THE MAJOR EXAM:
where do you spend the most time on campus?
☐ Thompson: you must be one of those science or math people, always carrying abnormally large textbooks filled with formulas
☐ Music Building: if you're mumbling about music history or theory class, you're a music major. Otherwise, you're one of those lost religion majors searching for your professor's office in this building
☐ Howarth: much easier to determine what you study: philosophy, comp. science, socio- or psychology, or you could of course just be another email addict
☐ Jones: Communicating with Pres Pierce surely is a good skill to acquire; also where the Theater people hang out
☐ McIntyre: here we find those popular BPA and Economics majors ready for a job at Boeing
☐ Library: here we find some well read majors: History, P&G, English and Foreign Languages

ABOVE: Take a look! A display in McIntyre hall shows some of the many activities that came to campus.

WE COME FOR AN EXPERIENCE IN HIGHER EDUCATION—BUT WE LEAVE WITH MUCH MORE THAN THE FACTS, NUMBERS AND LETTERS READ IN TEXTBOOKS.

RIGHT: Students from history professor John Lear's LAS 100 class perform scenes from a play about the roles of women in Mexico. The new Latin American Studies minor at UPS combines classes from History, P&G, Economics, and Spanish to provide students with a better understanding of the diverse nations and issues concerning Latin America.

IMAGINE, YEARS FROM NOW, WE MAY NOT REMEMBER THOSE FACTS, NUMBERS AND LETTERS, BUT WE WILL RECALL THE PROFESSORS WHO BELIEVED IN OUR CRAZY IDEA FOR A THESIS PRESENTATION, WE'LL REMEMBER HAVING CLASS ON THE PICNIC TABLE BEHIND THE LIBRARY.

WE HAVE DEVELOPED THE ABILITY TO THINK INDEPENDENTLY, TO READ CRITICALLY AND TO EXPRESS OUR IDEAS TO OTHERS.

BELOW: Class participation makes the time pass quicker for these students. If you can get through registration in the fall and stay awake for class lectures most of the semester, you can do anything!
