tacoma Chapter Reserve Officers' Association presented their annual award to the basic student who exhibited outstanding leadership. This was a double-header as Carroll L. Bagby received the medal and James E. Nelson received a bronze star in lieu of the second award.

After the Cadets had passed in review, everyone adjourned to the Fieldhouse parking lot where a display by Infantry teams from Fort Lewis was set up. A helicopter landed on the campus and was part of the display of military preparedness.

Lt. Col. Fred H. Newman, Professor of Air Science and Tactics at the College of Puget Sound expressed his desire to thank, not only the College officials, faculty, students, but also all the citizens in the Tacoma area for their fine cooperation and enthusiastic support of the Air Force ROTC program at the College of Puget Sound. By making the awards available for presentation to outstanding ROTC students they have really increased the esprit de corps of this unit, and given evidence of the cooperation and support between the civilian and military components. Colonel Newman extended a cordial invitation for all to attend the 3rd annual "Prexy's" review next year.

Betty (on telephone): "How was your party last night?"
Henrietta: "We're having a fine time."

Why do you call your boy friend 'Pilgrim'?
Because every time he calls he makes a little progress.

How far have you got in your Sunday School?" asked one little girl of another.
"I'm past original sin," said the second little girl.
"Humph!" said the first girl. "I'm past redemption!"

What do you call a blackboard painted green—a green blackboard, or maybe a greenboard? De we have blueboards (not bluebeards) at CPS or blue blackboards or black-and-blue boards? It's a problem!

Tense drama at Freshman Stunt Night.

Tamanawas Staff Meets Deadline
For a while it looked as though there wasn't going to be a TAMANAWAS this spring. Last month, although the December deadline had not been met, the staff was quite confident that all would be ready by May 1st. Then throughout the SUB could be heard the screams of Editor Pat Smyth, business manager Jolly Johnson, and Advisor Ed Garrison. The unexpected had happened. Someone had lost most of the photographs, and half of the copy.

The staff was faced with the grueling task of writing copy and taking pictures for over 100 pages in less than a week. The place was literally "hopping." The editor didn't sleep, photographers were running in and out of the office delivering batches of film to be processed and leaving with a fresh load in their cameras. The small staff, some administration stalwarts, and dozens of conscripts were standing three deep in front of typewriters. Classes were cut, and rubber cement flew from the vicinity of the make-up desk.

Finally, three days late, all copy was taken to the printers in Seattle, and the staff settled back. Except for a few minor tag-ends, the book was all finished.

Distribution date has been set tentatively for May 27, Wednesday of 'Finals Week.'
Baccalaureate Service, Confering of Degrees, To Be Held May 31

Members of the Class of ’53 will don cap and gown for the Baccalaureate Service and Commencement Convocation, scheduled for Sunday, May 31, announced Dr. John R. Regester, dean of the college.

Held at the First Methodist church, the baccalaureate service will take place at 10:30 a.m. Following this exercise, Commencement Convocation will be held at 2:30 p.m. in the CPS Fieldhouse. After the conferring of degrees, the graduates will be received into the alumni group by means of the Color Post ceremony.

At the conclusion of the Color Post ceremony, a reception for the graduating seniors will be held at President Thompson’s residence from 4:30 p.m. to 6 p.m. Immediate families of the graduates are invited to attend the affair.

Outstanding Seniors Recognized at Convocation

Outgoing seniors were formally recognized in Chapel last Thursday at the annual Senior Recognition Day event. During the convocation period many seniors were presented awards for outstanding leadership and scholastic ability.

Students with degrees with honors (based on cumulative grade point average throughout college career prior to receipt of first baccalaureate degree) presented by John D. Regester, dean, were: Nathaniel B. Burwell, William I. Davison, Genevieve S. Fisher, Julius LaMonte Haun, Arlis W. Johnson, Robert C. Lowe, Charles F. Morrison, Robert Rudsit, Russell W. Selle, Joyce Willey, JoAnne Wood, Samuel R. York, and Robert Thomas Zelasko.

Elected to Mu Sigma Delta, local scholastic honorary, were Eugene Campbell, Julius LaMonte Haun JoAnne Wood, and Charles F. Morrison. The awards were presented by Wilbur Baisinger.

The Samuel Weir Educational trophy given to outstanding students in education, was received by Teresa M. Tuel and John Van Zonedi. It was presented by Professor in Education, Dr. Raymond L. Powell.

Two students received graduate teaching assistantships to Massachusetts Institute of Technology. They were presented by Regester to Charles F. Morrison (chemistry) and Thomson Stanfield (economics).

The American Chemical Society (junior affiliate) award is presented each year to the senior student majoring in chemistry achieving the highest scholastic grades in chemistry throughout his college years. Charles F. Morrison, this year’s recipient, received the award from Professor in Chemistry, Dr. Philip R. Fehlandt.

The Amphictyon Society Daffodil cup was received by John Van Zonedi. It is given to the senior, who in the judgment of the senior class, has been its most useful and valuable member. JoAnne Lowry of the senior class presented the award.

Ex-Faculty Member Receives Ford Grant

Dr. Richard F. Miller, associated professor of English at Eastern Washington College of Education, was recently notified that Ford Foundation officials have awarded him a grant for the 1953-54 school year to do advanced study in the field of humanities at Harvard University. At Harvard, he will study how humanities can contribute to the development of values in education.

Dr. Miller is a former CPS faculty member.

Greek Organizations
Play Important Role
On CPS Campus

Sororities have been on the CPS campus since 1921. Membership is by invitation in the form of a bid which comes at the end of rush week. The sororities add to the social life of the college. On the CPS campus there are four sororities—two national and two local.

DELTA ALPHA GAMMA was founded in 1921. During the year they have many social as well as other activities. The pledge dance, pledge sneak and Homecoming activities in the fall and the spring dinner dance. The Gammas are well known for their athletic activities.

DELTA DELTA DELTA was founded in 1926 as Alpha Beta Upsilon and pledged to Delta Delta Delta in 1951. Among their activities are the Pansy Ring Tea, Founders’ Day Banquet, Spring Dinner Dance. This year the Tri-Deltas were particularly active in debate.

LAMBDA SIGMA CHI was founded in 1921. Each fall they start the activities with a pledge sneak, followed by the annual pledge dance. In the spring came the annual dinner dance.

FI BETA PHI was founded as Kappa Sigma Theta in 1926 and affiliated with Pi Beta Phi in 1948. Among the year’s activities are the pledge dance, spring dinner dance, Christmas party and Founders’ Day Banquet. The Phi Phi’s have three fraternity queens within their group this year.

Ever since their establishment in the middle 1920’s, men’s Greek social organizations have enjoyed a prosperous history at the College of Puget Sound. Springing from early literary societies, then to local fraternities, and eventually to affiliation with national fraternity groups, fraternities at CPS are represented by six well-known national groups.

They are Sigma Nu, Sigma Chi, Phi Delta Theta, Kappa Sigma, Theta Chi, and Sigma Alpha Epsilon.

KAPPA SIGMA was established locally in 1921 and became the first fraternity to go national in 1948. Located at 1702 No. Alder, Kappa Sigma has long been noted for its achievements in intramural activities here.

A new national on the CPS campus is PHI DELTA THETA, known as Delta Kappa Phi since 1922. The group received their charter from Phi Delta Theta last December. The Phi Deltas at CPS are recognized for their leadership in scholastic achievement over the years, and their activity in many campus organizations and programs. Their house is located at 3722 No. 8th st.

Highlighting the year for SIGMA ALPHA EPSILON, which formed as a local group in 1947, and went national in 1951, was the purchase

LET’S GET ACQUAINTED!

SIGMA NU FRATERNITY

1402 North Oakes

PR 9106
of a new house at 3210 No. 16th. Members of Sigma Alpha Epsilon are known for their outstanding leadership in college activities.

Located at 1425 No. Oakes, the chapter of SIGMA CHI at CPS was formed from the old chapter established in 1927, became affiliated with the national fraternity in 1950. Sigma Chi is noted for its many leaders in the activities at CPS.

In 1948, Alpha Chi Nu, established in the 1920's, became affiliated with the national fraternity of SIGMA NU. The Sigma Nu house is located at 1402 No. Oakes. One of the highlights of the CPS chapter is their annual White Rose formal dance.

One of the big events this year for the THETA CHI fraternity was the ninth regional Theta Chi convention held here. Formed from a local Greek group established in 1927, the chapter received their Theta Chi charter in 1949. The Theta Chi house is located at 2911 No. 15th.

CPS Art Students' Display Opens

Art students from Lincoln, Clover Park, Puyallup, and Olympia high schools were guests of Delta Phi Delta Tuesday at the coffee hour which was part of the opening ceremonies of the CPS annual art show. The art galleries are a show case of oil, water, and pastel paintings; sculpture, designs, drawings, ceramics, jewelry, textile and interior design, and art education. Bill Nick, senior art student, is in charge of these display arrangements. The graduating art majors also have a special display of their works. Those having their work on display are Bob Lowe, Bob Rudsit, John Houx, Bernadine Budil, Wayne Gunderson, Wilma Whitston, James Hastert, and Betty James.

The galleries are open from 10 a.m. to 5 p.m. daily and from 1 p.m. to 5 p.m. Saturday and Sunday, May 12 through My 25.

PANHELLENIC

Welcomes You to the College and the May Festival
Air Science and Tactics

The Air Science department, established to provide reserve officers for the United States Air Force, is under the command of Lt. Col. Fred Newman, detachment commandant. Five officers and six non-oms cover a four-year program which equips the graduate with essentials for one of two Air Force careers, flying or administrative officer of the U. S. Air Force.

Male students are required to take the first two year basic course in drill, political geography, and military training, for which two hours academic credit is allowed a semester. Drill credit can also be substituted for the college requirements in physical education activities.

Students who pass the first two year course in Air ROTC may make application for admission to advanced standing in Air Science, for which three hours credit a semester is offered. During this period those students are paid by the government a per diem, subsistence allowance of about thirty dollars a month. The summer after the third year includes a three week training period at an Air Force base with regular Air Force pay. Activities of the department include band, drill team, rifle squad, and the Arnold Air Society.

Art Department

The Art department, located on the top floor of Jones Hall has enlarged into one of the college's most active departments. As the sponsoring group for the Tacoma Art Galleries, the department has gained notoriety throughout Tacoma and the Pacific Northwest. Alpha Rho Tau and Delta Phi Delta are the Art honoraries on campus. Majors are offered in: Drawing and Painting, Advertising Design, Interior Design, Ceramics, Sculpture, Art History, and Art Education.

BA and Economics

The department of Business Administration and Economics graduates more students than any other department in the school. The degree of Bachelor of Arts is offered with emphasis upon Business Administration, Economics, Merchandising, Retailing, and Accounting. The degree of Master of Arts is offered in fields of Business Administration and Economics. The honoraries in this department are Commerce Club and Pi Gamma Mu.

Biology and Botany

The Biology and Botany department, located in Howarth Hall, offers course specializing in Pre-Med and Pre-Dental work, in Biological Research, and in preparation for work in recreation and conservation fields. Howarth Hall is also the location of the Puget Sound Museum of Natural History, which contains over 20,000 specimens.

Honorary groups of the department include Phi Sigma, the national biology honorary, and the Pre-Med Club.

Chemistry

The Chemistry department, in Howarth Hall, offers degrees in three fields. Both Bachelor's and Master's degrees may be obtained in organic, analytical, and inorganic chemistry. Opportunity is also given to Pre-Med students for foundation in general chemistry. Departmental courses and standards correspond with those established by the American Chemical Society. A student branch of this society on campus is for the benefit of chemistry majors.

Artists at work!
Education

The Education department offers courses leading to the Bachelor of Arts and the Bachelor of Education degrees with specialization in elementary or secondary school education. The degrees Master of Arts and Master of Education are offered in the secondary, elementary, and administrative fields. During the summer sessions, with teachers returning to campus, the faculty is augmented to provide technical instruction in all fields of education.

English

The English department offers varied English courses during the year, leading to Bachelors degrees in English Composition, and English Literature. The degree of Master of Arts may be obtained in English Literature.

Foreign Languages

The CPS catalogue lists five foreign languages, German, French, Spanish, Latin and Greek. Bachelors degrees may be taken in German, French and Spanish. In some instances graduate work may be obtained in these fields. Departmental organizations include Cercle Francaise, La Mesa Redonda and Deutscher Verien.

Geology

CPS geologists form the best traveled department in the school. Field trips to the Olympics and Cascades are an integral part of the geology department's work. Majors may be had in four fields: Economic Geology, Geophysics, Engineering Geology and Petroleum Geology. Both the degrees of Bachelor of Arts and Bachelor of Science may be obtained in Geology. Work on the graduate level is also obtainable.

History

Almost every student that finishes four years at CPS has taken at least one course under the history professors. Both undergraduate majors and minors are obtainable, and the degree of Master of Arts in History may be obtained by the graduate student.

Home Economics

Amid the chemical smells of Howarth Hall is an oasis. On the second floor of that science-filled building is the aroma of succulent baked foods, the sound of crisply frying meats, and not infrequently, the sight of passing students and faculty surreptitiously licking their fingers. This department does not, however, deal strictly with cooking and foods. There are four fields of specialization: General Home Economics, Clothing and Textiles, Foods and Nutrition, Household Management, and Child Development.

The degrees of B.A. in Home Economics, and B.S. in Home Economics are offered.

Journalism

In a cramped corner on the second floor of the SUB is a disordered pile of paper under which there may be seen frenzied students clattering at the typewriter provided there. The journalism department worries over the tasks of meeting deadlines and collecting and rewriting the occurrences of the college for the weekly TRAIL and the yearbook, the TAMANAWAS.

Ten years ago the journalism department was just a gleam in the administration's eye. Then, after the end of the war brought hundreds of literary-minded students back to the campus, the journalism department became a reality. Radio broadcasting and advertising courses have been added to the usual journalism curriculum.

The degree of Bachelor of Arts may be selected in journalism, giving a broad general aspect as preparation for entrance into graduate schools, newspaper work, or professional writing.

Music

Most often heard from on campus is the music department, whose steady stream of programs, recitals, and concerts keep the musicians constantly on the go. The 10 instructors and 10 music organizations provide adequate instruction in most fields of music, research, and performance. The choral groups: the Collegiate Singers, the Adelphian Concert Choir and the Opera Workshop group present many programs each year, while instrumentalists get experience in the CPS-Tacoma Symphony orchestra, the College Band, the Workshop Band, the student String Quartette, the piano workshop, and the other small wind ensembles.

Most unique is the Madrigal Singers, devoted to the presentation of authentic choral works of the 15th and 16th century.

The degree of Bachelor of Arts may be obtained in any field of music, and the degree of Bachelor of Music may be had in Theory, Voice, Piano, Organ, Violin, Cello. The soon-to-be-expected addition of additional research courses will see the degrees of Master of Arts and Master of Music added to the department's accomplishments.

The insanity ration among African is 20 times better than in the U.S.
These transits are also handy when the sun-bathers come out.

**Mathematics**

The sight of a harried student rushing from class to class with slide rule, or "slip stick" in hand is not uncommon at CPS. The college's math department is quite complete in its curriculum, necessitating a completeness in the student as well. The preparation for teaching of mathematics in the public schools is offered as are courses leading to degrees of B.A. and B.S. in Mathematics.

Training is also offered in the fields of mechanical drawing and engineering and in surveying technique.

**Occupational Therapy**

The whine of saws and the sound of hammers from "B" and "A" sections of South Hall doesn't mean that construction is going on about campus. It only shows that the Occupational Therapy students are at work on another project.

When the close of the war found many veterans disabled and in need of services from the tragically few occupational therapists then available, the College of Puget Sound established what is now one of the most active and most purposeful departments at the college. The training in recreational crafts and other mechanical achievements are correlated with training in therapy techniques, scientific theory, and background courses in sociology and in psychology. The final year of training is spent in an internship at an occupational therapy center. At the close of this period the trainee receives certifications and is qualified to employment in the many civilian and government hospitals in the United States. The degree of B.S. in Occupational Therapy is available in addition to the certificate, providing that the college requirements are met.

**Philosophy**

The department of Philosophy not only serves as a minor field to those graduating in Religion, Sociology and Psychology, but also provides a complete major field. The philosophical courses offered run the complete gamut, embracing various theories and concepts, designed to give a complete concept of philosophy. The degrees of Bachelor of Arts and Master of Arts are offered.

**P.E., Health and Recreation**

Majors are offered in Physical Education to both men and women, and a minor may be obtained in recreation. The degree of B.S. in Physical Education can be obtained with additional laboratory work in the science field.

**Physics and Astronomy**

The degrees of Bachelor of Art and Bachelor of Science are offered in Physics and Astronomy credit may be applied on science requirements for graduation.

Research work is offered in physics and leads to admission to graduate work in the many subdivisions of the science.

**Political Science, Government, and Public Administration**

The department of Political Science is designed primarily to provide sufficient background for those who wish to go into politics, law, or government work. For those interested in Public Administration, there is also established a curricula designed to give the strongest possible training in theoretical and practical aspects of public administration.
background in the operations and principles of Public Administration and its allied fields. Courses are added in Accounting, Economic Theory, Sociology, and History to provide a broad base upon which to build the specialization. Graduates under Public Administration may seek graduate work in that field with the hope of admittance into fields leading to positions as industrial and governmental managers. The bulk of city managers now employed in the U. S. have had as a portion of their training as similar background.

Psychology

Psychology not only plays an important part in science fields, but also in industry. Psychologists are sought as personnel relations counsellors, clinical psychologists, and statisticians. A degree in Psychology may be obtained by those who intend to go into work as technicians working with emotionally disturbed persons.

Religion

The degree of Bachelor of Arts in Religion is offered to those who wish to enter fields of religious endeavor. A fundamental background in religious theory and history is to be found in the curriculum of courses offered.

Sociology

With the steady pressure to be found in today's society the need for trained social workers is becoming more evident all the while. The department of sociology offers a well-rounded practical course in sociology. Adequate field work in various social and penal institutions is integrated in the courses to give a sound fundamental knowledge of sociology, its techniques and problems.

Speech

Many years under the direction of Martha Pearl Jones, the Speech and Dramatic Arts department of the College of Puget Sound has proved to be one of the most consistent in enrollment and graduates. Each year hundreds of CPS students join in presenting the two plays at Homecoming and in the spring. Other activities include the Choral Readers, the annual senior speech recitals, the Burmeister Oratorical contest, and the Freshmen One Acts in the fall.

Courses of study are offered leading to bachelor's degrees in two fields, public speaking, and dramatic production.

Speech staff consists of Martha Pearl Jones, M.A., Wilbur Baisinger, M.A., and Bernice Reihl, A.B.

Faculty Members Plan Further Study in Summer

Three of CPS's music faculty will absent themselves from the campus this summer to work on doctor's degrees.

Departmental head, Bruce Rodgers, will complete work upon his P.H. at UCLA, finishing his dissertation upon Orazio Vecchi, an early Italian contrapunist. Raymond Vaught, professor of violin and director of the CPS-Tacoma symphony, will enter upon a years leave of absence at Stanford to complete work on his degree in Musicology. Composer-in-Residence Leroy Ostransky will also travel to Los Angeles, to the University of Southern California to commence his doctoral work in music composition.

Both Ostransky and Rodgers will return to their duties at the start of the fall semester.

Air Force Team To Visit CPS

An Air Force Aviation Cadet Selection Team will visit the college on Monday, May 18, and will be available for conference in J112 from 9:00 to 12:00 noon.

The purpose of the team is to inform all interested students in the Flying Training Program. A rated flying officer will head the team and will provide the latest information of developments in the Pilots and Aircraft Observer Programs.

Hear about the man who had a waterproof, shockproof, unbreakable, anti-magnetic watch? He lost it.
Positions Still Open in Choral Society—Rodgers

Bruce Rodgers, chairman of the Dept. of Music, has announced that positions are still open in the new Tacoma Choral Society.

This choral group, numbering about 150 singers, will perform the complete “Messiah”—Handel at next Christmas-time and also will appear in the spring, offering the “Lament for Beowulf” by Howard Hanson, and Mozart’s “Requiem Mass.”

The International Relations Club sponsors trip of foreign students to Grand Coulee dam.

IRC Club Tours
Grand Coulee Dam

CPS students from other lands, under the guidance of Dr. Warren E. Tomlinson, their adviser, went on a tour of the Grand Coulee dam on April 17-19. Highlight of their tour was a visit to a farm community, Hartline, Washington, where the group spent their nights in four different homes. The participating group returned full of praises for the hospitality of their hosts who are alumnae of the College of Puget Sound.

For most of the students, if not all, the visit to this prodigious structure was inspirational as well as educational. They learned many astounding facts about the dam, particularly about the tremendous advantages of the dam.

Many of the group had their first experiences when they visited a wheat farm. Tractors and various modern farm equipment were some of the things they saw for the first time. The visiting group left Hartline after presenting an international program of short speeches and a Chinese song in the Hartline Methodist Church.

Members of the group included: Mudite Petersons (Latvia), Maija Norins (Latvia), Ming-tzu Ching (China), Paul Hang (Malaya), Henry Wu (China), Philip Derdevanis (Greece), Raymond Chan (China), George Lusconibe, Walter Warne, Bob Fowler, and Dr. Tomlinson.
The Womeñ's Athletic Association, an organization for all women students interested in athletics, offers at least nine sports throughout the year. Girls win WAA awards on the basis of participation in the different sports.

Hockey, badminton and ping pong start the year, with volleyball, basketball and bowling in the winter.

In the spring there are softball, archery, tennis and horseshoes. Swimming is an all-year sport.

The officers for the past year were president, Janice Beitz; vice-president, Barbara Johnston; secretary, Janet Brinkman; treasurer, Joan Warren; publicity chairman, Margie Casebier; and program chairman, Liz Regester.

Way back in 1908 someone found a battle-scarred carpenter's tool in the basement of the old college building at Sixth and Sprague Avenues. The tool became a CPS tradition—the Hatchet—and many's the student who has wished it had never been found 45 years ago.

The Hatchet traditionally becomes the property of the upcoming senior class about commencement time each spring. It then becomes the task of the new junior class to attempt by any means, fair or foul, to gain possession of the Hatchet before the formal transfer in the spring.

The burden of "protection" falls to one or more members of the senior class who must preserve the Hatchet and place the class numerals on the tool before its transfer. The epitome of success to an underclassmen, of course, is to gain the Hatchet long enough to have it "branded" with his own class numerals.
Why Study? There Are Easier Ways

Here is the secret of getting through college without even trying. Prof. Robert Tyson, Hunter College, advises:

1. Bring the professor newspaper clippings dealing with the subject. If you can't find clippings dealing with the subject, bring in clippings at random. He thinks that everything deals with his subject.

2. Look alert. Take notes eagerly. If you look at your watch, don't stare at it unbelievingly, and shake it.

3. Nod frequently and murmer "How true!" To you this seems exaggerated. To him, it's quite objective.

4. Sit in front, near him. (Applies only if you intend to stay awake.)

5. Laugh at his jokes. You CAN tell. If he looks up from his book and smiles expectantly, he has told a joke.

6. Ask for outside reading. You don't have to read, just ask.

7. Call attention to any article or book that he has written by asking if he is the author. Indicate that it produces an exquisitely pleasant experience connected with you.

8. Be sure the book you read during the lectures looks like a book from the course. If you do math in a psychology class, and psychology in math class, match the books for size and color.

9. Ask any questions you think he can answer. Conversely, avoid announcing that you have found the answer to a question he COULDN'T answer, and in your younger brother's second reader at that.

10. If you must sleep in class, arrange to be called at the end of the hour. It creates an unfavorable impression if the rest of the class has left and you recline, alone!

CPS Nine Win, Lose Recent Ball Contests

The CPS Logger's baseball nine has been busy playing a lot of games. Fighting the weather as well as their opponents the team has won three out of its last 11 games.

Walt Espeland, making his initial mound start for the Loggers, was beaten, 6-3, by the McChord Air Force Base team. Russ Wilkerson led the CPS hitting with two singles in four trips.

Next the Loggers split a doubleheader with the Seattle Pacific Falcons at Cheney field. In the first game Art Viafore beat Kieth Driver in a pitcher's duel, 2-1. Joe Stortini was the leading hitter, with two for three.

In the second game the SP crew waxed the Loggers, 17-1. Joe Karpach was the loser.

Seattle U provided too much for the Loggers as they beat them twice, 10-0 and 15-2. Ernie Pastornicky, Seattle pitching ace, pitched a no-hit, no-run game against the Loggers, who committed 12 errors behind Viafore.

Russ Wilkerson was the losing pitcher in the second game as the Chieftains hit three home runs, one with the bases loaded.

In their next outing the Loggers were shut out again, 3-0, by McChord AFB. Don Rasmussen got the only CPS hit off Tom Werner, a first baseman, in a pitcher's duel, 2-1. Viafore not only pitched a good game in losing but not quite good enough.

Victory tasted sweet against the team from the USS Essex as Viafore won, 2-1. Viafore not only pitched the win but doubled in the Logger's two runs in the last of the ninth. Art and Loren Hyde each had two for four.

In their doubleheader with Western Washington the Loggers gained a split. Viafore was the losing pitcher in the first game, 5-1. Karpach won the second game, 3-1, on a three-hitter.

Two CPS Racketmen To Enter Cheney Meet

Tennis instructor Willard Gee announced that Bill Medin and Dutch Brandegee will make the trip with him to Cheney to play in the Evergreen conference tennis meet May 22 and 23. Both will enter the singles and they will combine for the doubles.

If successful there they will move on the NAIA state tennis meet, to be held at the Tacoma Lawn Tennis Club May 29-30. Medin won the state championship last year and went to the national NAIA tournament. He will be favored to repeat this year.

The Logger tennis squad has played seven matches since the last issue of TRAIL, winning three and losing four. The results:

CPS won over Seattle Pacific 7-0.
CPS won over Western Wash. 6-1.
CPS lost to Seattle University 1-6.
CPS won over PLC 7-0.
CPS lost to Central Wash. 2-5.
CPS lost to Madigan 0-7.
CPS lost to Seattle U. 1-6.
The Loggers meet PLC Friday at the Tacoma Lawn Tennis Club.

Bill: "Don't forget Old Faithful."
Clyde: "I'm going to visit Yellowstone Park."

Clyde: "Oh, no, I'm taking her with me.

Football

Coach John Heinrick is making no apologies for his football squad. Why should he, after going through the toughest schedule in his five years at CPS and emerging with a five won, two lost, one tied record? Assistant coach Joe Hemel and student coach Dick Columbini also played a big part in the victorious season.

Five members of the '52 team made the conference all-star team. Joe Retallick, end, and Ned Conley, tackle, made the first team. Dick Hartnett, tackle, Wally Erwin, fullback, and Art Viafore, quarterback, made the second team. These five, plus Del Cross, an end, are the graduating seniors on the team. Heinrick, however, has a promising array of juniors and sophomores returning, plus outstanding freshman prospects, forming a bright outlook for the 1953 season.

The Loggers opened last season with a 7-0 victory over PLC in their annual King's X game at Lincoln Bowl. An Art Viafore to Joe Retallick aerial was good for 31 yards and the only score of the game.

Next, the Loggers traveled to Western Washington hoping to pay back the Vikings for spoiling our Homecoming the year before. Spud Walley, Viking quarterback, had different ideas, however, as he passed for two touchdowns to defeat the Loggers, 13-6. CPS will be out to break the Western "jinx" next year.

In the annual city championship game with PLC for the much coveted "Totem Pole" the Loggers came out on the short end of a 7-0 score. The loss was the first in five years to the Lutes and knocked CPS out of contention for the league title.

Still smarting from their upset by the Gladiators the Loggers took revenge on Whitworth the following week. They defeated the Pirates, 19-7 to top off a successful Homecoming. Walt Espeland ran 48 yards for a touchdown and freshman Dale Meshke went 52 yards for another score in some of the more exciting moments of the game.

Rich Dodds, another freshman, scored two touchdowns in the Logger's next victory, a 24-0 trouncing of the University of British Columbia Thunderbirds. Bob Ehrenheim and Dick Hansen, freshmen from Stadium and Lincoln of Tacoma, respectively, played well in the game.

In the final game of the season CPS downed Central Washington, 15-2. This final victory gave the Loggers third place in the Evergreen conference standings.

All in all Coach Heinrick was pretty well pleased with the '52 results but looks for a better showing next year and in future years.
Minor Sports

CPS is represented on other sport fronts besides the two major sports, football and basketball. CPS has skiing, baseball, tennis, golf, and track, also.

As usual the school's Deep Creek Lodge was given a thorough workout every weekend by the ski enthusiasts. This CPS sponsored ski resort provided many thrills and spills which were climaxxed by the annual "Ski Day" held on Washington's birthday.

The four spring sports were enjoyed by all of those who had the desire to turn out. Four good schedules were arranged by the coaches, and the teams traveled east of the mountains and also up into Canada to display their wares.

Art Viafore was again the big man on the mound for the Loggers. His one hit victory over St. Martin's was the highlight of the year. He was aided in his pitching efforts by Freshman Joe Karpach who showed very well throughout the season.

Tennis and golf are played with fervor for coaches Willie Gee and Ed Gorman. The two "sunshine teams" showed very well throughout the conference.

The track team, though small, is high spirited. Dan Inveen, Wally Erwin, Warren Logan, and Rich Dodds form the nucleus around which the squad is built. These lads, and the others, are providing CPS with a squad which they could be proud of.

Anyone who is interested in being intramural manager for the 1953-1954 school year is requested to make application in writing to Joe Hemel at the Memorial Fieldhouse. Coach Hemel would prefer a junior or a senior who is interested in intramurals.

Lute Nine Takes Two From Logger Batsmen

After three attempts CPS and PLC finally got the weatherman on their side, or on PLC's side anyway, as the Lutes took two games from the Loggers last Monday at Cheney field.

In their initial try CPS was leading Bud Lester and the Gladiators 5-0 after four innings when rain halted the game. In the second game Lester beat the CPS nine 4-1. The Loggers had a good chance to win in the sixth inning as they loaded the bases on three walks with none out and the score tied at 1-1. Lester, however, struck out Bill Medin and forced Gil Greiter to hit into a double play to end the threat. Joe Karpach was the loser.

In the first game Vern Hansen outlasted Art Viafore and the Loggers for another 4-1 victory.

Dick Colombini led the CPS hitting with three or five for both games. Don Rasmussen had two for five and Russ Wilkerson two for six also in both games. Jim Ball, Lutheran right fielder, led PLC with three for five while Glen Huffman had two for six.

CPS will travel to Western for two games Friday.

The Loggers are in second place in the Western division of the Evergreen Conference. The standings:

CPS Team Whips Seattle Pacific Netmen

The College of Puget Sound Loggers shut out the Seattle Pacific Falcons in a dual tennis match at the Tacoma Lawn Tennis Club Tuesday.

The results:
- Bill Medin (CPS) defeated Paul Lobdell 6-1, 6-0; George Pearson (CPS) defeated Jerry Northrup 6-3, 6-3;
- Bill Wee (CPS) defeated Bob Cunningham 60, 610; Dutch Brandegge (CPS) defeated George Wood 6-0, 6-1, and Bill Rush (CPS) defeated John Bergman 6-0, 6-0.

In the doubles Medin-Brandegge (CPS) defeated Lobdell-Northrup 7-5, 6-2 and Pearson-Roger Anderson (CPS) defeated Cunningham-Wood 6-3, 7-5.

The Man

No matter how little material a CPS athletic team seems to have before the season is started, we have one distinct advantage over the other schools in the Northwest. We have "The Man." The Man is none other than Coach John Heinrick.

Mr. Heinrick is one of the most respected men in Northwest athletics. His ball teams are admired and his judgment is referred to as absolute.

Every year we get further proof of this. A week ago Jake Maberry was picked from 30 candidates for a head coaching job in Class "A" Central Kitsap. A plum, without a doubt, for a man who is still working for his diploma. There is every reason to believe that when Jake was picked, the name of John Heinrick was in the back of the minds of the Board of Education at C. T.

Mr. Heinrick's teams have been beaten. On a few occasions they have even had what could be called a losing season. But no team, after beating the Loggers, could say that they hadn't been in a ball game. He goes to great lengths to inspire his ball players to play to their greatest ability.

For a good ball player just getting out of high school, who wants to become a better ball player, and at the same time become a man in his own right, there could be no better teacher, coach or friend than Coach John Heinrick, "The Man."

Basketball

The season was a success! Two out of the three times that the Loggers met the Gladiators of PLC they came out on the long end of the score. The one game that they lost to the Lute-men was a bitter blow to the club that started off the season by piling up a win streak of 12 games. However, in the style that is always predominant on a Heinrich coached squad, they picked themselves up and thoroughly out-classed the Glads in the "rubber" game.

The Loggers were led by Captain Jake Maberry. His point total was high for the Evergreen conference and he was again a choice for the All-Conference five. Jake finished the season with a 19-point average and, for the second consecutive year, was in the top five in the nation with an 83 per cent completion record on free throws.

Warren Moyles and Dan Inveen also kept their average in the double figures for the season. Inveen also led the Heinrick-men in rebounds. A two-year inspiration winner, Inveen provided the punch on the boards where basketball games are often won or lost. Dan was sorely missed during the NAIA play-offs at Ellensburg. He was unable to play because of a broken hand, suffered during the last Seattle U. game.

The Loggers ended the season in second place in the Evergreen conference. Only Eastern's great club stood above them in the standings.

By virtue of their successful campaign, CPS was one of four teams to battle for the opportunity to represent this district in the finals of the National Amateur Intercollegiate Athletic basketball tournament in Denver. Gonzaga won the opportunity, but not before the Loggers made a strong bid.

Two juniors were chosen to lead the CPS quint next year. Warren Moyles and Clarence Tiessen will co-captain the 53-54 edition of the Loggers. Two other letter winners will be back, Russ Wilkerson and dent coach Dick Colombini also have played in the starting lineup most of the time. Although there will be several reserves and freshmen wearing the maroon and white for the first time, the outlook for next year is encouraging.

You may not agree with everything you hear in any church, but you will agree with most of it, and that's a pretty good batting average for these days and times.
Exam Schedule

Final exams for the semester will begin Monday, May 25, and continue through to the closing of the term, Friday, May 29, Dean John D. Regester has announced. The full schedule of examinations for day classes follows:

Monday, 8 a.m.: Classes meeting at 8 Monday, Wednesday and Friday; 10 a.m., all sections of English 2; 1 p.m., classes meeting at 2 Monday, Wednesday and Friday; 3 p.m., specially arranged exams.

Tuesday, 8 a.m., classes meeting at 8 Tuesday and Thursday; 10 a.m., classes meeting at 11 Tuesday and Thursday; 1 p.m., classes meeting at 1 Tuesday and Thursday; 3 p.m., classes meeting at 3 Tuesday and Thursday.

Wednesday, 8 a.m., classes meeting at 9 Monday, Wednesday and Friday; 10 a.m., all sections of Religion 1; 1 p.m., classes meeting at 1 Monday, Wednesday and Friday; 3 p.m., specially arranged exams.

Thursday: 8 a.m., classes meeting at 9 Tuesday and Thursday; 10 a.m., specially arranged exams; 1 p.m., classes meeting at 2 Tuesday and Thursday; 3 p.m., specially arranged exams.

Friday: 8 a.m., classes meeting at 10 Monday, Wednesday and Friday; 10 a.m., classes meeting at 11 Monday, Wednesday and Friday; 1 p.m., classes meeting at 3 Monday, Wednesday and Friday; 3 p.m., specially arranged exams.

Evening class exams will be held during regular class hours.
