Perpetual motion
Launches us into the throes of life,
Pushing us ever forward,
Blurring the past behind us.

“We must always change, renew, rejuvenate
ourselves, otherwise we harden.”
Goethe

And now and then we catch the changes
As we go.
Nature follows suit
In the constant movement of the spheres.

Dawn emerges a little further to the west
Each morning —
Never the same,
Never exactly the same.

Nature — always flowing, always turning,
Always moving ahead;
“It is not possible to step twice into
the same river.” Heraclitus

Time moves;
Man moves to keep up with its passing.

“The seasons change and so do I, you
need not wonder why . . .” The Guess Who
“The door to the past is a strange door. It swings open and things pass through it, but they pass in one direction only.” Loren Eisely

“The change of motion is proportional to the motive force impressed.” Sir Isaac Newton

“There is a systematic procession of events and a harmony of the whole universe.” Nicholas Copernicus

“Progress is impossible without change and those who cannot change their minds, cannot change anything.” G.B. Shaw

What is the essence of music, if not the progression of tone?

The ancients saw it; the moderns see it — it is Spenser’s ever-whirling wheel of change.
"Naught may endure but mutability."
—Shelley
“Wherever we are, it is but a stage on the way to somewhere else.”
R. L. Stevenson
When ya can't stand still,
When ya gotta change
And ya gotta move,

THAT'S MOTION!

Compulsion, transition, mutation,
Inovation, deviation, conversion,

Stamp it with any label at hand.
Still it says simply:
"movin' on —"
TAMANAWAS records the rich and varied activities of one year in the life of the University of Puget Sound. It is a snapshot of your life and its meaning for you will grow year by year.

Now and more vividly in the future TAMANAWAS will refresh memories which fade and blur with astonishing and disconcerting rapidity. Its full value will come in the years ahead when you suddenly encounter again old classmates, their children and grandchildren, in new contexts and share together recollections of the year 1973-74 at the University of Puget Sound.

We live in Todd Hall
  It sure is a hole.
Coupled with SUB food
  It gives us the woes.
But despite the cement walls
  Which seem like a prison,
We're still living here
  And for a damn good reason.
We have to.
Tradition or not
  Plain people are great,
And to this fact
We're able to relate.  Todd Hall
1973-1974
This is not primarily the place we have to be. 
it is the place where we are. 
This is not our prison, but our home, 
It is the road we must walk, and the walking of 
it is called life. 
Because we will walk it only once, then how impor-
tant it 
is we should walk it with some purpose that we 
can call our own . . . 

We, of Alpha Phi, feel that sisterhood is one of 
those purposes and that through it we will each 
find something special.

Beta Theta Pi

For where there are many men together and each one is looking after his own interest, the multitude would be broken up and scattered unless there were also an agency to take care of what appertains to the common weal . . . Indeed it is reasonable that this should happen, for what is proper and what is common are not identical. Things differ by what is proper to each; they are united by what they have in common. But diversity of effects is due to diversity of causes. Consequently, there must exist something which impels toward the particular good of the individual. Wherefore also in things that are ordained toward one end, one thing is found to rule the rest.

Travel,
if you must,
leave your home;
and find your highway,
ride the desert lands
and mountain tops.

Do what you want,
but don't forget
what you have been,
because what you are
and what you will be,
cannot be separated
from what you were
before your travels began.
I found a friend today.  
She listened when I spoke,  
and responded to my needs.  
She was gentle when I needed compassion;  
She was joyous in my happiness.

In name she is my sister,  
bonded by the same goals and ideals;  
In spirit she is everything inside me —  
All my hopes, fears, dreams and needs.

I found myself today  
in someone else’s laughter and smiles  
And in her serious thoughts.

We are different lives  
unique in every way,  
But we are also one life  
As the trees, and the sky, and the grass,  
and the sun . . . Are one.

Today I found more than a friend . . .  
Today I discovered life.

"Nobody missed you like your friends,
Nobody missed you like your friends:
When you left, you took along a memory,
a happy song . . . and now you’re back
where you belong with friends.

Nobody needs you like your friends,
Nobody needs you like your friends:
We’re here once, so take the time,
Find a face and make it shine . . .
Give yourself and you will find a friend.

Nobody knows you like your friends,
Nobody knows you like your friends:
People come and people go, never
Taking time to know . . . So take a hand
And you can show a friend how to give,
How to live, how to love . . .

Nobody loves you like your friends,
Nobody loves you like your friends,
Let’s share all we have today . . .
And then when we go away again we’ll know that

Nobody loves us quite the way our friends love us
Nobody loves us like our friends.”

Today I want to do things to be doing them, not to be doing something else. I do not want to do things to sell myself on myself. I don't want to do nice things for people so that I will be “nice.” I don't want to work to make money, I want to work to work.

Today I don't want to live for, I want to live.

Breathe, breathe in the air.
Don’t be afraid to care.
Leave but don’t leave me.
Look, around and choose your own ground.
For long you live and high you fly
And smiles you’ll give and tears you’ll cry,
And all you touch and all you see
Is all your life will ever be.
Run, run, rabbit run.
Dig that hole, forget the sun.
And when at last the work is done
Don’t sit down, it’s time to start another one
For long you live and high you fly.
But only if you ride the tide.
And balanced on the biggest wave
You race toward an early grave.

First Season Is Successful For “Big Wally”

Coach “Big Wally” Wallrof’s debut season as coach of the UPS Logger football team gave Puget Sound rooters another season of winning football. The Logger’s defensive unit, at first considered a question mark, was great throughout the season and the offense, except for a two game lapse, was equally as effective.

The first opponents of UPS were the Slippery Rock Rockies from the East coast, who were expected to win this highly promoted contest. The Loggers, before a near capacity crowd, came away with a 13-6 victory. Looking for their first victory ever over a Far West Conference foe, the Loggers traveled south to take on Humbolt State, and overwhelmed the Lumberjacks 48-14. They then returned home to face the USIU team, who had defeated the Loggers in their last three meetings. This time the story was turned around: the Loggers blasted USIU 62-0. The Loggers lengthened their winning streak to four when, the following week, they defeated Lewis and Clark 33-

Optimism was high for an undefeated season for the Loggers, but questionable refereeing of the Logger-Rainbow clash in Hawaii handed them their first loss, 30-7. In their next game they set out to prove that the Hawaii game had been a fluke and did it by rolling over Whittier by a score of 50-0.

As the Loggers returned home with a 5-1 mark, it seemed as if post season competition plans would still become a reality. But before a chilled homecoming crowd, Puget Sound fumbled nine times on their way to a 13-9 loss at the hands of the fired-up Bearcats of Willamette. Things didn’t get better the next week when Simon Frasier of Vancouver, B.C. held off the Loggers for a 7-6 victory. Any hopes for post-season play went out the window at this point. Even though the Loggers finished their season with two more wins, one over PLU, 30-21, and over the Portland State Vikings, 54-7, there were no more games for the team this year. They ended the 1973 season with a 7-3 record.

The 1973-74 Logger basketball season was filled with many losses. The biggest loss however, came before the team even started practice. Due to a back injury, 6'11" Curt Peterson was out for the season. His scoring and rebounding strength were definitely missed as the season got under way. For the first time in recent UPS history, the Loggers finished last in their own Daffodil Classic. The only highlight of the weekend was Fred Cain's selection to the all-tourney team with 48 points in two games. The scheduled competition during December included top teams like Long Beach State, Oregon State and the University of Oregon. Playing teams of that caliber, the Loggers finished December with a 3 win, 8 loss record. The second half of the season was more successful. The consistent play of Noble Johnson, Fred Cain and Sam May plus the maturing of freshmen Eric Walker and Dave Johnson produced some exciting games in the Fieldhouse. The team chalked up wins over UC Irvine, St. Martins, Seattle Pacific, PLU and the University of Portland. These five victories showed what the young Loggers were capable of doing. While losing all twelve of their road games, the team finished with a 10 and 16 season total. It was coach Don Zech's poorest record since coming to UPS. But coach Zech is already looking ahead. Despite the loss of seniors Sam May, Rick Brown and Ray Warner, the coach feels that with the return of most of this year's starters plus a healthy Peterson, next year could bring a national championship. It's a long road, team. Good luck!

Injuries Plague Logger Matmen

The 1973-74 UPS wrestling season was filled with medical reports. Injuries plagued the matmen throughout most of the season as many matches were lost due to the Loggers inability to suit up a full team. Two star performers, Don Dillenberg and Chuck Hanson were both lost for the year with injuries suffered early in the season. Both had competed in the national tournament last year and had been expected to return again this year.

The highlights for coach Del Rossberg's team were consistent performances by Till Tuk and Dave LaBounty. Senior LaBounty posted a 10 win, 7 loss record in dual competition at 158 pounds. Heavy weight Tuk, although only a sophomore, recorded the top individual record for the grapplers winning 15 of 20 matches against some very tough competition. Both Tuk and LaBounty competed in the NCAA national championship in Fullerton, California.

9-4 Season Record For UPS Swimmers

Despite some disappointing losses, the UPS Swim Team’s season was successful: Post season competition saw nine Logger swimmers traveling to Nationals in Long Beach, California. Losing twice to PLU during the regular season was unexpected, but the other two losses the team experienced were to nationally ranked teams (Chico State, 1973 NCAA College Division Champions, and Simon Fraser, 1974 NAIA Champions). The National Team was composed of the following swimmers:

(FR) Brian Budssberg, Breaststroke
(FR) Brian Johnson, Butterfly, Freestyle
(FR) Mike Reed, Sprint Freestyle
(SO) Phil Moseley, Backstroke
(JU) Ken Stanton, Diving
(JU) Larry Peck, Freestyle
(SE) Scott Knowles, Backstroke

Under the leadership of Randy Jones and Gregg Dohrn, the men's intramural program at UPS continued to grow this year. The intramural board, made up of representatives from fraternities and various living groups, worked on rules, scheduling, officiating and communications within the program. It was estimated that over 1,500 men participated in the nine different sports offered on campus. Flag football, basketball, volleyball and softball were the four major sports. Other activities included swimming, bowling, winterim basketball and track. The strengths of the program came from those students who volunteered as coaches, scorekeepers and officials. The time and effort which they put into the program helped make men's intramurals a success.
Beta’s Take Intramural Football Title

For the third year in a row, the Beta flag football team captured the intramural championship. In a defensive battle, the Betas scored a second half touchdown to defeat the Schtuping Gang 6 to 3. The Beta overall record for the last two seasons is 14 wins, no losses, and one tie. In consolation play, the Sigma Nu flag pullers defeated SAE for third place. The flag football league consisted of twelve teams with approximately 250 men participating. Although the bumps, bruises and tears outnumbered the laughs, the men seemed to enjoy bashing each other’s heads in.

During the month of March, The University community hosted a series of speakers who dealt with the subject of press freedoms and the Constitution. Howard Miller, Britt Hume and Tom Jarriel conversed with students on such crucial press issues as media censorship, violence and sex in the media, presenting the real news, in-depth reporting on the part of television news, and the credibility with the reading and viewing public.

Howard Miller

Howard Miller is a professor of law at the University of Southern California. For the past three years, he has appeared regularly on the Public Broadcasting program, “The Advocates,” and has proven to be very well informed on law and the communication systems today.
Britt Hume

Britt Hume is the investigative reporter who broke the ITT scandal story. The twenty-eight year old journalist was also instrumental in the publication of the Anderson Papers — the expose of the Nixon Administration’s private attitudes about the India-Pakistan war.

Tom Jarriel

Tom Jarriel is an ABC News White House correspondent who recently accompanied the President to China and Russia. Prior to his White House assignment, Jarriel earned national distinction for his coverage of the civil rights movement in the South. As a newscaster, he also covered the U.S. manned spacecraft program for ABC.
**Rod Serling**

Rod Serling is a noted writer, director and producer of many movies and television programs, with an astute talent for writing science fiction.

This year, Mr. Serling displayed a true wit when addressing a large audience on subjects ranging from cartoons to politics to unidentified flying objects. He had many opinions to share, including his impressions of television commercials.

U.P.S. was very fortunate to have hosted Rod Serling — a sharp man and resourceful speaker.

---

**Tom Noel**

Tom Noel spoke this year before an audience, eager to hear an actor portray the ever-loved Mark Twain, or Samuel Clemmens.

He covered subjects like Twain's boyhood in Mississippi, and factors which influenced his writing.
Dr. R. Franklin Thompson was the guest speaker in the first of an annual lecture established in his honor. Dr. Thompson, the former president and now chancellor, spoke on “The Ages of the Hours.” In his lecture he discussed how we base our lives and civilization on those of past ages. He referred to such heights as The Golden Age of Greece, The Silver Age of Rome, The Dark Ages, and The Renaissance. He related how the voices of Aristotle, and Socrates reached down through the ages and touched our lives. Dr. Thompson suggested that the age of technology, scientific research, and dedicated teaching will someday be the stepping stones of the ages.
Dr. Zdenko F. Danes, U.P.S. professor of physics, asked his Regester Lecture audience "Who cares what's inside the earth?" Then with firm conviction he answered himself: "I do." Drawing from a background of the humanities, as well as the sciences, Dr. Danes expounded on the many models that have been made of the earth. He examined both myth and fact, and concluded that the earth carries within herself the story of the past and with that the story of herself. We are just beginning to read it.
Brown And Haley Lecture

Featuring:

Dr. And Mrs. John Fairbank

Wilma Fairbank, wife of Brown and Haley Lecturer John Fairbank, discussed her studies and interpretations of ancient Chinese Art forms. Her major theme originated from what she felt was the continuity and discontinuity of ancient Chinese views and the changing environment of future China.
Before any theater production is seen, it must first go through:

Who’s Who In American Colleges And Universities

These students are chosen on the basis of their participation and leadership around the campus community, and on the basis of their outstanding scholastic record. The first objective of Who’s Who is to give a democratic national basis for the recognition of outstanding campus leaders.
"Alethiea" is the Greek word for "truth," and apparently this newly formed organization attempts to struggle with the word. Alethiea is an Interdisciplinary Philosophical Group, which attempts to allow students and professors to engage in an even level of discussion. Alethiea utilizes the scholarly faction of students, and along with professors combines to allow panel discussions and other types of formats for subject interaction.

Some of the discussion topics have included: "Man's Social Responsibility," with Daoist, Marxist Existential, Hegelian, and Judeo-Hebraic points of views presented; "Ethics and Genetics," with diometrically opposed positions concerning the scientists responsibility; "Philosophy of the Media," which had a panel on the purpose and function of the Media; a House of Critics on "Philosophy of Education," which is an informal debate with a student tally to the question proposed. Also, some visiting lecturers have made presentations to the University Community. These are some of the events which have taken place, and hopefully will continue to allow scholarly interaction and promote a philosophical life in the University.

International Club

International Club is designed to promote better knowledge of people with different cultural backgrounds. By learning more about the people of foreign lands, nations can develop better inter-relations and can learn more about themselves.

A festival held in the Spring is the highlight of events for the club, as students from many different countries participate.
