The Tamanawas

1929
All hail to Alma Mater
The best that can be found,
The spirit of the Westland.
All hail to Puget Sound.

Her guardian is the Mountain,
Beside the silver sea;
We love thee, Alma Mater.
All hail, all hail to thee.
Foreword

College of Puget Sound students are known throughout the Northwest as the "Loggers." The college is situated in the richest lumbering district of the world, and more specifically in the heart of Tacoma, "The Lumber Capital of America." Thus the theme of Logging and Lumbering for this yearbook is most fitting.

Throughout the book it has been our aim to illustrate and compare college life with the many intricate divisions of the great lumber industry of this Northwest. To a certain extent, the motive is commercial in feature. It has been our aim, in planning these pages, to give to the students a definite realization and picture of the timber country, and lumber city from which the College of Puget Sound drew not only its nickname, but its student builders, athletes, courage, hope, inspiration and resources for greater growth.

If we have succeeded in giving a true and significant record of college life at Puget Sound during the last year; if we have succeeded in presenting the spirit of the "Loggers," the striving, growing, building spirit of America's Lumber Capital, the clean, wholesome spirit of the Northwest; if we have succeeded in linking our college with this great industry, then our plans and hopes for the 1939 Tamanawas will have been realized.

The Spirit of

To the city of Tacoma that typifies the indomitable spirit of the Westland . . . the spirit that has transformed primeval forests into a city of towering industries; a city COMPLIMENTS OF ROTARY AND
The Westland

known to the world as the "Lumber Capital of America"......to this spirit of the West, as exemplified by Tacoma, Washington, this 1929 Tananawas is sincerely dedicated.

YOUNG MEN'S BUSINESS CLUB
"Her Guardian is the Mountain"
"We love thee Alma Mater"
"All hail to Puget Sound"
Behind every great institution or industry, there must be administrators, men and women who support, lead, and teach the countless workers that strive to better themselves by their experiences and learning. As Jung said, these administrators guide the destinies of the students and the college. They fill places as advisors, teachers, leaders, and friends. They are the men and women behind desks who help to develop the leaders for tomorrow's work.
The famous fighting frigate, Old Ironsides, is being reconstructed for the third time. The new masts and spars will be made from trees which grew in the forests of our state. This will spread more widely the reputation of Washington as the home of tall timber.

The lumbermen who prepared and gave these fine sticks to grace the decks of this historic ship represent another species growing in this commonwealth. Washington must depend upon growing human species if she contributes masts and spars to ships of state, church and society. These only will enable her to play her part in world commerce, business, ideals and faith.

The fact that our trees stand close together in great bodies, accounts in large part for their height, strength and straightness. If this is essential in the production of tall trees, much more is close social contact necessary in the development of men who become our tallest timber. These relations cause the disappearance of nonessentials, and the thrust of the head upward toward the light. Students in the College of Puget Sound enjoy this condition. Let them profit by it.

The soil in which our tall timber grows is composed of eroded rock, sediment of the sea, ashes burned out volcanoes, and the annual deposits of vegetable life. The coming men and women of Washington enjoy a richer soil,—human experiences, deposits of knowledge, the ashes of altar fires of Christian devotion, and the record of lives well lived.

But the atmosphere plays its part in the growth of the tall and tallest timber. The former thrust crowns high in the air to bathe them in life-giving gasses, the mists of the morning, and the warming rays of the noonday sun. The latter rear their heads into the realm of unknown truth, breathe the mysteries of faith in God and men, and catch the life giving rays of the Son of Righteousness.

Social contacts, soil and atmosphere do not thrust their wealth of nourishment upon anyone. Roots must be thrust downward and outward to plow the soil and seek out the portions needed to build strong and vital bodies. Leaves must be outstretched to grasp the nourishing elements in the atmosphere, and to take draughts of refreshment. Minds and hearts thus fed will lift heads to be crowned with honor, and will bring glory to our Washington. "Well done, thou good and faithful servant," will be their final reward. May many of the students of the College of Puget Sound, answer the prayer of the western poet, Walt Whitman:

"Give me men to match my mountains,
Give me men to match my plains,
Men with empires in their purpose,
Men with eras in their brains."

Edward H. Todd,
President.
SCHOLASTIC

STEADY purposeful growth has been the keynote of the progress of the College of Puget Sound. So called "mushroom towns" spring up overnight in soil that is, for the time being, fertile. Great cities are built on the solid rock of steady commerce, growing industry, and increasing population. So it has been with Puget Sound. Not by a single stroke of genius has it come to its present standing, but by the plodding effort of many, the inspirational leadership of true genius. Increasing registration numbers a definite need for such an institution, and a place for the graduates of that institution, all have pointed toward the success of what was once an almost unknown school.

In the fall of 1890, the Puget Sound University registered its first students in a new building at South 21st and I streets. Frequent moves took the University to South Tenth and Yakima in 1891, and to South Ninth and G, in 1894.

The institution was re-incorporated as the University of Puget Sound, in the Spring of 1903. During the same year, the Alumni purchased a new campus at Sixth and Sprague. An administration building was erected, and the University was accredited by the State Board of Education, and the Summer School became a part of the work of the University.

Rev. Edward H. Todd has served as President since 1913. In 1914, the name of the institution was changed to that of College of Puget Sound.

In 1923, Mrs. Franke M. Jones made a gift of $180,000 to President Todd and the Trustees, with the purpose of erecting a building in memory of her husband who had been a prominent lumberman. A new and large site was purchased, and the modern and beautiful C. H. Jones Hall was constructed at North 15th and Lawrence streets.

The following year, 1924, saw the first classes in the new building. The Gymnasium and Women's Cottage were completed shortly afterwards. Science Hall, the newest building on the campus, was completed in 1927.

The plan of the College campus is so arranged that as it grows, expansion can be made indefinitely without disorganization. At the present time, there is the one Sutton Quadrangle complete ex-

Cooperation

GREAT industries are built by the cooperation of many people. The College of Puget Sound is like a great industry teeming with energy. It is like a lumber mill through which passes timber from every corner of the earth. Through the mill the trees become the refined product that the world needs in its building.

Every man, from the logger in the woods to the piler in the yards is a necessary factor to the result achieved. With one cog of the machinery gone, the perfectness of the grain would be lost.

If students or administrators fail to recognize their necessity in the College, they are lacking in that spirit of cooperation without which little can be gained.

The logger in the forest is known for strength and courage. The man in the mill's office is recognized for alert mental ability. The one handles the rough product, the other plans and sells the finished board. When the College trains the students to have a realization of the finest in both of these types, it is performing a splendid task. When the student learns, with cooperation, to develop a worthwhile character, he fits himself to be a citizen of life.
DEVELOPMENT

cept for an ornamental gate, which a friend of the College plans to contribute. The plan of the campus as it will some day be realized, is composed of nine quadrangles.

President Todd believes the College of Puget Sound to be so located, that in the years to come, it will be compelled to grow into the University class of institution. The success of the College is assured. It has attained a place in the Northwest among the substantial Colleges of Liberal Arts.

The College of Puget Sound is accredited by the American Council of Education; Northwest Association of Colleges and Secondary Schools; American Medical Association; University of the State of New York; Washington State Board of Education; Association of American Colleges, and University Senate of the Methodist Church.

By virtue of its membership in the Northwest Association, its credits are recognized by the North Central Association of Colleges and Secondary Schools; the Association of the Middle States and Maryland; the New England Association; and the Southern Association.

President Todd and the Development Office of the College are actively engaged in campaigning for funds. The Development Office is in charge of the Field Secretary, Dr. Roy L. Sprague. His co-workers in the field are the Rev. J. S. Bell, and Rev. O. F. Krieger. This year, the work of the field staff is concerned chiefly in bringing about conditions which will enable the College to make final settlements with the General Education Board on June 1, 1930.

The public addresses made by President Todd and members of the field staff have been largely instrumental in bringing closer contact between the College and the community it serves.

During the past year, scholastic standards have been raised by the administration, and courses more clearly defined in accordance with those of older institutions.

It is the hope of President Todd, that some day the College of Puget Sound will be the "Leland Stanford University of the Northwest." With this standard of excellence before them, builders of the college are planning for the future.

AN OPPORTUNITY for making lasting friendships is afforded at the College of Puget Sound. The College covets for each student within its hall, a growing knowledge and understanding of making and keeping friends, and of being a friend.

To attain these friendships one must recognize that freedom is neither because, nor following the path, of least resistance. Instead, the foundation of friendship, as of character and culture, is in the last analysis.

He who would participate in true friendship must have a respect for himself that is genuine. He appears as he is, he does not resort to cheap display, and is not motivated by law or false purposes. He has personal integrity, a stability of purpose, and is steadfast. He who has this respect for friends and for his own best self, lives in the present in the fight of the future.

This respect for others will carry with it all the finest elements of chivalry, not only chivalry of man toward woman, but everywhere, the glad devotion of the strong to the weak, which keeps one from taking advantage of the frailty of another. Such a belief will make possible a larger freedom in the life on this campus.

BLANCHE W. STEVENS
Dean of Women
Associate Professor of Home Economics
EQUIPMENT AND ADMINISTRATORS

Living up to the standards of its dedication to “Learning, Science, Good Government and the Christian Religion,” the College of Puget Sound has made unusual development in its teaching staff and various departments.

Administrators of the College of Puget Sound have been carefully chosen for their positions. Their number has greatly increased the past few years, and the strength and prestige of the college have grown with them. Splendid specialists in every field are to be found in the institution, and these men and women are continually studying modern methods and working for higher degrees.

Extension work was a new feature introduced into the College curricula this past year. Dr. Samuel Weir of the department of Education, has taken charge of education classes in Olympia each week. Further classes in education, psychology, and public speaking have been held in various community centers of the city.

The extended program of Adult Education includes the Evening School. The teaching staff of these classes is selected almost exclusively from the regular faculty. The work of the night school has been recognized as one of the worthwhile features of cultural educational interests of the city.

The completion of a fine new Science Hall in 1927 has made possible outstanding progress in this department. The building is a modern, three story fireproof edifice. It is one of the finest science buildings in the Pacific Northwest.

The lower floor is occupied by the physics laboratories, the commons and the heating plant. The physics department is equipped with three laboratories, and one recitation room. Of particular interest in the way of apparatus is the quartz spectrograph, which was purchased last year.

It is said that the Geology classes will eventually occupy the space now taken by the Commons. At the present time, these classes convene in Jones Hall. This department has a collection of minerals for display purposes.

The second floor of the Hall houses the Home Economics and Biology departments. The former has a well lighted clothing laboratory, fitting rooms, a large food and nutrition laboratory, dining room, kitchen and pantry.

Workrooms, research laboratories, an aquarium, and recitation rooms are used for biology work. In their work, the students have access to much equipment.

The Chemical laboratories occupy the top floor exclusively. There are four standardly equipped laboratories, a combustion room and a balance room for the use of students.

Open House was held in the Science Hall this spring, and the public was invited to a formal opening and inspection of the building.

A conservatory of music, wherein students may receive instruction in technical music, piano, voice and violin, has developed from the smaller department of music that the college has maintained for the last two years.

New positions and ideas have presented themselves to the administration, and been accepted because of the added efficiency they offer in the presentation of every course. Thus, as the students and faculty review the classroom activities of the past year, they may remember the effort that has been made to develop each department into a specialized field of scholarly endeavor.

Before timber becomes lumber, it must pass through various stages that take away the undesirable parts and leave only the best and finished product. In this respect, the College is like a mill where students, through the classroom and social contact, are developed into useful products. The passing of the lumber from the mill is not the end. It goes on to serve its purpose in the world. Every year, students from the College take their places in life.
CLASSES
THE 1929 OUTPUT

THE HISTORY of the Senior Class is an enviable one. Imbued with the fine spirit of the College, they have endeavored to uphold always the traditions and ideals of their Alma Mater.

As Freshmen they showed their adaptability by entering enthusiastically into college life. They won the tug of war, and established a new tradition, the Freshman Frolic. As Sophomores, they again won the tug of war, and served their College well in all branches of student activity.

As Juniors they assumed the responsibility for leadership in student affairs, which they retained this year. In their third year, they won first place in the inter-class track meet, and they repeated the feat again this year. At the All-College Banquet, they won the prize offered for the best decorated table. In the spring they honored the Seniors with a bountiful Breakfast at Benbow Inn. They also performed a masterful bit of sleuthing, by tracking down the Seniors and helping them enjoy Senior Sneak Day at Natches Tavern.

Their last year has been particularly happy and successful. The men of the class have won signal honors in athletics. Five of them have earned blanket awards. The class has inaugurated another new tradition, Senior Day. In March they won the Annual Glee with a song which shows promise of proving very popular, and captured first place in the Oratorical Contest. For the past two years the class has been represented in women's varsity debate by a very clever team. The splendid showing made by Puget Sound at the Pi Kappa Delta district convention was largely due to Senior talent. On April 22 they were royally entertained by the Juniors at the traditional Breakfast, held this year at Horsehead Bay.

The class of 1929 is the first in the history of the College ever to stage a successful sneak. On April 30, they departed in the wee small hours for Spring Beach on Vashon Island where they spent a perfect day unmarred by the presence of a single obstreperous Junior. Elverton Stark and Elmer Austin were the two Senior committeemen who brought to pass the Senior vow to "sneak and stay snug."

On the eve of its departure, the Senior class is viewing the future with eager anticipation, and the past with memories. Their period of service on the College campus is ended; their service to a larger world has just begun.

W. C. A., president 4, delegate National Convention, 3; Christian Service Club; Student Volunteer, Detroit Convention 3; Central Board representative 3; All-College Banquet committee chairman 4; Student Chapel committee 4; Sociology department assistant 4, Honor Roll 2a, 3a; Basketball 4; Volleyball 4.
final activities

May 24th was set aside this year as Senior Day. The morning chapel was given by the class of '29, and at that time the will, history, and prophecy were read. In the evening, the Senior Play, "Ann's Little Affair," acted and coached by members of the class was given in Jones Hall.

The cast included Elmer Austin and Audrey Dean Albert as Mr. and Mrs. Bonner, parents of Harold and Geraldine Bonner, Elverton Stark and Frances Martin respectively.

DeLena Calahan played the part of Ann Lane, Mrs. Bonner's secretary, who was arrested for stealing. She became the sweetheart of Peter J. Reynolds, alias "Barney Barnum," millionaire, lover, detective and chauffeur, a part portrayed by Walter Anderson. Mrs. Creswell, the young widow who had loved "Barney," was trying to vamp Harold, and lost the pearls found in Miss Lane's bag, was taken by Ina Coffman. Ted Bankhead as Wiggins, the detective, succeeded in making the plot interesting. Elizabeth Jones and Pauline Voelker were the coaches for the play.

The day was concluded with a party for the Seniors held at one of the hotels.
A LL GOOD things come to those who wait," and so to the campus of Puget Sound, in the fall of '26, came a remarkable group of Freshmen. They had an enthusiasm and vigor all their own, and proved their worth by defeating the Sophomore luminaries in the Bag Rush.

In the course of the year, many branches of student activity claimed the attention of the Freshmen. They were ably represented on the gridiron, and demonstrated their ability in basketball, debate and dramatics.

With the spring came lazy days, and so it happened that for the first time, the first year class was downed. The Sophomores unmercifully pulled them through the hose to claim their first victory over the class of '30.

Another fall came, and the same group, Sophomores now, were eager for victories over the new freshman class. The Bag Rush was lost, but the sophomore men regained their honor through their showing on the athletic field. This year the class won the distinction of placing their numerals on the Annual Glee pennant. In addition, William Law was judged the best orator in the Oratorical Contest. Six of the men's and women's varsity debate members were Sophomores.

In their third year a much smaller group gathered to bear the added responsibilities and opportunities offered them as Juniors.

John Garnero was named on the All-Conference football team. Dave Ferguson and Frank Gillihan were the mainstays of the basketball team.

The junior class declared a permanent truce with the Seniors, and on the 26th of April feasted them at Horsehead Bay, with the traditional Breakfast.

Rumor has it that the Seniors sneaked away, and that the Juniors sneaked after them—only not far enough—and the wise Seniors spent one very long day entirely away from the charming society of the Juniors.

Looking forward now to their last year at Puget Sound, the class of 1930, which will, for the greater part, guide the destinies of the Student Body for next year, is eager to build some lasting monument of service for its Alma Mater.
JUNIOR CLASS

First Row: Gordon Alcorn, Charles Anderson, Isabelle Anderson, Ada Annabel, Douglas Babcock, Gertrude Biehl
Second Row: Evelyn Bjorkman, Dorothy Bowen, Inez Brandt, Ralph Brear, Glen Brown, Evelyn Churchill
Third Row: Miriam Cleveland, Emil Cortesi, Douglas Coulter, Raymond Docken, Wallace Drake, Bernard Elliott
Fourth Row: Leonard Fastvedt, Eduardo V. Felipe, Dave Ferguson, John Gardner, John Garnero, Clarence Geisler
Fifth Row: Elizabeth Gilbert, Fred Hardin, Albert Horchkin, Alice Johnson, Inez Johnson, Marian Johnson, Wendell Jones
Sixth Row: Norma Judd, Ralph Kennedy, Owen Kinnaman, Norman Klap, William Law, Vernon Layne, Fred LePenske
Not Shown: Arthur Allsworth, Philip Berg, Merrett Buttrick, William Davis, Frank Gillihan, Bert Krangness

Page thirty-six
JUNIOR CLASS

First Row: Carol Lindsay, Grace Link, Richmond Man, Thelma Marua, Mary McNerthney, Mildred Meader
Second Row: Van Spencer McKenny, Milan Michener, Madge Miller, Margaret Miller, Mary Milone, Alice Moore
Third Row: Ruby Moore, Pearl Pearson, Louis Peiley, Ethel Marie Peterson, Elizabeth Pugh, John Rademaker
Fourth Row: Keith Reid, Beatrice Rumball, Elsie Sanders, Eligio Saturnino, Harold Skramstad, Edwin Smith
Fifth Row: Vernabelle Smith, Willard Stasxon, Marvin Steinbach, Nyal Steinbach, Esther Stevens, Margaret Swanson,
Margaret Taylor
Sixth Row: Darrel Thomas, Betty Totten, Grace Van Vechten, Lucile Vechten, Donald Wallace, Alice Walker,
Lillian Wolford
Not Shown: James Moore, Mrs. Victor Morris, Luise Newborn, Henry Norton, Harold Otterson, Sophie Schultz,
Elma Sines, Arthur Spencer

page thirty-seven
THOUGH not the largest class to enter the College of Puget Sound, quality, not quantity is the aim of the class of 1931, and in the past two years its service to the College has been of infinite value. Its members have participated in numerous activities at college, and have been very successful in bringing honor to their class.

As Freshmen they started out in the right spirit by overwhelming the Sophs on "kidnapping night," and then taking them to task the next day in the bag rush. Again they showed their power by pulling the high and mighty Sophs through the hose on Campus Day.

Members of the Class of '31 especially distinguished themselves in athletics. This year they had six football lettermen: Purvis, Ranta, Tibbits, Shortwell, Rhodes, and Lappenbusch, with special honors going to Spence Purvis as All-Conference half, and to Lappenbusch as guard on the All-Conference second team. The class also boasts of lettermen in track, basketball and baseball.

The sophomore women, too, have showed their superiority in the line of athletics. This year they held three inter-class championships to their credit. The Spurs, a sophomore women's organization, were lauded by the school when they served lunch to the hungry workers on Campus Day.

The varsity debate team drew four of its members from the sophomore class, Shigeo Tanabe, Arthur Martin, Philip Berg, and Hughy Arnette. In the school Oratorical Contest, Robert Evans placed second, winning the Burmeister prize, and in the state contest on the "Constitution of the United States," John O'Connor took first place, and Robert Evans second.

As hosts for the All-College Christmas Party, the Sophomores provided a real treat—Santa Claus himself with a "white elephant" for everyone.

Glee clubs, student publications, literary societies and service clubs, in all of these may be found Sophomores eager to stand by the College and help it to realize the highest possible success now and in the years to come.
SOPHOMORE CLASS

First Row: Margaret Alleman, Elsie Andersen, Hughry Arnette, Mamie Baker, Edna Bazil, Theo Barwick
Second Row: Harold Bashor, Gertrude Baumann, James Beck, Dorothy Bell, Harold Bergerson, Alice Berry
Third Row: Horace Bixel, Mariano Belong, Lillian Boyd, Richard Breon, Harold Brown, Margaret Cheevey
Fourth Row: Ruth Christen, John Cochran, Arlyn Conly, Julius Coplan, Elsie Crayl, Raymond Creswell
Fifth Row: Francis Darling, Clifford Dowell, Glenn Downton, Martha Duflois, Mary Duflois, Edith Eddy
Sixth Row: Carl Eshelman, Robert Evans, Maurice Farmer, Clayton Ferry, Milton Fores, Leo Fornberg, Emery Franzen

Not Shown: Robert Boyd, Ross Cory

SOPHOMORE CLASS

First Row: Edna Muzzy, Wilbert Nelson, Franklyn Neyhart, Donna Norris, John O'Connor, Mary O'Connor
Second Row: Richard O'Flyng, Margaret Palmer, Elmoore Patterson, Beatrice Pearson, Vesta Pruse, Harold Potter
Third Row: Dorothy Raleigh, Olive Rees, Helen Ritchie, Augustine Santos, Donald Shotwell, Mildred Simpson
Fourth Row: Floyd Somers, Bernice Sprague, Ellen Stensrud, Minabel Stephens, Shigeo Tanabe, Elinor Taylor
Sixth Row: Mary Westcott, Isabelle Whitfield, Geraldine Whitworth, Florence Willisson, Janice Wilson, Ruth Yaeger, Helen Young

NEW TIMBER

To further show their superiority, the Freshmen walked away with the box of candy awarded for the best decorated tables at the All-College Banquet. The motive used was the West. Under the able leadership of Betty Robbins, chairman, the following committee: Mary Frances LePenske, Bill Kellogg, and La Vonne Strachan arranged the clever western scenes with miniature cowboys, Indians, covered wagons, and pioneer cabins.

For the second semester, Hal Brotman continued as president, Carlton Wood was made vice president, Betty Robbins, secretary; Don Turnbull, treasurer; Lawrence Grimes, sergeant-at-arms, and James Owens, Central Board representative.

Bringing the Frosh-Soph rivalry to a fitting close, the Freshmen were victorious in the Campus Day tug of war, thus drowning the hopes of the class of '31, and evening the score of the two rivals.

Each year new students bring added ideals and ideas to the College. The class of '32, entering a campus of new and modern equipment, hopes to present to the school ideas and ideals that will prove of real worth to future freshman classes.

"lest we forget—lest we forget"

Pauline Ruth
Day and night the mammoth burners of the mills are filled with flame. In the burner, the fire is a utilized necessity. If it escaped, its power would cease to be constructive. In the College, there are activities for the energies and talents of the students. Such activities may be likened to great burners that protect and develop them into worthwhile assets. As the burner is necessary to the mill, so are the various college activities a vital part of the student's life.
ACTIVITIES
ASSOCIATED STUDENTS

The fall of 1929 witnessed the beginning of a new era of achievement for the College of Puget Sound; an epoch made possible through the high efficiency and combined efforts of the students, collectively known as the A. S. C. P. S.

Central Board in which the legislative authority of the Associated Students is vested, is to be especially commended this year. The president, vice-president, and secretary of the student body, together with the Dean of the college, the general manager and assistant manager, one faculty representative, two Seniors, two Juniors, two Sophomores, and one Freshman complete the board.

Functioning with the legislative body, is the Student Judiciary. It has final jurisdiction over all inter-fraternity, inter-sorority, and inter-society appeals, and arbitrates in cases dealing with misdemeanors and violations. Members of Judiciary are, four Seniors, (one of whom is chief justice), two Juniors, and two Sophomores, appointed by the A. S. C. P. S. president.

Cooperating with these two departments, are the student managers, who direct all activities: dramatics, debate, music, and athletics. The yell king is the official cheer leader and director of all rallies or entertainment of visiting teams.

All the financial and business affairs of the A. S. C. P. S. are under the supervision of the general manager. Acting as assistant in keeping the books of the A. S. C. P. S. is the assistant general manager-treasurer. The efficient methods used by the present general manager, Prof. Chas. T. Battin, have resulted in a marked improvement in the financial status of student government.

Permission for the holding of all social functions and entertainments is considered and granted by the Student Affairs committee. This is a joint committee composed of ten members, of whom five are members of the faculty. Of the student members, one is representative for the literary societies, one from the inter-sorority council, one from inter-fraternity council, and two are appointed by the president upon the approval of Central Board.
Among the notable changes in the government this year, was a revision of the constitution, and the adoption of a women’s athletic manager. A number of phrases, no longer of any purpose, were struck from the constitution, and others more significant inserted, thus making it up to date. Under the supervision of a new women’s athletic manager, it is believed that the women’s athletic department will have a better opportunity for rapid advancement.

On October first, Central Board sanctioned the establishment of a rally committee which should have charge of the pep program. At a later date, this same body approved the purchasing of blankets for four year lettermen. At the annual Homecoming celebration, blankets were awarded Puget Sound athletes of former years.

A number of blankets bore stars, which signified a captaincy in one or more of the major sports. The outstanding achievement of Central Board, was the completion of the plans for the tennis courts.

Perhaps this year, more than any other year, has seen a greater growth of student government on the campus. Systematic departmental reports, exact receipts and disbursements of games and entertainments, have been ready within a short time after the events have been scheduled.

Each department is to be congratulated on the splendid way in which its activities has been handled. Debate, dramatics, music and athletics have all done their share in giving to others a clearer and finer conception of the College of Puget Sound.

The A. S. C. P. S. realizes that there is more to their association than college activities, and a definite cooperation with the administration has placed...
the scholastic standing on a higher basis than ever before.

Since Freshman week has been organized on the campus, upper classmen have assisted in the various departments, acquainting the Freshmen with the necessary details of college life.

The burden of work in all departments necessarily falls to the initiative of the managers. This year, however, plans were made to distribute the duties among assistants, thus making the work of the manager more efficient, and giving training to those who will carry on with the department later.

The system that has been installed, of having the next manager work with the present manager, has proved its worth. Much more has been accomplished in all departments, besides giving valuable experience under directed instruction, to the new managers. In this way, the students may be sure that each department is in the hands of an expert.

In bringing to a realization, the fine efficiency that was shown this last year by all the leaders and organizations of the students of the A. S. C. P. S. gained one of its many goals. Past years have laid, and pointed the way to greater achievement. The year of 1929 has perhaps, gone furthest toward the final goal. The worth of its production can only be realized, and appreciated in the light of what will follow in the future progress of the Associated Students.
Forensics this year assumed proportions hitherto unheard of at Puget Sound with a grand total of twenty debates. The institutions with which debates were held were of high caliber, and the showing made by our representatives was excellent.

A women's trip into Oregon resulted in the winning of three debates. The work of the women was excellent, only one loss being sustained out of seven contests engaged in.

The decisions in the men's debates are not a just criterion of the quality of work done, for most of the decisions were close.

Much of the credit for the success of the debate season is due William Law, the highly efficient manager, and Dean Lemon and Professor Holcomb, women's and men's coaches respectively.

Men's Varsity Debate

Puget Sound vs. University of Southern California, Tacoma, March 22, 1929. Question: Resolved, that the plea of temporary insanity in defense of crime should be prohibited by law. John Rademaker and Samuel Crippen. Decision won by Li. of S. C.

Puget Sound vs. Baylor University, Tacoma, March 29, 1929. Question: Resolved, that a substitute for trial by jury should be adopted. William Law and Shigeo Tanabe. Expert judge, decision won by Baylor.

Women's Varsity Debate

Puget Sound vs. Linfield College, McMinnville, Oregon, March 7, 1929. Decision won by Puget Sound.

Bellingham: Lillian Burkland and Georgia Johnson. Decision won by Bellingham.

Freshman Debate

Freshman Debate

Seattle, Merrill Dennett and Carlton Wood. No decision.
Dramatics at the College of Puget Sound during the past year have advanced greatly under the able guidance of Professor C. Sheldon Holcomb, and pupils registered in the public speaking seminar classes.

Two one-act plays were given by the fall play production class, one, "The Blue Moon," a fantasy, presented at the Home-Coming program, and the other, "The Purple Dream," at a student assembly. The first cast was: Betty Pugh, Elizabeth Jones, Cloma Norton, Marie Tromer, Margaret Alleman, Inez Brandt, Alice Johnson, Lona Potchek, Mary McNertheney, Betty Gilbert, Lois VanValkenburg, Audrey-Dean Albert. Those in "The Purple Dream," were: Reitha Gehri, Audrey Dean Albert, Van Spencer McKenny, Pauline Voelker, James Moore and Guy Hughes.

The spring class gave an entertainment of three one-act plays, before a large audience. "The Shoes that Danced," a tragedy;
“Mr. Meridew’s Right Hand,” “Evening Dress Indispensable,” two comedies completed the program.

The All-College play this year, was “The Famous Mrs. Fair.” It was one of the most finished pieces of work that has been done at the College for some time.

Elizabeth Jones was cast as Mrs. Fair, a successful war worker, but a failure as a mother because of her home absence. Robert Evans was Mr. Fair, who became infatuated with Mrs. Bryce, the young widow, Betty Martin. Pauline Voelker and Wilbur Goss played the parts of the daughter, Sylvia, and the son Allen. Sylvia almost married J. Dudley Gillette (William Gellermann) an embezzler. Allen married Peggy Gibbs, (Phyllis Culver). Minabel Stephens was the maid. The humor came from the military women: Audrey Dean Albert, Margaret Miller, Mary F. LePenske, Reitha Gehri, Portia Miller.

DRAMA

ALL COLLEGE PLAY, "THE FAMOUS MRS. FAIR"

Cast—foreground: Betty Martin, Robert Evans, Elizabeth Jones, Pauline Voelker, William Gellermann, Phyllis Culver, Wilbur Goss; back: Minabel Stephens, maid; military women, Margaret Miller, Mary Frances LePenske, Audrey-Dean Albert, Portia Miller, Reitha Gehri.
ORIGINALLY, technical skill and an understanding interpretation of the selections chosen to be presented, have been some of the characteristics of the Men's Glee Club programs this year.

The annual tour has included concerts at Bothell, Nooksack, Lynden, Burlington, Issaquah, Auburn, Edmonds, LaConner, and Bellingham. In addition, the club appeared before many civic organizations and it was also invited to furnish the music for the graduation exercises in Olympia.

The unusually large audience that attended the home concert, enjoyed a program of exceptional merit, in which the interpolated numbers were perhaps, of more interest than those scheduled, although each selection possessed intrinsic worth both in mode of presentation and in composition.

In the director, Mr. John Paul Bennett is found the source and the inspiration of many of the best effects. He has evolved an organization that bows before none with which it may be compared.

The selections given by the men were of classical and semi-classical nature. The smaller groups gave the lighter, humorous numbers of the program. The club has, perhaps, enjoyed its most successful and profitable year yet reached.
THE Women's Glee Club met with enthusiastic reception on its second annual tour this year. Audiences in Elma, Kent, Auburn, Steilacoom, and in Tacoma churches gave well-earned approval to the work of the club.

Perhaps the chief distinction of the music sung by the club was its essentially feminine quality.

Mr. John Paul Bennett, the director, decided wisely that the Women's Glee Club should not use the same type of music as the Men's Club, since their abilities are so varied.

Upon their return from the tour, the women presented on May 3, the annual home concert in Jones Hall Auditorium. A large audience was delighted by the unusual effects, and difficult selections rendered with almost professional ease.

Among the numbers which required technical ability, was "Snow," by Elgar. An amusing skit by five members of the club, portrayed the contrast between maidens of a by-gone day and the modern girl.

Surely the success of this year's efforts presages further triumphs in coming years. The development made by the club will serve as a basis for further progress.

A more ambitious program is being planned for next year, when another tour will be made.

First Row: Viola Jordan, second soprano; Carol Lindsay, second soprano; Dorothy Tutley, second soprano; Reitha Gehri, first soprano; Ina Coffman, second soprano, manager; Minabel Stephens, second soprano; Lucile Murbach, first soprano; Mary Milone, first soprano; Minabel Gehri, first alto; Mary Van Sicklen, second alto. Second Row: Hazel Betchart, first alto; Carol Hanson, second soprano; Madge Miller, first soprano; Charlotte Tromer, second soprano; Elsie Anderson, first soprano; Elizabeth Jones, first soprano; Alice Berry, first soprano; Helen Ritchie, first soprano; Betty Robbins, first alto; Third Row: Margaret Harris, first alto; Marjorie Gardner, second soprano; Wilma Frederik, first soprano; Doris Wakefield, first alto; Viola Van Patter, second alto; Portia Miller, first soprano; Vera Crail, second alto; Grace Van Vechten, accompanist. Not shown: Janice Wilson, Ethel Trotter, first soprano; Jessie Munger, Bonita Reeder, second soprano.
THE TRAIL

The College of Puget Sound Trail has completed another successful year in its history. Prior to 1922 it was published first as a monthly magazine, and later as a fortnightly newspaper. The Trail on the Puget Sound campus cannot be given enough credit for the loyal cooperation it has given to the student organizations and activities. The place filled by the Trail is becoming more important as the staffs progress. This year the Trail was given a complete Style Sheet by the Journalism class under the direction of Professor Coatsworth. The staff has worked hard to make the paper professional in tone, and it has laid the foundations for better work next year.

The Puget Sound newspaper has proved its worth on the campus, and in comparison with papers from other colleges of the same size.

THE TRAIL

The YEARBOOK of Puget Sound has advanced steadily with the growth of the College, and the present finds it a book which every student is proud to own. The annual has not always been called the "Tamanawas," for since such a publication has been in existence, it has been at various times, "Ye Recorde," "The Maroon," and "The Klahowja." The first issue having the name "Tamanawas" appeared in 1919.

The Tamanawas staff each year endeavors to place in the hands of the students a complete and accurate, as well as interesting picture of campus life, among the classes, organizations and activities.

The yearbook is one of the cherished possessions of every Puget Sound student. After graduation, it will become more valuable as a reminder of many happy days spent with friends and associates on the campus of Puget Sound.
LOGGER TRADITIONS

Because of the recent change to a new campus, traditions at the College of Puget Sound, are still in process of formation. Each tradition, as it is formed now, however, is adding something to the richness of the college history. Freshman Week is among the new traditions that will probably remain permanent.

The green cap custom is enforced by the Sophomores, usually aided by the upper classmen. The caps must be worn by Freshmen while on the campus, until Thanksgiving, when they are burned.

The Color Post Ceremonial, unique and impressive, is observed twice each year; once in the Fall, when the Freshman class is matriculated into the student group, and in the Spring, when the Seniors enter the ranks of the Alumni.

Homecoming, of special interest for the old graduates, was observed last year in conjunction with the Thanksgiving football game.

The All-College banquet is the big social event of the year. It is usually held in February, and all students and faculty turn out in old clothes to clean up the Campus. A feed at noon and a tug of war between the Freshmen and Sophomores, are features of the day.

The May Festival is a very beautiful ceremony held on Sutton quadrangle.

One day in April or May, the Juniors find the Seniors have departed. It is their duty and privilege to pursue the upperclassmen and find their hiding place. This tradition, known as “Senior Sneak,” is very popular.

The Junior-Senior Breakfast is another Spring outing, when the classes get together for an early morning meal, and then enjoy themselves for the remainder of the day at a nearby camp or inn.

The Service Contest is a new tradition inaugurated by the staff of the 1926 Tamanawas. An election is held to determine which Senior man and woman have been of greatest service to the College. The choice is kept secret until the Tamanawas is published.

Other traditions are, the Bag Rush, Senior Chapel, Cap and Gown Day, Senior Day, and the Gym Jubilee, a vaudeville show sponsored by campus organizations.

Dad’s Night: the evening when all students and their fathers may get together at the College for a banquet and a chance to get acquainted with each other and the faculty. A group of Dad’s, and students at the 1929 banquet.

The dinner at which Dr. S. Weir was toastmaster, was served by women of the Spurs. Gordon Alcorn and Marie Tromer were the chairmen responsible for the event.
SERVICE CONTEST

The tradition of the Service Contest was originated by the Tamanawas staff of 1926. The ideal of service, furthered by this contest, has been an important factor in the progress of the College of Puget Sound.

The winners of the contest this year are Elmer Austin, and Lillian Burkland.

Elmer's scholastic record has been outstanding, and in both social organizations and general student activities, he has held important positions. As class president, Central Board representative, member of Student Judiciary, Tamanawas business manager, and member of important committees, throughout his four years at college, he has proved himself worthy of his responsibilities. His service cannot be reckoned in material aid alone.

Lillian also has made noteworthy achievement as a student, and is a member of Omicron Delta Kappa. Her activities have been varied. She has served as secretary and vice-president of A. S. C. P. S. Finance Committee. She has been a varsity debater for four years. She has been president of Pi Kappa Delta. Her election as May Queen followed four years of active service.

MAY FESTIVAL

May Day plans for 1929 combined two features in their program: the crowning of the May Queen, and the honoring of the students' mothers. Because of inclement weather, the ceremony was held in the gymnasium. The traditional rite was particularly impressive as Walter Anderson as Duke, pronounced Lillian Burkland queen of the day's festivities.

Opening with a trumpet solo by Edward Bassett, and followed by a gala Maypole dance under the direction of Mrs. Ruth Wainwright, and solo dancing by Ida Jackman, the program was joyful in content. Selections from the women's double quartet, Men's Glee Club; vocal selections by Walter Anderson, with instrumental numbers from Marjorie Gardner, Dorothy Bell, Mary Kizer, Margaret Patterson, and Douglas Babcock, completed the coronation exercises.

An unusual art exhibit and informal reception brought to a close the May Day festivities of 1929.
PUGET SOUND

Words by Frances Martin

Music by Mary Hizer

(Thy) light in the darkness, Light as daylight, on the hills and shadows disappear.

The dawn brings us new, A gentle star lit, the dawn brings us new, A gentle star lit.

Sky cheer the evening shadows depart, But the stars are burning, the stars are burning.

And the Sound is filling with hope, Hope is filling with hope, filling with hope, filling.
ANNUAL GLEE

"PUGET SOUND," a waltz melody of simplicity and delicate harmony, won for the Senior class the honor of first place in the Annual Glee Contest. The music was composed by Mary Kizer, and the accompanying words by Frances Martin.

Presented with a campfire scene as the setting, by Pauline Voelker, soloist, Mary Kizer, violinist, Elizabeth Jones and Vera Crail, assisting vocalists, it won due admiration from the other classes. The class of '29 gathered as a whole around the campfire for the final chorus.

The effect of the dimly lighted stage, faintly glowing embers, and enthusiastic chorus of Seniors was well received by the audience.

The Junior song written by Douglas Babcock earned second place, and the Freshman song composed by Carlton Wood won third place. The Sophomore class did not enter a song.

All of the songs were judged as to words, music, presentation, and the fact that they must be worthy to be used on a variety of occasions.

For the last time, the class of '29 has placed its numerals on the Annual Glee pennant.

ORATORICAL CONTEST

WITH THE subject, "Wilson, the Prophet of a New Day," Pauline Voelker, only woman contestant in the Oratorical Contest this year, won first prize. Following with second prize was Robert Evans, with his oration, "Jefferson, the Man of an Age."

Much interest was shown this year in the contest. Twelve orations were originally submitted, although only five of them appeared on the program. Ralph Kennedy spoke on "Peace Through Education;" John W. Robinson on "Youth and World Peace;" and Mariano Bologn on "The Redemption of America's Pledge."

Pauline Voelker, as winner of the local contest, went to the Pi Kappa Delta convention at Pullman, Washington. There she succeeded in capturing further honors by winning first place in the women's oratorical contest and second place in the women's extemporaneous speeches.

Each year, a first prize of fifteen dollars, and a second of ten dollars are given by A. O. Buehmeister, attorney, who hopes to encourage a higher type of work in public speaking through the medium of a contest.

No more representative figure of our great Northwest exists than that of the Logger. Courageous, he is not afraid of perilous jobs. Brawny of muscle, he hews the giant trees. Lover of the forests, he learns from them the spirit of comradeship. Throughout the country, the Puget Sound athletes are known as the "Loggers." In them may be found courage, strength and sportsmanship. As "Loggers," they are developing the physical side of College of Puget Sound students.
ATHLETICS
LOGGER ATHLETICS

Logger athletes and athletics have just finished another successful and enviable year, and have added a proud page to the athletic history of Puget Sound. There is ample reason for everyone to feel pride in the record made by the college's athletes and coaches.

This past college year, more than any other, has brought a keen development of the better side and purposes of athletics. There has been a greater feeling of loyalty and sportsmanship among the players and teams. The feeling and spirit was so evident that it resulted in a finer attitude in the school as a whole.

More than an ordinary share of the wins have been on the Logger's side of the record. Puget Sound teams in every sport have been serious contenders in the race for first place honors.

Northwest Conference teams have made the past season the best year in their experience. These teams compare favorably with those of the larger schools, and several times the latter have faced defeat by the less known teams.

Maroon squads have always been close to the top in the Conference. They have never been a "setup" for any team in any game.

To Coach Clyde W. "Cac" Hubbard goes the greatest credit for the progress of the local teams. His masterful coaching ability has developed better teams of all the Logger squads. His work has gone deeper than mere athletic development. There is no room in "Cac's" curriculum for unsportsmanship and favoritism. He will not tolerate scholastic ineligibility.

These, combined with high personal ideals and clean living, have been part of his teaching. As a result, he has not only developed better athletics, but has given his players a vision of true manhood.

Coach Hubbard was ably helped by Lynn Wright as assistant varsity football coach, Larry McLean, former Yale star headed the Reserve squad in that sport, and turned out the best team the College has seen. F. A. McMillin, the man behind the scenes, was an excellent trainer.

Athletics in the Logger school can be said to develop more than mere physical ability in games. The type of sport, coaches, and training, all tend to make paramount a clean high plane of life.

The loss of "Cac" as head coach for next year will be keenly felt among the players here. Loyal support, however, has been pledged by the men to the new coach whose name has not been publicly announced as yet. Hubbard has given special training on a few of the Logger's weak points in the various sports. Fortunately there are dependable lettermen returning next year, who know the situation thoroughly and may be of service to the new coach.

Through the effort of "Cac," the managers, and the administrators of the College the various teams were in the limelight of Tacoma this year more than ever before.

Athletic advertisement was one of the things Puget Sound needed. With the business firms and builders of Tacoma showing greater interest in what the College was doing athletically, a more pretentious program was devised.

Material for Puget Sound athletes promises to be good next year. With the experiences of 1929 behind them, and a clean slate on which to write their record, the Loggers should be able to develop a force in almost all teams that will send the name of Puget Sound far.
FOOTBALL

The captain of an athletic team must be more than a captain of the game alone. He must have outstanding qualities of leadership, character and personality.

Amos Booth, four year letterman, winner of the Johnson-Cox Inspiration Trophy the first year it was awarded, has ably filled the position of captain the past season.

Frank Gillihan, three year man, All-Conference end ’27, quarterback ’28, and winner of the Inspiration Trophy, will carry on as captain for the football team of 1929.

When Coach Hubbard called out his football squad on September 15, prospects for a very successful season seemed brighter than ever. Fourteen lettermen from last year’s team appeared, along with a fair group of freshman gridders.

With but two weeks in which to shape a team and have it in condition for the first game, Hubbard drilled his men regularly.

The squad was in splendid shape for its first game of the season, and the Loggers traveled to Ellensburg to give the Normal team a thorough whipping. The Loggers let up only momentarily, when they let the Teachers sneak over for a touchdown. They were behind in the score at the start of the second half. The third and fourth quarters saw the Loggers smash their way from one end of the field to the other. They scored three times in these two periods, and were on the line ready to score again when the gun ended play. The final score was 24 to 14.

The team worked hard the next week, and on Friday met the Conference champs of the year before, in the Stadium. College of Idaho brought over a team of young giants. They were highly touted and were confident of victory, as they had held the powerful Brigham Young University the week before to a 9 to 8 score. The game was the Logger’s all the way through. They smashed and pulled their way to the goal line time after time only to see the ball go to Idaho on several repeated fumbles.

In the third quarter the Loggers came back to smash the ball down the field on three occasions only to lose it three times. In the fourth quarter, the Maroons took a desperate chance and made it. A pass brought the ball down to the Ida-
ho 18 yard line. Here three smashes through the heavier Idaho line brought the much coveted touchdown and the margin of victory.

Following this victory, with a 66-0 win over the fleet champions from the U.S. S. Lexington, the Loggers went to McMinnville, where they administered a 50-0 beating to Linfield in the second Conference game. The Wildcats never had a chance. Soon after the first period opened, a Logger halfback crossed the goal line for a score.

Throughout the half it was a slaughter. The last period was shortened to one third of the ordinary time, but the score kept mounting up.

With these four impressive victories, the Loggers looked good to take the crucial game from Willamette in Salem. They opened up in this game and looked like sure winners in the first half. But the Bearcats showed more fight, and beat the Puget Sound men at their own game—passing.

The Loggers just could not stop the fighting Salemites, and the Bearcats came out on top by a 25 to 18 score.

A tired Logger team was handicapped by injuries to both of their fullbacks. Almost everyone on the team was nursing some sort of sore spot. The Maroon took a 40-0 loss from the hands of the Huskies, but they played a high class game of ball, making more first downs by scrimmage than did the Huskies.

Carroll, All-American halfback of Washington had a regular field day, scoring all of Washington’s points.

The Washington game took its toll of Logger players. Every Logger regular was in poor condition to meet the next foe.

Taking all his men to Whitman, Hubbard figured that he would be lucky to win. Of the lineup

![Loggers and Bearcats Tangle at Willamette](image)

that started the game, only one finished.

By the end of the first quarter, the crippled Loggers had to give way to complete substitution. The Maroon mentor barely had eleven men out of his squad of twenty-four that he could keep in the game at the finish. The team played real ball, but the long pass attack of the Missionaries worked too well, and the Walla Walla team came out on the long end of a 50-19 score.

Taking a week's rest before their last game, the Loggers put a fighting team on the field against Pacific, and handed that University a 14-0 beating in the Stadium. The strength and power with which the Logger team crushed the Badgers gave a splendid feeling of satisfaction at the end of a well-played gridiron season.

In the All-Conference selections, Puget Sound placed Garnero and Purvis on the first team, and on the second team,

TEAM: Harry Brown, quarterback, 1st year; John Garnero, guard, 3rd year; Charles Lappenbusch, tackle, 2nd year; Donald Shortwell, end, 2nd year; John Gardner, guard, 3rd year; George Tibbits, tackle, 2nd year; Chester Rhodes, guard, 2nd year; Baird Fyler, center, 2nd year.
GILLIHAN CROSSING THE SIDELINE IN THE IDAHO GAME

Gillihan, quarterback, Ferguson, end, Hurworth guard, and Booth center.

Coach Larry McLean took the Reserves under his wing and built up a very successful team. They won games over Parkland, Lincoln High, and beat the Husky Frosh second team in a walk-away. They lost to Stadium High and Centralia Junior College.

The spirit of the players was excellent. On every occasion they conducted their directed plays in an approved fashion, and won the respect of the opposing team.

The strenuous training of Mr. McMillin kept the men in fit condition throughout the season. Serious injuries to the players were averted by his care, and the Loggers were able to finish the games with only minor injuries to the team.

Football fans in the Northwest are looking to the Loggers to develop a team that will rival any in this section.

LOGGERS RUNNING INTERFERENCE

TEAM: Dave Ferguson, end, 3rd year; Lee Graves, tackle, 1st year; Dick Gilbert, halfback, 1st year; Ralph Bowz, tackle, 3rd year; Onie Hannus, halfback, 3rd year; Victor Ranta, end, 1st year; Don LaDoux, fullback, 1st year; Fred LePenske, halfback, 3rd year.
BASKETBALL

BASKETBALL at the College of Puget Sound did not enjoy its most successful season during the winter of 1928-29, and the end of the Conference play found the Loggers in fifth place in standings. This position on the official roster of the hoop teams of the circuit does not tell the story of the year or the strength of the squad which was much better than indicated.

A slump on the Oregon road trip, which caused the loss of two comparatively easy games, can be ascribed as the reason that Pacific and Linfield, with weaker teams, topped the Tacoma squad in percentages. Sheer fight at times would bring the Loggers up to the top and on occasional evenings the best in the Northwest were unable to do more than barely defeat them. Whitman, with one of the outstanding fives of the section had to call its long shot ace, Bevo Croxdale, to sink the ball from the center of the floor before the Loggers could be downed in the second game at Walla Walla. Willamette considered herself lucky to escape with a one point victory in their second battle with "Cac" Hubbard's cohorts, when a long shot in the last minute of play gave them a one point lead.

When "Cac" Hubbard, mentor of the basketball men, gave his call for maple court stars in December he found little around which to build a team.

Out of his slim material Hubbard manufactured a basketball quint that was dangerous at all times, and considering its lack of size its greatest handicap, compared well with other collegiate aggregations. Height was the only margin of victory in many of the games lost by the Maroon.

The University of Washington and the Oregon Agricultural College, the only Coast Conference teams met this year, had little trouble winning by generous though not lopsided scores. The Northwest Conference season was opened by the Loggers on a trip into Oregon where they fell into a slump and lost to Pacific 35-29 in an overtime battle that was fought all the way. Columbia University was made the victim of a 27-26 win the next night in

TEAM: Minard Fassett, center, 1st year; James Bowler, guard, 1st year; Russell Schwen, forward, 1st year; Whitney Lees, guard, 1st year; Ray Croxell, forward, 2nd year.
a non-conference battle, but in the third game of the tour, Linfield College proved too tough a nut to crack on their floor and the game was lost 27-14.

Ellensburg Normal, with one of the highest rated quintets in the Northwest, were defeated in Tacoma by a 29-23 count the next week, and the Loggers looked to be showing real class. The next night, Linfield came to the Commencement Bay city, and was welcomed to a 47-33 defeat, the Loggers continuing their showing.

On a tour in Eastern Washington, Hubbard's men developed the habit of starting late in their game after spotting all opposition from 15 to 20 points. Gonzaga scored nearly 20 points before the Loggers could make any attempt to even things. In the last half Puget Sound came to life and the final 50-37 count indicates their return to form. Against Whitman, fighting for recognition as a real ball club, the Loggers were overwhelmed 55-20 in the first game but came back the second night, after allowing the Missionaries a 14 point start, to hand Borleskie's men a real scare. The final count, 38-33, resulted only in a Whitman win after Croxdale, Missionary captain, sank five shots from the center of the floor. Ellensburg took the return games on the way home by a 29-21 score.

At home Columbia proved easy prey, and a 47-24 final mark was the result. The series with Willamette was next on the program, the victory going to them 43-23. The final Northwest Conference game for the Loggers displayed the best basketball that they played all year. Jumping into an early lead the Puget Sound men held their own until the last ten seconds of the game, when a long shot by a Willamette substitute won for the invaders, 35-34.

The Sciots were defeated in a post-season series.
DURING the 1929 season, track was unusually successful at the College of Puget Sound. With seven lettermen in school, and a number of new track and field men, the Loggers developed into a well balanced squad which participated in the most extensive schedule the Maroon has ever had.

Showing exceptional form and speed, the Puget Sound tracksters swept the events in the University of Washington Class "B" relays, won handily from the University of British Columbia and Bellingham Normal in dual contests, placed second in the Northwest Conference meet and lost a dual engagement to Whitman College.

At the University of Washington relays, the Loggers took the three first places for the smaller colleges and universities. To start things coming to Puget Sound, Don Darrow finished in front of a fast field in the 100 yard dash. The medley team of Darrow, Hendel, Tatum and Fassett made a new record as did the mile relay quartet of Darrow, Booth, Hendel and Tatum.

The Loggers won handily from the University of British Columbia by an 88 to 43 score and beat Bellingham Normal with a 73 to 57 count. The Maroon and White team dropped a dual meet to Whitman College by a margin.

In the 1928 Northwest Conference meet, the Puget Sound squad finished second. Although not first in points the Loggers made a number of new records both in track and field events. Captain Tatum ran the 440 yard dash in 51.2 seconds to better the former time. Minard Fassett beat the time he had made at a previous meet for the mile run and set the time at 4:29.6

Three field records were made by Loggers. John Garnero put the shot 40 feet 2¼ inches, and threw the discus 127 feet 2¾ inches. Don Darrow tied with two others for a new height in the pole vault, clearing the bar at 11 feet 1½ inches.

In the Conference, Whitman was first, with Puget Sound a close second. College of Idaho, Pacific University, Willamette University, and Linfield College followed in the order named.

This year there were but four lettermen reporting for track. With a large number of inexperienced men turning out, the Loggers have some prospect for another successful season.

---

TRACK: Glenwood Platt, 440, mile and jumps, 1st year; Russell Schwen, pole vault and javelin, 1st year; Clayton Perry, 220 and 440, 1st year; Raymond Croxall, high jump, broad jump, 2nd year.
FOUR practice meets have been run to help the men condition themselves. The first meet was the class event which was won by the Seniors with the Freshmen, Sophomores and Juniors finishing in order. Meets were held with the two local high schools and the college found little difficulty in winning from the prep boys. The fourth contest was in the nature of a relay carnival with the men running for the Greek letter sororities on the campus.

On May 4 at the tenth annual University of Washington relays, the medley race was won for the fourth consecutive time, by Puget Sound. The winning team was Groff, Booth, Young and Fassett. A mile relay team was entered and placed fourth. The men on this team were, Brotman, Ferry, Platt, and Booth.

Two other meets are on the schedule for the 1929 season. Bellingham Normal was met on May 15 with a Logger win, and the Northwest Conference meet will be held at Walla Walla on May 30.

Outstanding among the men on the Puget Sound team this year are, Minard Fassett, John Garnero, Amos Booth, and Ray Croxell who have all won letters in the past years.

Fassett is captain of the Maroon team this year. Holding records in the Northwest Conference in both the mile and two mile runs, he has brought many points to the Loggers. Fassett has finished first in all but two inter-collegiate races that he has participated in, and these two were in his first year as a runner. Amos Booth has been a steady point winner in the four years he has run for Puget Sound. His races are the hurdles and the quarter mile. Both of the men will graduate this year.

In the field events, John Garnero has set the pace in the shot put and the discus. John holds records in both of these events and shows promise of bettering his former records this year. Another field man is Ray Croxell who specializes in the jumps. Croxell has come near to six feet in the high jump, and has done better than 21 feet in the broad jump.

Other men who are showing well are Brotman, Young, Groff, Ferry, Calahan, Schwen, and Kellogg.
INCE the days of Bruce Blevins, baseball has always been a first class sport at the Logger school. But since the days when the husky right-hander left school, baseball days have not been so bright. The heights reached by the Loggers in 1923-26, were chiefly due to the ability of the big pitcher to "throw 'em by the batters."

This year, the team was faced with a lack of pitchers. The "boogy"—ineligibility, faced a pair of the Logger star players. They subsequently dropped from school and the Logger's hopes were given a severe setback. This loss was made up however, by the unlooked for lot of talent that came from the freshman class.

The new men who are playing regularly and look good in their respective positions are: Doug Hendry at second base, Whit Lees at shortstop, Louis Spadafore at third base; Dean Pettibone and Al Jessup pitchers, are also looking well and play regularly this year include Victor Kovack and Dick Jorgensen.

This year's schedule calls for a trip to Oregon where the Loggers meet the Willamette and Pacific teams in the conference race. They also have diamond games with the Monmouth Normal in Monmouth, Oregon. A trip to the conference play-off at Walla Walla is in line along with the others, but whether the Loggers can finance such a trip is questionable. If the Loggers can get "over the hump" to take the Missionaries,
they have a good chance to take the first conference title ever won by the Maroon.

The Loggers played Pacific Lutheran, and the Collegians smothered the Parkland team by a 20-0 score. At a later meeting, the Loggers duplicated by almost a similar score. The Loggers went to American Lake where they played the Hospital "vets" who have the fastest team in the county, and who boast a double victory over the University of Washington. In four games the Loggers won two and lost two. The veterans have a hard hitting team, the hitting being led by Frank Wilson, former Logger star.

In a game with the 10th Field Artillery team, the Loggers won by a good score. Ferguson pitched, and he had things his own way at most times, although the team faltered behind him on several occasions.

Bert Kepka is the only senior to leave the team. With this year's lettermen repeating their work on the team next year, an excellent chance should be afforded for the 1930 conference championship.

An improved field has been an aid to the game this year. More interest has been shown in practice tryouts, and Frosh especially have showed interest in the sport.

In "Cac" Hubbard, the baseball men have had an excellent coach. His baseball experience and coaching have been an invaluable factor in putting the Logger team in good form.

Since baseball is the national sport of the spring season, it is to be hoped that the sports curricula will be planned to include further participation in more games with other teams of interest to the College.

Although baseball and track are carried in somewhat the same season, each sport draws from different groups of fans. In only a few cases, have the two sports overlapped with the men participating. In this way a more strenuous preparation may be made by each. Baseball, in the past, has not received enough attention on the sports program. With the improved record of 1929 as a starter, the baseball program for the future should be both more ambitious and more completely successful.
MEN’S TENNIS

WITH THE best tennis courts in the city to play on and an inter-
class trophy cup to play for, as well as varsity trips and meets, tennis has come to the College of Puget Sound for a permanent stay.
All this has been made possible through the generosity of Harry L. Brown, friend and trustee of the College, and the donor of both trophy and courts.

With these courts to practice on, new talent is developing and future conference tennis prospects are in a very favorable aspect.

The tournament baptism that this year’s inexperienced men are receiving, bids fair to make next year’s team a powerful one, and other future teams even more favorable.

A five man team composed of Hidy, first man; Thomas, second and captain; Neyhart, third; Elsbree, fourth; and Hayden, fifth; made an invasion of Oregon, meeting Reed and Columbia in Portland, and Willamette in Salem. The Logger pellet pounders made a clean sweep of the Columbia matches, but dropped a hotly contested battle each to Reed and Willamette.

Mr. H. L. Brown, donor of the courts, Dr. Todd and Mr. Robbins, testing the new courts

The Salem school had a return match with the locals May 18, but this article goes to press before the results can be obtained. Present indications are that there will be a vastly different result, as the Sound racquetees are rounding into shape very quickly.

Columbia plans on having a return match on the local courts, but the date is not settled as yet. There is also a possibility of matches with Moran and Bellingham Normal.

No local matches could be arranged with Whitman or Pacific, as neither are travelling North this year. They will be met in the Conference matches of the Northwest regionals at Salem, May 24 and 25.

Hidy and Thomas, the Logger’s two man representative team are sure to give good accounts of themselves against these players of national reputation.

The varsity team is chosen by a ladder tournament. Those not on the ladder are eligible to challenge the two lower men, and if they win, places here are also exchanged. A varsity and a freshman tourney are also held, as yet the winners are unannounced.
PAST YEAR was the first time that a Logger women's team actually engaged in inter-collegiate tennis competition. In 1927, a winning local team met Pacific Lutheran College, and Centralia Junior College. This was only a beginning.

In 1928, the team was chosen by the challenge method. Five women composed the team. They were, in order of ranking, Margaret Alleman, Mildred Martin, Mabel Bennett, Betty Martin, and Dorothy Raleigh. In the tour of Oregon, the women took everything from Reed and Pacific and lost to Willamette 4 to 2.

No trip was undertaken this year, but Puget Sound was host to the Willamette women here the day following the dedication of the tennis courts. Helen DeLine headed the Puget Sound team, followed by Mildred Martin, Dorothy Raleigh, Betty Martin, and Pauline Voelker. In the singles, Dot Raleigh and Betty Martin won, and the doubles team, composed of these same racqueteers defeated Willamette 64, 6-3. The two colleges shared honors 3-3.

In order to assist in the singles elimination tournament, a new system was adopted. Three divisions were made—varsity, intermediate and amateur. The five leading each division received 125 points toward a letter. Helen DeLine placed first in the varsity, Phyllis Culver in the intermediate and Vera Weller in the amateur. Class doubles teams also played, but the victors are not yet determined.

Tennis is the only sport in which Puget Sound women may compete with athletic teams from other colleges. For this reason, the game is of very great interest to the women's athletic department. Next year, the Logger women's team will again venture forth to gain honor on other campuses.

Pauline Voelker and Mildred Martin, two strong senior racqueteers are leaving this year. This will somewhat cripple the team, but with the balance of the group returning, and the advent of new material next year, an even stronger group of players should be developed.

This year, the team played against some of the most highly trained women tennis players in the Northwest and broke well on the final scores.
IT CAN BE truthfully said that 1928-29 has been the most successful year in women's athletics at the College of Puget Sound. Headed by Mrs. Wainwright, assisted by Mildred Martin as assistant instructor and appointed manager of women's athletics, the women's department of physical education has reached more women in intramural competition than ever before. Archery showed the largest turnout, with tennis and basketball next.

The Sophs took the honors in nearly every sport. They began by taking the volley ball championship. Their basketball rivals were the next victims. Their total score was 135 as compared to their opponents' 32. They also won baseball, archery, and track. It remains to be seen who will win the class doubles in tennis.

The Kappa Sigma Theta basketball champs won the trophy presented by the Sixth Avenue Business Men's Club. The inter-sorority series drew as large a crowd as some of the men's inter-collegiate casaba tilts.

The women's all-star basketball team was composed of the following: Vera Weller, Viola Van-Patter, Margaret Hill, Mildred Martin, Ruth Seaton, Lillian Boyd, Lucile Philips, Georgia Johnson, Betty Martin, and Margaret Swanson.

Archery drew a larger number of participants than ever before. The soph team, composed of Mary Westcott, Elsie Crail, Edna Muzzy, and Helen Young, captured first place, the Juniors second. First place in individual scores went to
ARCHERY, HIKING, TRACK

Left, Sophomore Champion Team; top, Hiking; right, Archery Champs; lower center, Track

Mary Westcott whose score was 200 out of a possible 240 points. An extra shoot was necessary between Mary and Edna Muzzy. Mary won the bow offered to the winner by Mr. J. M. Morgan.

Track was again instituted as an interclass sport. The number turning out did not compare favorably with the turnout in other sports. Attention was centered on archery and tennis. In the basketball throw, Beatrice Pearson, sophomore, placed first, throwing the ball 66 feet. The Sophs took second, and the Juniors third. In the basketball goal throw Mamie Baker and Viola Van Patter tied for first, each making seven out of ten shots. In the baseball throw, Vera Weller threw the ball 170 1/2 feet, winning first place. The Sophs took second and third places.

In the broad jump, Marnie Hill, Sophomore, made 14 feet one inch, defeating Lois Brill and Madge Miller, who won second and third places respectively. In the high jump, the highest was four feet one inch, by Evelyn Bjorkman, Junior. Vera Weller and Marnie Hill came second and third. Marnie Hill won the 75 yard dash, and Lois Brill the 50. Vera Weller and Margaret Hill tied for honors with eleven points each.

Hiking was resumed with enthusiasm. A woman taking six out of eight scheduled hikes receives 125 points toward a letter. Due to the weather conflicting with these hikes, the activity was made an individual affair, members of the Letter Club accompanying aspirants for points.

More women than ever before will receive awards.
Lumbermills or lakes are filled with piles of wood. Each pile is so organized that the timbers may have an opportunity to become solid before being handled. The timbers may have an opportunity to become solid before being handled. The timbers may have an opportunity to become solid before being handled. Then, when the college organizations have work for all high purposes, they offer a place in which the student may express and prepare himself so that when the opportunity comes he may be ready to meet not only the technical, but also cooperative, and socialized problems.
ORGANIZATIONS

Some of the finest training both in social life and the development of initiative, is afforded the College of Puget Sound student, through campus organizations.

At present, the College has four chapters of national organizations. Three of them are honorary: Theta Alpha Phi, honorary dramatic fraternity; Pi Kappa Delta, honorary debate fraternity; Pi Gamma Mu, honorary social science fraternity, and the fourth, the Spurs, is invitational to chosen women of the freshman class.

There is one scholastic honorary organization on the campus. This is Olah, the women's honorary. Invitations to Iota Tau, the men's honorary journalism fraternity, is based on service given to college journalism.

The purely social groups consist of the four Greek letter sororities for women, and the five fraternities for men. Alpha Omega is the independent women's social organization.

All College Affairs

Several social events are scheduled by the college every year, to which all students are invited. The outstanding social event is the All-College banquet held in February. Several all college parties, sponsored by the classes or clubs are given. This year, a trip to Salem, Oregon, for the Willamette-Puget Sound game, was arranged. The faculty reception for the Freshmen, and the President’s reception to the Seniors are among the formal events of the year.

STUDENT AFFAIRS COMMITTEE

Seated: Miss Anne Crapper, Dean Blanche W. Stevens
Standing: Ralph Tolleson, Lucile Vestich, Doris Wilson, Wilma Zimmerman

Pi Gamma Mu

Purpose: To promote the scientific study of social problems.

Officers: Professor James R. Slater, president; Mr. H. H. Garretson, vice president, and Miss Marcia Edwards, secretary-treasurer.

This honorary is the school's newest national organization. Most of the members have been chosen from the faculty and alumni of the College.

The Y. W. C. A. membership is open to all the college women, and the Y. M. C. A. is open to all the men.

The men's service club, corresponding to the Spurs, only local in nature, is the Knights of the Log.

There are three departmental clubs, Pen and Ink club, the Mathematical Round Table, and the Chemical Society.

Three literary societies form interesting groups for those interested in their weekly programs.

The Christian Service club, and the Cosmopolitan club both have interesting inter-national and inter-racial relationships.

The Women's Dormitory has an organization by which all its program and business is planned.

Sigma Delta Beta, is the newest Greek letter society. It is a club for the married students of the College.

The Women's Letter club is composed of women who have earned letters.
Theta Alpha Phi
National Honorary Dramatic Fraternity
Washington Alpha Chapter
Organized—1922

Purpose—To increase interest in dramatic art, and to honor students who have therein succeeded at the College of Puget Sound.

Officers—Audrey Dean Albert, president; Van Spencer McKenny, vice-president; Wilma Zimmerman, secretary; Ina Coffman, treasurer.

Pi Kappa Delta
National Honorary Debate Fraternity
Washington Alpha Chapter
Organized—1922

Purpose—To promote forensics on the campus, and to encourage debating as a major activity at the College of Puget Sound.

Officers—Elverton Stark, president; William Law, vice-president; Mildred Martin, secretary and Douglas Babcock, treasurer.
Otalh

Local Honorary Women's Fraternity
Organized—1922

Purpose—An organization composed of senior women whose scholastic standing during the first three years of college averages B or above, and who have been of service to the college, and possess qualities of womanliness.

Officers—Doris Wilson, president; Wilma Zimmerman, vice president; Bernice Sprinkle, secretary-treasurer.

Iota Tau

Local Honorary Men's Journalism Fraternity
Organized—1927

Purpose—The promotion of individual work in journalism, the encouragement of its study as a profession, the maintaining of high standards in student publications, and the support of new journalistic ventures of merit.

Officers—Elverton Stark, president; Minard Fassett, vice president; Elmer Austin, secretary-treasurer.
On the campus of the College of Puget Sound are two pep organizations. Spurs, established in 1926, is a chapter of the honorary national for Freshman and Sophomore women. Members usher at school functions, repair athletic equipment, present various stunts at college entertainments, and in general are of service to the College.

Officers are: President, Margaret Hill; vice president, Margaret Palmer; secretary, Charlotte Tromer; treasurer, Dorothy Le Sourd.

The members of Knights of the Log, the corresponding organization for the men, take tickets at the athletic contests, repair the athletic field and help wherever needed.

Officers for the fall semester were: President, Herbert Wade; vice president, Nyall Steinbach; secretary, Harold Bergerson; treasurer, William Leuenberger.

Officers for the spring semester: President, Richmond Hidy; vice president, Norem Otteson; secretary, Carlton Wood; treasurer, Ross Mace, and sergeant-at-arms, Jack Worden.
The Christian Associations

The combined efforts of the Y. M. and Y. W. Christian Associations as influences for higher standards of living and character building, are powerful.

Special features of the Y. W. programs have been candle lighting services held in the Little Chapel. A Freshman Women’s tea was sponsored by the Y. W. during Freshman Week. A skating party, Y. W. Bean Feed, Industrial dinners, and Pot Luck suppers have been other attractive events. The Y. M. C. A. has reorganized this year in order to stimulate cooperation among its members.

A recent tradition of these two groups, is the sunrise breakfast and prayer service, held at one of the parks. This activity takes place the Sunday morning of Commencement Week.

Officers of the Y. M. C. A. during the past year were: Fred Henry, president; Robert Evans, vice president; Shigeo Tanabe, secretary; and Prof. C. W. Topping, faculty adviser.

The Y. W. C. A. officers were: Martha Ann Wilson, president; Dorothy Raleigh, vice president; Margaret Palmer, secretary; Evelyn Bjorkman, treasurer; Norma Judd, undergraduate representative, and Vera Hardman, freshman representative.
Pen and Ink

The Pen and Ink club was organized on the campus two years ago for the purpose of developing ability in creative writing.

Miss Georgia Reneau, head of the English department, is adviser, and all other instructors of this department have honorary membership in the club.

Members of Pen and Ink aspire to make the organization a local Rune of the American College Quill Club.

Officers for the past year were: President, Bruce Thomas; vice president, Lucile Davenport; secretary-treasurer, Elma Sines.

Mathematical Round Table

The Mathematical Round Table is formed by students interested in mathematics, and who have had at least one course in this subject.

Prof. Francis W. Hanawalt, head of the mathematics department, is the club’s adviser.

During the first semester the officers were: President, Harold Skramstad; vice president, Mildred Simpson; secretary, Fred Gysin; treasurer, Milan Michener, and sergeant-at-arms, Leonard Farstvedt.

For the second semester they were: President, Harold Skramstad; vice president, Leonard Farstvedt; secretary, Carol Lindsay; treasurer, Jean Fuller, and sergeant-at-arms, Arthur Slaton.
Christian Service Club

The Christian Service Club was organized last year for students who plan to do full or part-time work in religious endeavor after graduation from college. Its purpose is to promote Christian living and to foster service.

Officers throughout the year were: Leonard Unkefer, president; Mae Ernst, vice-president; Theo Barwick, secretary; Inez Johnson, treasurer. Chairmen of committees were: Bernice Sprinkle, Martha Ann Wilson, Julia Haugland, Carl Eshelman, Martha DuBois.

Cosmopolitan Club

Organized to promote Christian brotherhood among all, regardless of race, creed or religion, the Cosmopolitan Club has done excellent work this past year. The many nationalities and races represented make the meetings especially worthwhile.

Martha Ann Wilson has served as president, and with her have been, Maximo Caday, vice-president; Augustine Santos, secretary; George Guins, treasurer, and Emil Cortesi, chaplain.
STUDENTS majoring and minoring in chemistry at the College of Puget Sound, organized last year a Chemical Society.

One banquet is held each semester, featuring a prominent speaker. Special meetings carry on the regular business of the organization.

The most important activity sponsored by the science department, with the aid of all science majors, was the Science Hall Open House, held in the Spring. Each department prepared exhibits typical of its work, and the professors, assisted by the students gave informal explanations.

The geology department prepared and exhibited collections from the museum, while the physics department showed, to those interested, experiments in light and sound. A group of chemistry students demonstrated the processes of manufacture of several interesting products, among which were perfume, paint and sugar. The biology department displayed, in the laboratory, many carefully worked out studies of biological development. In the serving laboratory, the Home Economics students demonstrated the use of the machines used in the work of the department. Exhibits of the dressmaking and design work done in the past year attracted the interest of visitors. An unusual group of period costumes portrayed the charm of the past. Another exhibit of distinction was the primitive weaving from South America.

In the cooking laboratory were found a series of foods divided into hundred calorie portions. These displays were educational as well as interesting.

Members of the Chemical Society were active in organizing the exhibits for the Open House.

Officers for the past year were: Thomas Dodgson, president; Harold Skramstad, vice-president, Lewis Jeklin, secretary. Professor G. T. Henry acts as faculty advisor for the group.

Women's Dormitory

Sacajawea Cottage is at present the only women's dormitory on the campus. Women who live in the Sacajawea Cottage, or "Dorm," all come from out of town. This year, the Dormitory accommodated eighteen girls the first semester of the year, and sixteen during the second semester.

A close fellowship is found among the girls who make the women's cottage their home during the months of the school year.

Mrs. Louisa Goulder is the house mother for the group. Her sympathetic influence furthered the home-like atmosphere found at the Cottage. This will be her last year at the College. Her active place as House Mother will be hard to fill.

A dinner party and a beach party were the two leading social events the women sponsored during the year. A tea given in honor of Mrs. Louisa Goulder was given by the women for the faculty and friends of the girls living at the cottage.

Other informal affairs planned included a house party, a party at the home of Mrs. Edwin L. Carlsten, and several spreads. The advent of new buildings will give a greater scope to the social training offered by the Puget Sound Dormitory.

The Dormitory organized as a club, had as officers for the fall semester: Carol Lindsay, president; Marian Johnson, vice-president; Bonney Hardman, secretary, and Doris Peffer, treasurer. Second semester officers were: Marian Johnson, president; Vera Weller, vice president; Louise Chase, secretary, and Myrtle Faulkner, treasurer.

Plans for women's dormitories have been considered. It is not decided as yet whether the new dormitories will include only one large building, wherein will be held all social affairs, and meetings, or if there will be several buildings.

If the several buildings are erected, each of the four social sororities and Alpha Omega will take over the management of a house.
Women's Letter Club

The Women's Letter club was organized in 1926, with six charter members. In 1927 there was an influx of sophomores, but no upper-classmen. That year sweaters were awarded second year athletic for the first time, eight women qualifying to receive them. The tradition was also begun that year, of having an outdoor breakfast in June to receive the new members and elect officers. There will be eighteen new members this year.

The Women’s Athletic Association was organized last fall.

Officers of the Letter club were: Evelyn Bjorkman, president; Grace Link, vice president; Margaret Hill, treasurer; Isabelle Moore, secretary.

Sigma Delta Beta

SIGMA Delta Beta is one of the youngest organizations on the campus. Organized in the fall of 1928 for married students at the college and their partners, the club at that time chose a pin a band ring encircling the three Greek letters. The guard is a small lover’s knot.

Meetings are held monthly and the members, numbering sixteen, feel that they have gone far in accomplishing their purpose, the promotion of fellowship among the married students at Puget Sound.

Officers of the club for the year were: Inez Brandt, president; Claude Walker, vice president; Cloma Norton, secretary.
LITERARY SOCIETIES

In the early days of the university, literary societies were organized for the purpose of giving their members training in parliamentary practice, extemporaneous and public speaking, number three at Puget Sound. They also provide beneficial social contact for the students. For many years, they were the only social organizations on the campus, and it was not until the advent of the fraternities and sororities, that their work became largely of a literary character.

An excellent spirit of friendly rivalry prevails among the societies, which finds its climax in the inter-society debates. This year Philomathean was victorious, and now holds the Newbegin trophy, given by Mayor James G. Newbegin.

The Philomathean group began in the days of the former University on the old campus. Its membership now numbers about sixty-five. Its officers are, for the first semester: Frances Martin, president; Dorothy Ruth Scott, vice-president; Leonard Unkefer, secretary; Arthur Janes, treasurer; Saima Kennard, chaplain, and Arthur Martin, sergeant-at-arms. For the second semester, officers were: Norma Judd, president; John Gardner, vice-president; Margaret Swanson, secretary; Arthur Janes, treasurer; Julia Haugland, chaplain, and Bruce Johnson, sergeant-at-arms.

Amphictyon was organized in 1906. Its membership is now about sixty. The officers of Amphictyon for the year are: Minard Fassett, president; Robert Evans, vice-president; Lucile Veatch, secretary; George Durkee, treasurer; Raymond Langton, chaplain, and Wilbur Goss, sergeant-at-arms.

Altrurian is the youngest of the literary groups. It was formed in 1924 with a membership of twenty-six students. It has since more than doubled this number. The officers of Altrurian are, for the first semester: Wilma Zimmerman, president; Arthur Hedges, vice-president, Ruby Mansfield, secretary; Gordon Alcorn, treasurer; Fred Hardin, chaplain, and Ross Cory, sergeant-at-arms. For the second semester: John O'Connor, president; Margaret Patterson, vice-president; Edna Baril, secretary; Milan Michener, treasurer; Theo Barwick, chaplain, and Arthur Weber, sergeant-at-arms.

The Inter-Society Council is the medium for cooperation and regulation of activities between the societies. It consists of two representatives from each society, elected for the entire year. The council sets dates for recognition banquets, and regulates pledging. From time to time, it solves special problems which arise between the societies. The present council is composed of Gordon Alcorn and Wilma Zimmerman, from Altrurian; Bruce Johnson and Elizabeth Pugh, from Philomathean, and Margaret Miller and Inez Johnson from Amphictyon. The officers of the council are: Wilma Zimmerman, president and representative to the Student Affairs Committee, and Margaret Miller, secretary.

A new system of pledging was instituted this year, when students were allowed to apply for membership in the organizations. This was done through the Dean of Women. Next year, application is to be to the societies directly.

This year, the literary groups have had exceptionally good programs. Such subjects as the forms of literature, literature from other countries, sea stories, original work, and American humor, afforded interesting and worthwhile programs.

Each society has enjoyed a houseparty, a recognition banquet and an alumni party this season.
First row: Elmer Austin, Amos Booth, Eleanor Ekberg, Arthur Hedges, Katherine Hoffman; second row: Lewis Jekle, Mary Kiser, Burton Kostida, Lotte Lancaster, Helen Maack; third row: Ruby Mansfield, Ruth Mansfield, Margaret Patterson, Mary Van Sickle, Wilma Zimmerman; fourth row: Doris Wilson, Gordon Alcorn, Dorothy LeSourd, Fred Hardin, Geraldine Whitworth; fifth row: Wilbert Nelson, Marian Johnson, Charles Green, Alice Moore, Milan Michener, Mary O'Connor.

Philomathean

FRATERNITIES were first allowed to organize on the campus of the College of Puget Sound in the year 1921-22, and since then they have developed very rapidly. Sigma Zeta Epsilon was formed from the men’s H. C. S. club in 1921, and in the following spring two new fraternities appeared: Delta Kappa Phi and Sigma Mu Chi. Alpha Chi Nu was organized in 1923 and Delta Pi Omicron in 1927.

In 1928 the membership quota in fraternities was raised to forty by action of the faculty, and during the past year an effort has been made to raise the scholastic standing of all Greek letter organizations. All pledges are required to make an average of 85, and no pledge with an incomplete, condition or failure, can be initiated into membership. In an effort to further stimulate scholarship, the men of the faculty have offered a cup to be given each semester to the fraternity attaining the highest point average.

All of the fraternities, at the present time, have their own houses and it is planned in the near future to erect houses on the campus which will be leased to the various organizations. No group has as yet become a chapter of a national organization, but many are working with this aim in view.

The foremost aims of every fraternity are service to Alma Mater, the attainment of higher scholastic standing, and the furthering of social training. To attain the latter, each organization is allowed a number of social functions during the year. The fraternities also further the formation of college friendships.

Inter-fraternity council regulates the activities which are of common fraternity interest, and formulates such rules as affect rushing and social events. It is composed of two representatives from each group with the presidency going to each group in turn, and the office of secretary being elective. This year the officers were: Ralph Tollefson, president; Wallace Drake, secretary. Ralph Tollefson was the representative to Student Affairs committee.

ALPHA OMEGA

ALPHA OMEGA is the independent women's organization on the campus. With democracy for its ideal it was organized in the spring of 1927 and is open to all non-sorority women on the campus.

Although it performs a social function, the meetings this year have been planned with instruction and service as objectives, and altogether the year has been very interesting.

One of the chief interests of Alpha Omega is that of keeping flowers in the auditorium. For this purpose a flower garden is cultivated on the campus.

Under the supervision of Mrs. Hallen, the adviser, the independent group has made unusual progress during the two years of its formation.

Officers for the First Semester

President, Ruby Mansfield; vice president, Ruth Mansfield; secretary, Katherine Hoffman; treasurer, Dorothy Bowen; corresponding secretary, Helen Williams; historian, Alice Walker; sergeant-at-arms, Eleanore Ekberg.

Officers for the Second Semester

President, Dorothy Bowen, vice president, Gertrude Baumann; secretary, Elinor Taylor; corresponding secretary, Katherine Hoffman; historian, Esther Stevens; sergeant-at-arms, Ruby Mansfield.

SORORITIES

Sorority life began on the campus in the same year that fraternities were organized. Kappa Sigma Theta came into existence in 1920. Delta Alpha Gamma was organized in 1921; in the spring of 1922 Lambda Sigma Chi was formed, and Alpha Beta Upsilon became a sorority in 1926. In order to receive the approval of the administration and the students, each sorority was on probation for a year following founding. Each has found a place on the campus, and has received a charter of recognition from the office of the College President.

All of the sororities have rooms in Jones Hall, and the erection of houses is planned for the future. The scholastic and membership rules which govern fraternities also apply to sororities, and in an effort to promote scholarship among the women, Dean Stevens has offered a cup to the sorority attaining the highest grade standing each semester.

Inter-sorority council performs for the women the same service that Inter-fraternity council performs for the men. It is most active during the rushing season as it formulates all rush rules and fixes rush dates. This group is comparable to the Pan-Hellenic organization of the national groups.

The membership is composed of the president and an elected member from each group on the campus. The office of president and secretary of the council is given to each sorority in turn. Inter-sorority council performs an important service for the college, and it is one of the most essential organizations on the campus.

Ideals of social worth, womanliness, and scholarship permeate the purposes of all Puget Sound sororities. Some of the organizations are laying plans for the future to include affiliation with a national sisterhood. The advent of these nationals on the campus is a step eagerly anticipated, and will mark an added recognition in the scholarship record and social prestige of the college.

The representative of the council to Student Affairs committee for the year was Doris Wilson, Officers for the first semester were: Doris Wilson, president; Evelyn Bjorkman, secretary. Second semester, Evelyn Bjorkman was president, and DeLona Calahan, secretary.
First row, class of 1929: Audrey Dean Albert, Ina Coffman, Viola Jordan, Mary Kiner, Lotte Lancaster, Margaret Patterson, Mary VanSickle, Wilma Zimmerman; second row, class of 1930: Elizabeth Gilbert, Alice Johnson, Ina Johnson, Marian Johnson, Grace Link, Beatrice Rumball, Margaret Taylor, Lucile Vatch; third row, class of 1931: Lillian Boyd, Josephine Larsen, Dorothy LeSourd, Mary O'Connor, Margaret Palmer, Florence Williamson; class of 1932: Wilma Frederick, Mary Garnett, Dorothy Herman; fourth row: Maritta Hunt, Mary Milone, Mable McCurdy, Florence Newfield, Bernice Patterson, Tommie Scrimshire, Martha Siler, Dorothy Turley, Doris Wakefield.

Lumberjacks are famous for tales of their legendary hero, Paul Bunyan. His feats were so great that they could not be viewed openly. Through the knothole of imagination, their propensities knew no bounds. This feature section strives to add moments of pleasure by inviting all to cast their worries through the knothole and enjoy the nonsense on the other side of it.
High Lights of History

O lord, history again . . . wonder if Cleopatra really was a red-head . . . not a bad work-out at that, I guess . . . Caesar was a pretty bright guy . . . wrote all his love letters in Latin . . . Goosh, I hope Napoleon won the battle of Armageddon . . . because that's what I said on the last quiz . . . Oh well, why worry . . . They say Helen of Troy used to get her dresses from Paris . . . Sounds likely . . . And Eve seemed to think clothes grew on trees . . . I sure believe in reincarnation . . . because the next time I come back to earth I want to be a big bully and have Prof. Robbins be the little boy next door . . . Wonder what the Egyptians did for sunburn . . . it takes an awful ass to go in swimming at three a.m. but Leandier did it plenty . . . but I guess he had a good reason . . . if Josephine looked like her picture, I don't blame Napoleon for going to Russia . . . imagine Solomon stepping on the cat at five in the morning . . . some ruction, I guess . . . no, professor, I don't know that, and—thank heavens this class is over!

CURRICULUM EXPANDED
NEW COURSE OFFERED!

This is illustration No. 1 in our new course, "How To Be Nonchalant." The gentleman on the left is coolly ignoring the situation when caught in the act of stealing a neighbor's valve-in-head tricycle. (He has just finished lesson 13.)

His accomplice (the second figure reading from left to right) is, we are sorry to note, registering embarrassment. This is due to either; 1. the narrowness of the seat, 2. the fact that he has only completed three lessons, or 3. the undignified position of his partner in crime.

The above course, cataloged as 319-B-1, is offered by the janitor, 1941-2 only. Students must sign for this course before June, 1939. A lab fee of ten dollars is charged. The money so collected, if not lost, stolen, or used for purchase new tricycles . . .

** *

Lewis Jeklin, senior partner in the firm of Jeklin-Hyde, has announced his intention of giving up politics. The reason, according to our hero, is that there are too many honest voters to make it pay.

** *

Elverton Stark, originator of that telling phrase, "stark madness," has finally decided on a career for life. He wants to be a bridge contractor, or a contract bridge player we forget which. He says that he had a lovely time at his last bridge party until a cop looked under the bridge.

** *

Pauline Voelker is sometimes known as the Siamese twins of histrionics. She has two separate and distinct voices, one for her enemies and the other for the people she doesn't know so well.

** *

Kepka has taken a very attractive position as a coach. We hope he is a day coach and not a sleeper.
Reforming Amy

C. Amos Booth, gaudily thatched ex-president of the Student Body, was recently trapped in an astounding faux pas (French for faux Pas). He stood before the assembled brain, brawn, beauty and bluff of the C. P. Squimaux, and said:

"There has been too much profanity in the halls. There has been too much romancing in the cloister. I think there is too much hanging around the door to the Y. W. room and I am sure you will all bear me out on that."

Imagine the astonishment of the speaker when the students bore him out, not on the Y. W. door, but on a shutter.

The rotograveur below, courtesy of T. P. D., shows Amos as he entered the College as a frosh back in 1926. In comparing this beautiful piece of art work with Amy's portrait among the Seniors we call your particular attention to the fact that the head ornamentation has changed; other features remaining constant in spite of four years of football.

The Perfect Hero

By Hank and Burt

Here, stoic reader, we present the Apollo of Horsehead Bay, Gig Harbor, and way points; none other than Walt Anderson. Walt is a high and mighty Senior, mostly high we would say off-hand as his curly, tousled head rents the atmosphere at an elevation of six foot, two.

One of the most entertaining student meetings occurred late in May when Walt, popular student and member of the Society for the Prevention of Cruelty to Athletes, stood upon the rostrum for the purpose of making vocal whoopie. Feeling that the act required some explanation, as indeed it did, he spoke a few words to the assembled students.

"Six months ago," said Anderson, "I couldn't sing a note, but for a long time now I have been taking lessons from John Paul Bennett and now look at the change in me."

A voice from the rear of the hall queried, "What change?"

It is easy to picture the chagrin of our little songster.

All this, however, has nothing to do with the above snap snapped in a moment of weakness by the Knot Hole's certified snapper. It portrays Walt in one of his noble moments. (The photographer waited all year for that moment.) We see in the picture the personification of the spirit of chivalry and the traditions of heraldry which has made Walt the Beau Geste of the Sigma Zetas and the weak moment of many a Theta. (Give us more mud and bring on the next victim.)

***

One of our most promising seniors is Fred Henry. He'd promise anything to get what he wanted. We hear that he is a devotee of the love game, whether on the tennis courts or the glee club trips.

***

There is one girl around here, maybe more, whose intentions are above reproach. If Martha Ann Wilson says she is going on the stage you know she means travel and not terpsichore.

***

It is being rumored that Doris Wilson is going to retire on the money she made while secretary of the A. S. C. P. S. There is a good sum of money in this office by simple graft if you can get sufficient co-operation. Keep in line!
Gysin to Operate "Dude Farm"

The Associated Press will tell the world tomorrow that another C. P. S. boy has made good, and how.

Frederick E. Gysin Jr., in an interview with a Knot Hoe scandal monger, has announced his intention of opening a modern "Dude Farm" near Walla Walla.

"My outfit," says Freddie, "will be the most ritzy layout in that neck of the woods. I have ordered a foursome of high-gear'd roan geldings from the stables of H. R. H. the Prince of Schweitzberger and will use the latest thing in double-breasted, cast iron stock saddles with stainless, streamlined stirrups of pure gum-dipped paranoia."

The night life at the Dude Farm will bear out a speakeasy motif set to "the pace that kills," according to Gysin. Those among us who have been fortunate enough to really know the portly little senior cannot doubt the truth of the foregoing statement.

The May Day Festival at the College was put on with the idea of giving Gysin a line on local material which could be developed into entertainers for his Farm. Walter Anderson, May Duke, would make a good blacksmith, according to Fred.

While at C. P. S. Freddie has had the signal honor of being the target for 99 and 44-100 per cent of the putrid wise cracks of the entire A. S. C. P. S. and most of the Freshmen. Freddie takes everything with a grain of salt now due to an unfortunate love affair with a statue of Diana in the Ferry Museum. Since that time he has been the supressed desire of Heaven only knows how many fair co-eds. In order to prevent a jealousy war among the sororities Freddie was not allowed to wear the Greek letters of any single organization in the sorority relays. He ran 220 in 2 minutes flat on an independent ticket, being paced from behind by Charlie Wright, and only losing to Louis Pebbley by a bay window.

* * *

We notice that Elmer Austin has formed the habit of parking his low green racer out in the road around the Quad. When asked how he got away with such stuff he said that he hadn't time to talk as he must rush home to see if his century plant was in bloom.

Our Own Tropical American Girl

This fair co-ed, Miss Ophelia Fawdownango Boom, popular C. P. S. Freshman and charter member of the Y. W. C. A. won thumbs down in our recent All-American Tropical Girl Contest scoring a cool -273 Centigrade. She is here pictured shaking a mean cocktail for a group of masculine admirers from the Delta Kappa Phi house. The gay sport frock she is wearing (courtesy of Goodwill Industries) is the one in which she won the bunion derby in the Sorority Relays.

Give the little girl a big hand.

Miss Boom left for Capt. Billy's farm at Robinsdale during a boresome chapel talk. Her baggage, a vanity bag containing six of her most dainty frocks, etc. (censored) was left in the tool box of Bill Kellogg's car. (Tell us it ain't true Bill.) Upon discovering the oversight The Trail chartered "Soigto" to overtake the Tropical Girl. She was reached at Puyallup where she had paused to powder her nose and oil her skates.
An annual, such as the *Tamanawas*, cannot be published without the aid of advertisements. This year, the business staff has been particularly careful with the advertising. The result is, that in the following pages, are to be found the ads of firms that are first class in every respect. The *Tamanawas* gives only space for their assistance; the student may give materially by his trade. We of the staff recommend that these pages be read carefully, and the patronage of every student given these firms.
Washington's Forests

It is difficult to grasp the full importance of an abundance of forest material to the State of Washington.

Not only do forests result in the employment of some 125,000 people, the maintenance of pulp mills, furniture factories, saw mills, and a vast amount of taxable wealth, but they are the main support for our transportation systems and many industries and kinds of business whose principal customers are engaged in some form of forest industry.

Our forest and mountain scenery yearly attract thousands of people from other sections of the country seeking pleasure and health. These forests help regulate stream flow—furnish cover for game and help to make this section of the country one of the most desirable in which to live.

If we would continue for all time to enjoy the pleasures and benefits which come from our unparalleled forests, obviously we must not only care for our present stands of timber but make provisions for the growing of new forests as old ones are removed.

The magnitude of this task may be appreciated when it is considered that some 15 million acres of our land surface is probably best suited to forest growing and if not so used will become a public burden rather than a source of public revenue.

Fortunately our climatic and soil conditions are most favorable to forest growing. Particularly in the Western part of our State, young forests will follow removal of old ones if adequate protection against fire is afforded. It too often happens, however, that insufficient thought is given protection of these re-forested areas on which we must depend for our future timber supplies.

The Federal Government, State and private owners are each year expending hundreds of thousands of dollars to safeguard both old and young forests, but they need the active cooperation of every citizen of the State to make their efforts entirely successful.

Those who are attending our colleges may well give special thought to the care and perpetuation of our forests. It is one of our most important national, as well as local, problems.

Washington's forests have been responsible, in no small degree, for her growth and development. If we would keep and add to our payrolls, preserve our scenic beauty and make our mountain areas a perpetual source of public and private income, we must see to it that wise and workable public policies relating to growing and protecting of forest crops are put in effect and vigorously carried forward.

Washington's vast timber resources will supply her industries for many years to come but it takes 50 to 100 years to grow a new crop and this makes foresight a necessity if our future needs are to be assured.

Weyerhaeuser Timber Company

Tacoma, Washington
Ole Oleson, track walker, was supposed to be testifying after a bad head-on collision.

"You say," thundered the attorney, "at ten that night you were walking up toward Seven-Mile Crossing and saw Number 8 coming down the track at 60 miles an hour?"

"Yah," said Ole.

"And when you looked behind you, you saw Number 5 coming up the track at 60 miles an hour?"

"Yah," said Ole.

"Well, what did you do then?"

"Aye got off the track."

"Well, but, then, what did you do?"

"Vell, ay say to mineself, 'Dis ban heck of a way to run a railroad'."

Quite a Surprise

"I'm buying a washing machine for my wife as a birthday present."

"That will be a surprise, eh?"

"Yes, quite! She's expecting a new car."
A certain senior in our fair college hadn't paid a cent on his tuition throughout the year.
"Look here," said Prof. Robbins, "The College is willing to meet you half way. We'll forget half of what you owe."
"Fine! I'll meet you," replied the senior. "I'll forget the other half."

Little Joe: "I know why editors call themselves we."
Big Dick: "Why?"
Deuces: "So the man that doesn't like the article will think there are too many for him to lick."

Why He Lost the Case

A young lawyer, pleading his first case, had been retained by a farmer to prosecute a railway company for killing twenty-four hogs. He wanted to impress the jury with the magnitude of the injury.
"Twenty-four hogs, gentlemen. Twenty-four; twice the number there in the jury box."

No Kick Coming

While Dr. Caughy was with us during prayer week a freshman filed the complaint that the Bible gave no mention of his existence. In answer to this objection the Doctor quoted the following verse:

"O all ye green things upon the earth, bless ye the Lord."

"Ay, guess the yoke is on me," said the Swede as the egg splattered down his shirt front.

No Temporary Insanity

A negro was charged with theft, and his lawyer decided to put him in the box.

"Sam, if you tell a lie you know what will happen, I suppose," said the judge.

"Yes, suh," replied Sam. "I'll go to Hades and burn a long time."

"Quite right," declared the judge. "And you know what will happen if you tell the truth."

"Yes, suh," said Sam. "We lose the case."

"Let us build worthy structures so that those who follow us may be proud"

The John Dower Lumber Company believes in this thought, so ably expressed by John Ruskin and we hope that when you graduates of good old Puget Sound build, that you will remember that you receive Courtesy, Service and only the finest building materials from the—

For the Student Who Cares

The Emblem shown above is an absolute guarantee to the prospective student that all courses offered at Knapp's Modern Business College are Fully Accredited by the National Association of Accredited Commercial Schools—Standardized and Approved by the United States Department of Education. Knapp Graduates enjoy the benefit of a Free-Life Membership in a Nation-Wide Employment Bureau. Imagine about 300 of the leading business schools of the United States and Canada ready and eager to help place you in a superior position wherever you may happen to be.

Your Choice of a School

A Business College should be selected with even more care than a savings bank—your future depends upon a wise choice. The New Stenotype—The Ediphone—The Multigraph are just a few of the many exclusive Modern Office Machines included without extra cost with any course at Knapp's.

Knapp's, Tacoma's largest and most progressive business college, is the outstanding choice of the discriminating student. It offers many unusual advantages, especially in Quality, Equipment, Character and Dependability that appeal to those eager to secure the best in commercial education. Knapp's reputation for placing every graduate who desired one, in a preferred position, has steadily won an ever-growing host of loyal friends. This always registers favorably in the minds of those who appreciate the better things in life; the choice of the "Student Who Cares."

Our idea of a Tabloid is one that burns the scandal at both ends.

Traffic Cop (reproachfully): "Young lady, do you know anything about the traffic laws in this city?"

Phyllis Culver: "Yes, a little. Can I help you?"

Happy Thought

While you were reading this, Henry Ford made ten dollars.

Chi Nu House Note

Early to bed, early to rise, keeps your roommate from wearing your ties.

Ask Phil Berg

"Do you think the autos are ruining the younger generation?"

"No, I think the younger generation is ruining the autos."

Zimmerman: "Hey, Humor Editor, why all the acceleration?"

Humor Editor: "Still looking for a double-meaning joke with both meanings decent."

Zimmerman: "Were you personally conducted on your tour?"

Austin: "No, I'm not married."
Few persons realize that the College had a very narrow escape this spring. It almost lost its soundest pillar. This is the way it occurred. One of the senior women was in swimming and another, fully clothed, was standing on the dock. Suddenly there was a tremendous splash and the one on the dock fell into the heaving surface of the water. She sank like a plummet and failed to come up once, not to mention the traditional three times. Finally grappling hooks were used and she was lifted to the surface and resuscitated. Of course you know who it was. None other than Wilma and the weight that kept her down for so long was the many activity pins on her dress. Oh, the perils of activity!

PRAYER
God bless mother and father, Bless sister and brother too, And goodbye God, I'm going to College.

Richie: "I've learned to read lips." Polly: "How do you do that?"
Richie: "I use the touch system."

"Is your wife old?"
"Old! When they brought in her birthday cake last time, six guests fainted with the heat."

This passionate picture was impressed on the seniors in Dr. Weir's class in high school teaching methods: "The breath of the excited heroine came in short pants."
And here is another eye-opener the Dr. uses: "In church we mingle our voices in song and our lips in praise."

Then snap your cortex into oscillation on this deep one. (Englishmen barred from this contest.) "Can a man marry his widow's sister?"

GIVE ME MY COMPACT
Fashion magazines remind us
Ladies pockets are the bunk,
So that dates and dances find us
Loaded down with all their junk.

She: "Do you always take the other girls for such long walks?"
He: "No, it isn't always necessary."

The Daredevil

Window cleaners are not the only persons whose occupation is hazardous. We recently heard that Mrs. Hallen dropped eleven stories into a waste basket. (It hurt the Frosh worse than it did her.)

♭♭♭♭♭

"I'm a father!" cried young Jones as he burst into the office.

"So's your old man," replied the boss. "Get to work."

♭♭♭♭♭

Circus Boss: "Quick, the leopard has escaped—shoot him on the spot."

Helper: "Which spot?"

♭♭♭♭♭

Man Defined

A man is a creature who will spot a shapely ankle three blocks away while driving an automobile in a crowded city street, but who will fail to notice, in open country, a locomotive as big as a house accompanied by a flock of 40 box cars.
Il Duce, You Say?
Frosch: "I hear Mount Etna is active again."
Senior: "Don’t worry Mussolini will suppress it."

Bride: "Where’s the paper plate your pie was on?"
Groom: "I thot that was the lower crust."

Any old cat can be the cat’s whiskers, but it takes a tom cat to be the cat’s paw.

That’s Different
"Help! Help!" cried an Italian laborer from near the mud flats of the Harlem river.
"What’s the matter, there?" came a voice from the construction shanty.
"Help! Brinda da shov’! Brinda da peel! Giovanna’s stuck in da mud."
"How far?"
"Up to da knees."
"Let him walk out."
"No! No! He canna no walk! He wronga end up!"

A Cop and a Gentleman!
Flapper (in car and to traffic cop): "Are my dimmers on?"
Cop (blushing): "Madam, I wasn’t even looking."

The Maiden’s Prayer
Dear Lord, I ask nothing for myself, but please give mother a son-in-law.
...And He Learned About Math from Hanawalt

The big day was on. The wonderful gigantic bridge connecting two of the country's largest cities was being formally opened. At the height of the celebration, when hundreds of people had thronged onto the bridge, the center span—with a crash to be heard for miles—fell into the river. The frenzied mayor, seeing the engineer, dashed up to him. "Look what you have done," he cried.

The engineer, without the slightest expression on his face, replied, "You know I just had a hunch all along that that decimal point was in the wrong place."

::: ::: :::

Professor (after lecture): "Are there any questions?"

Coed: "Yes, please. How do you calculate the horsepower of a donkey engine?"

He: "Why so sad?"
She: "I just happened to think, dear, this is the last evening we can be together until tomorrow."

"Pardon me, are you one of the English instructors?"

"Gosh, no! I got this tie for Christmas."

Wife: "What kind of shoes should I get to look best with the new style dresses?"
Husband: "Hip boots."

Slater: "This plant belongs to the Begonia family."
Southworth: "Ah! And you are taking care of it while they are away?"

Freddy: "Ma, didn't they say that the savages didn't wear any clothes?"
Mother: "Yes, my boy."
Freddy: "Then why did papa put a button in the missionary box?"
Dr. Weir, becoming confused in a big department store, approached a dapper young clerk (formerly one of his pet ed. students) as an uncertain but possible source of information.

"Can you tell me where I can get a collar?" he inquired.

"Certainly, sir, right at this counter. Do you want a hard one or a soft one?"

"Why, a soft one, I guess."

"Detachable or attached."

"Well, really now, I think it should be detachable."

"Silk or linen?"

"Come now, don't be silly. I want leather."

"Leather, sir! Why your neck will be raw!"

"My neck! I'm trying to buy it for my dog."

Mother (hearing suggestive noise from porch):

"Ada, I didn't know that you had taken the soup out to your boy friend!"

Me: "I don't know whether to give you a book or a kiss."

Edwina: "I have a book."

Department Store Proverbs
Lost children will be found in the toy department.
There's always room for one more on the elevator.
There are no one-way aisles, but there ought to be.
Unpaid goods are always returnable.
If you don't see the topcoat you want, the salesman will.

THE WINTHROP
Tacomas Finest

THE CITIZENS of TACOMA
“Jumpin’ Jellyfish!” cried the enthusiastic young man. “Isn’t that a pretty girl walking down the street?”

“Where’s no such thing,” growled the cynic.

“No such thing as what?”

“As jumping Jellyfish.”

“You’re pretty slow.”

“Yes, like a Ford.”

“A Ford?”

“I can’t get very far with a flat tire.”

“Now children,” said the teacher, “what are parrakeets?”

“Twins,” shouted little Guiseppi Grannucci.

First Glee Club man: “Get up, the hotel’s afire.”

Second Glee Club man: “All right, but if we do we don’t pay for the bed.”

Frank: “Don’t make any more of these biscuits, dear.”

Beatrice: “Why not?”

Frank: “You’re too light for such heavy work.”

Miss Longstreth (in grammar class): “Mr. Wright, please tell me what it is, when I say: ‘I love, you love, he loves’.”

Chas. Wright: “That’s one of them triangles when somebody gets shot.”

Audrey-Dean: “So you’re with the new stock company that’s come to town?”

Van: “Yep, I got a leading part.”

Audrey-Dean: “Ah—hero?”

Van: “No—usher.”

She: “How is one to drive a nail without smashing one’s fingers?”

He: “Hold the hammer in both hands.”

Alice: “I gave Johnny a thirty-second degree last night.”

Katherine: “Hm, is he a Mason.”

Alice: “No, but that’s the freezing point, isn’t it?”

“Look at Dakota.”

“Where? What Dakota?”

“Dakota got on, silly.”
Watkins: "What school is it you go to all your life, study hard, and then never get a degree?"
Sherlock: "I'm afraid, dear Watkins, you have me."
Watkins: "Sunday School, Holmes."

Poor Simp: "My hand has been itching all day; what can that mean?"
Fortune Teller: "Ah! You will come into a great fortune."
P. S.: "And my head has been itching all week. What can that be a sign of?"
F. T.: "Dandruff."

Edna: "Learn any new songs this year, Hank?"
Hank: "Yes, I learned a hotel song."
Edna: "Hotel song? How does it go?"
Hank: "Something like this: 'Hotel me pretty maiden.'"

"It confused me so. I really don't know how many times he kissed me."
"What? With it all happening right under your nose!"

Masculine: "How old are you?"
Feminine: "I've just turned 23."
Masculine: "Yes, I thought you were about 32."

Sigma: "How did the new household budget work?"
Zete: "Fine, I only had to put in two mistakes this month to make it balance."

Hank: "Your hair is getting thin on top sir."
Prof. Southworth: "Ah! I am glad of that; I hate fat hair."

"Charlie, you have kissed other girls haven't you?"
"Yes, but no one you know."

Co-ed: "Have you any good hair tonic?"
Snappy: "Why, yes—but your hair looks perfect."

Co-ed: "Oh, I don't want it for myself—You see the fur is falling out of my coat."
The world’s unhappiest man: The man who was late for his wedding—but not late enough.

When a girl marries a man to mend his ways she usually finds out he isn’t worth a darn.

It doesn’t take the modern girl long to change a wedding gown to a divorce suit.

Another thing Job never had to contend with was a disappearing drawstring in his pajama trousers.

They Might Have Said It
(on the links)

Coolidge—"I do not choose to putt."
Al Smith—"That was my foist shot."
Ambassador Dawes—"We won’t play Senate rules."
Jack Dempsey—"What, you forgot to count?"
Lindbergh—"Let us talk about aviation."
Teddy Roosevelt—"That was a bully shot."
U. S. Grant—"We’re going around this course if it takes all summer."
Abe Lincoln—"I went around in four score and seven."
Washington—"I cannot tell a lie. That was six. I did it with my little mashie."
The Sphynx—"Sh-h-h!"
Cleopatra—"Here’s Marc, let’s go!"
Shakespeare—"Alas poor niblick!"
Hamlet—"To slice or not to slice is the question."

That’s Evolution

When christened she was named Mary. As she grew up she became May. When she began to shine socially she signed her name “Mae.” Some years ago she married, and now she is just “Ma.”

The latest feminine fad is “painted-on” stockings. We fear, however, that when it rains this kind will suffer from runs, too.

Willie had returned from his first day at school. "And what did you learn at school today?" asked his father.

"I learned to say 'Yes, sir' and 'No, sir,' and 'Yes, ma'am' and 'no ma'am.'

"You did!"

"Yeah!"

Sandy: "Money surely talks."

Andy: "But it never gives itself away."

H. Brown: "Did you marry that girl of yours, or do you still cook your own breakfast and darn your own socks?"

R. Brear: "Yes."

Visitor: "What are the morals of this village like?"

Resident: "Excellent! So good, in fact, that several of our sewing parties have failed for want of scandal."

Hostess: "I'm delighted to see you Mr. Hannus. I've heard so much about you."

Guest: "You can't prove anything."

Mamma: "Is James a nice boy for you to play marbles with?"

H. Brown: "Sure! I beat him every time."

Judge: "It seems to me that I have seen you before."

J. P. Bennett: "You have your honor. I used to give your daughter singing lessons."

Judge: "Twenty years!"

A THRILL of A LIFE TIME.....Graduation & Flowers

The California Florists & Winthrop Florists

919 PACIFIC AVENUE

BROADWAY 3277

WINTHROP HOTEL

MAIN 2875
THE COLLEGE SUPERMAN
(With apologies to Van)

Scene: Heavy timber to rear of Jones Hall.
Enter, she and it. They meet.
She (in mock surprise): "Oh, there you are."
He (a look of dismay on his face): "Oh, Lord."
She: "Why have you been avoiding me the last twenty-four hours?"
He: "Avoiding you? If I only could. Say, why do you hound me around like this? Can't you see that I'm a week behind in English—"
She: "Oh bother the English." (Comes close and looks into his eyes.)
He: (weakening): "Stand back, woman. Don't look at me that way."
She (taking his arm): "There is a swell movie on the Avenue called 'The Land of Hearts Desire'."
He: "I don't want to go, I won't go. I wouldn't be found dead with you in a laundry."
She: "Oh I don't want you dead. (sweetly) I like you as you are. Come on."
He (feebly): "But—"
She: "There are no buts. Come. We must hurry." (She starts to go.)

He (following): "Leech. Parasite. Ambition killer. COWARD."
(Curtain)

"No Lillian, just because a man washes his head with Ivory soap one doesn't need to draw conclusions."

There are two kinds of flat tires; both make you stop.

Hair Goods—Wigs—Masks

Then there is the story about Prof. Slater fishing for specimens of Hyperotreta (dunt esk). The professor noticed a sign on the dock which read: DON'T FISH HERE. After some meditation he announced to his loyal band of followers, "Some species do, but most of them are deaf."

Well as Dewey said, "Don't cheer boys the poor devils are dying."

The story goes that before the Dean became famous for the discovery of a supposedly extinct type of dimentia he found himself broke one morning in Seattle.

Standing on a downtown corner he noticed a display of suitcases in the window of a second-hand store. Stepping closer he noticed a sign which read: THIS SIZE FOR 25c.

Stepping to the curb to expectorate, he mumbled, "So do I."

Note: In a test this pun was found to be too deep for Frosh and Sophs.
Wilma Z. (reading newspaper): "It says here that a person speaks on an average of about 12,000 words a day."

Bill L.: "Well, I've always said you were above the average."

Tramp: "Yes, lady I had to give up work because I couldn't make both ends meet."

Lady: "Dear me, that was a silly thing to do. What was your work?"

Tramp: "Contortionist."

"I've always admired your hands."

"Thanks. I've always been quite attached to them myself."

Chas. Anderson (on Glee Club trip, phoning down from his room): "Is this the night clerk?"

Clerk (awakened from sleep): "Well, what's biting you?"

Chas.: "That's what I want to know."

Judge: "Guilty or not guilty?"

Pat Matson: "Decide that yourself. I'm not here to do your work."

The latest craze is always found in the asylum.

When Elmer Austin visited Scotland he struck up an acquaintance with Don Wallace, who went out of his way to show the American some of the sights. One day, as Elmer and Don were walking in the highlands, the Scotchman yelled at the top of his voice. When the echo returned clearly after nearly four minutes the proud native, turning to the American exclaimed.

"There mon, ye canna show anything like that in your country."

"Oh, I don't know," said Elmer. "I guess we can better that. Why, in my camp in the Rockies, when I go to bed, I just lean out of my window and call out: 'Time to get up! Wake up!' and eight hours afterward the echo comes back, and wakes me."

Dr. Weir: "Have you any excuse to offer for such laziness?"

Ted B.: "I haven't any that will work."

Etiquette at the Movies

First, always arrive in the middle of the picture. This not only establishes you as being socially correct, but serves to call the attentions of others to you, thus increasing your popularity. Ignore the ushers who are entirely beneath your rank, and saunter leisurely down the aisle. If with others, stand halfway down the aisle and argue about where you shall sit. Choose a seat next to the opposite aisle, and walk in front of a whole row of people to reach it. If they are not polite enough to keep their feet out of your way, step upon them soundly, then stand in front of them and profusely beg their pardon. This never fails to make an impression.

After you have reached your seat, be sure you are entirely comfortable before observing the picture. Always kick the hat out from under the seat of the man in front of you. This immediately establishes a spirit of good fellowship. Upon the appearance of the star tell your neighbor the latest choice bit of scandal about him or her. Never fail to read the sub-titles aloud and encourage others to read them in unison with you. There may be a blind man in the audience and he will appreciate it. Always laugh when the hero or heroine is dying. This shows you are brave in the face of danger.

If you know the story try to keep at least 200 feet ahead of the film and loud enough that all can hear you. When the villain stealthily approaches the hero, inform the latter of the fact, calling him by his own first name. The audience knows at once that you are an intimate acquaintance of the actor. Whistle during the overture, thus displaying your musical knowledge and ability. When ready to leave, stand at your seat to put on your overcoat.

The Reason
“Bridget, this is the third time I have had to
ask you for the fingerbowls when guests were here. Did’t they use them where you were last?”
“No, mum. Comp’ny always washed their hands ‘fore they come.”

Why Duplicate?
A new and inexperienced hand to a livery stable
was set to grease the axles of a carriage. In a
remarkably short time he reported the task finished.
“Look here,” said the manager, “d’ye mean to say you’ve greased all four of them wheels al-
ready?”
“Well, sir,” said the new hand, “I’ve greased the
two front ones.”
“And why haven’t you greased the two hind
ones?”
“I thought so long as the two front ones goes
all right, the hind ones have got to follel!”

Vox: “Has your son forgotten all he learned
at college?”
Pop: “I hope so. He can’t make a living neck-
ing.”

Speaking Well For It

Bently: "Why don't you try my tailor, old man?"

Branson: "Does he use good material?"

Bently: "I should say he does! Why, I had a suit that lasted almost up to the time I paid for it!"

Considerate

"I want," said the house-hunter, "a house in an isolated position—at least five miles from any other house."

"I see," said the agent, with an understanding smile. "You want to practice the simple life?"

"No," answered the house-hunter, grimly; "I want to practice the cornet."

Salesmanship

"How much is this pair of silk stockings?"

"Two dollars a pair, and the finest stockings made."

"Well, how much is this other pair?"

"Oh, they are 50¢. You can see for yourself that they are much better."

FINISH

FINALLY, the 1929 Tamanawas has become a reality. In its pages we hope you will find mirrored the happy events of the past college year. Its theme of "Logging and Lumbering," has attempted to bring, in a modern way, the various stages of lumber manufacture to the eyes of the students. We have tried to show a little more tangibly, the spirit of the Northwest with the spirit of "The Loggers," and the spirit of "The Lumber Capital of America," as the highlights.

Each yearbook strives to better the annuals of former years. This Tamanawas is not unique in the attempt. If the new features meet with approval, we are glad. It has been our aim to bring this annual a step further toward the goal of the best Tamanawas.

Without the aid of many people, this book could not have become a reality. The editor and business manager welcome this opportunity to thank all those who had a part in the production of this yearbook. It is not always easy to work in steady cooperation with everyone. We feel that this year, the spirit of cooperation has been particularly fine, both from the staff, and from the various firms that have handled our work. The staffs deserve recognition for the creditable way in which they have handled their part.

The F. J. Lee studio has given us exceptionally good portraits, and has willingly assisted us in the work pertaining to the pictures.

The group and scenic photos were made by the Commercial Photo Service Inc. The Richards, Bill, Turner and Bob, have given their service to assure us good pictures. The result, as appears in this book, shows the painstaking effort made.

Mr. Leonard Brown, of the Tacoma Engraving Company, has done more than give us excellent cuts for our book. His helpful suggestions, and cheerful personality have made this usually exacting work, an enjoyable experience.

The excellent job of printing and binding has come from the Johnson-Cox Company. Both Mr. Johnson and Mr. Cox, of the two departments have cooperated most willingly with us. To Leonard Henzell, Virgil Wood, Hal Bargert and Leo Larin we owe the technical planning and executing of the book. Jim Hayes was responsible for the attractive tint work on the pages.

The David J. Molloy Company has been very courteous to deal with, and have given us a cover that not only carries out our theme, but adds definitely to the attractiveness of the annual.

In closing we wish to express our appreciation to all who have contributed to the work and plans of the 1929 Tamanawas.
