Food Service

The department that keeps most of the student body functioning, the Food Service, is one of the hardest working and least appreciated groups on campus. While the food they serve may not be quite like Mom's, it is most often good and always nutritious. The staff works very hard, and takes pride in what they do. One has only to be present throughout the course of a few meals in either the SUB or Union Avenue Kitchen to fully appreciate the Food Service staff — their work and dedication.
Department of Administration

At UPS, the Department of Administration is both the throne and the power behind the throne. Led by Philip M. Phibbs, University President and David Dodson, Dean of Students, the Administration is the group who can be credited with the increase in the quality and quantity of the student body and the increasing funds available to students for school. They do their job, administering to the University, efficiently and effectively.

While many groups bemoan the apathy of today's youth, the Aerospace Studies Department is not one of them. The present freshmen and sophomore classes in this department are noted for their enthusiasm and interest in the programs. Fostering this interest is the Aerospace faculty, with the new professor of Aerospace Studies Colonel Pavlu adding a very professional touch. The ROTC units are enjoying this upsurge of interest, having activity nights and parties to utilize and increase group spirit. The new policy of uniforms all day Tuesday brings pride to the department and respect from the UPS community.
