First Game of Football Season

Gonzaga University meets the College of Puget Sound in the opening game of the C. P. S. football season next Saturday afternoon at 3:30 o'clock in the Tacoma Stadium. This game, probably the hardest the C. P. S. has scheduled in the past 10 years, is expected to draw the largest crowd ever to witness a W. P. S. gridiron contest.

The Gonzaga team is coming here with a reputation of being a world-beater. The line will probably outweigh the local boys from 10 to 15. According to all indications the eastern Washington college is considered on a par with any other college or university in the Northwest.

The local hopes are pinned in a heavy line and a fast, light backfield. The C. P. S. team is expected to average about 150 pounds to the man better than that last season. While a number of the players are fast and heavy, they are handicapped by favor of superiority in weight and speed against college teams.

William Smith, the cappie little quarter that comes from Alliance College, with Coach McNeil, was injured in practice Thursday afternoon, and the Marion and White-bound may be without his services in the big game of the season. During a game played at the quarter position and if his injury proves serious his loss will be a handicap to the team.

Barry Parker will be the only remaining quarterback and at present he is being run at half.

The one big stroke of fortune to the local college is the return to the team of Everett Stone, 185-pound tackle, and Ralph Brown, the fighting end, the opening game of the C. P. S. football season next Saturday afternoon.

A.C. E. Robinson, 250-pound backfield, returns to the team after a battle for the prostate body of a year. Time and time again it looked as if the tide would turn as it might have if the Freshmen's vigilance of that morning and the night before had at any time let up.

But as had the Sophs. It was a great day for the class of '26.

will of those who did have enough College spirit to express their opinion. They can see for 50c (if they buy an advance sale ticket) Collegiate this year depends upon the sale of tickets for the opening game which turning out for the football team can give their support to the athletic team. The greatest selling argument that you can give the public is that they have more than old college too.

Thou lost there in a look of content.

The great selling argument that you can give the public is that what was my name? Esther Graham, Erminie Warren, Hilda Scheyer, Preston Wright.

The business men of the city are giving their support to the College because they give money away here in support of the institution. They smirk and wink like professors, but the police intervened. They coddle their poodles the whole way from a gang of frosh. They were taken bodily away without giving a sufficient reason for such action.

The energetic frosh had walked to the hospital in the morning and inquired how one? The men were dressed in the overalls and the other hid his charms with a beautiful skirt, and science, or does she delight in the solution of abstruse problems in physics or do the languages, quick or dead, appeal to her tastes? When you think of California you think of the flowers, the beaches, and the sun. The men were taken bodily away without giving a sufficient reason for such action.

The energetic frosh had walked to the hospital in the morning and inquired why flappers felt the cold so keenly. The energetic frosh had walked to the hospital in the morning and inquired how one? ROGAR FINISHING

“CHAPEL CHIMES”
By the Bell Boys

And thus completed the Dean. Yo! to pole climbing Sophs, foot- foremen water, and on your way to the earth and get thee to the chapel where Dr. By, we shall speak soothing words unto thee when thou hast heard them. Magen return to the battle and lift till one side be vanquished. And the pole climbing Sophs and the Fresh’s mighty men of green point bend the words which Dean committed them and direct not.

Even as he had promised Dr. Warner rapped words that were soothing to the nerves. He made of an old Hebrew who had left home because of compulsion and finding himself in a strange land he thought of himself, how little it was, and was homely. So the old Hebrew pondered in his heart how he might find a way to return to Jerusalem.

“And the way have I hidden in my heart,” Dr. Warner said that often we debait to us whether the act of achieving or the thing achieved is more enjoyable. He said that some of the storeys of last year were sorry to finish the process of getting an elevation but the cause was joy in the process. If the way of Christ is hidden in our hearts there should be both joy in the process and joy in the goal achieved.

—CoCo—

“No college is primarily an institution of learning,” said Dr. Schillp and all the Seniors folded their hands. Vertically, over the French horn and understood “If it is an institution to develop the mind and its capabilities, the chapel is an unnecessary evil.” A confused word of closing books came from the Juniors and Sophomores sections and now unfurled attention was Dr. Schillp’s to have hold.

Following up his last statement Dr. Schillp said that if, as is so popularly advanced, being little, little to do with reason, such would indeed be the position of chapel. He expressed it as his opinion that there may have been times when the student was justified in thinking that there was nothing realizable in chapel surviving always has it been conducted in a manner which measured up to the standards of class work and that some things in chapel were not worth listening to. It seems to be compulsory it should be something disappointing.

Many are still of the opinion that this is not true. Our illustrious Senator Davis is reported as having said that there wasn’t much evolution in the store that Doc was made from the rib of Adam. Dr. Schillp says that Wm. Jennings Bryan is two thousand years and four hundred times in the subject.

If we should use reason in religion as well as in class’ work, we might find that there was no conflict between it and science. In both the world brings out the factors of evolution more than the Bible. There is for example a growing recognition now of the reflection of God as depicted in the science.

Science and religion should not be in conflict but should be “hand in hand” working together to develop along religious lines as well as scientific lines. The department of religion is in this very realm. Students should take scholarly attitude toward religion that is not a fact, not a belief only use of feeling only, but of both. They should present all their facts, loving and finding God. That is a reasonable act of worship.

Brain and Brain met in the open minds of the students. We want admit that composed the most bloody part of the horses Fresh and Sophs has not felt sure that some things have the material since they colored C. P. S. The modest scored bases. Many brave-warriors fell while hardcases of the Freshes lowered the pole to name them. Since the Freshmen before enunciated the Sophomores indicated their petitions and when the Sophomores and Zeus gave the victory to the wonderland of the Freshes Green-eyed Athena down and flashed a green flag to the color order.

FACTOGRAMS
Do you know that—

More than 15 per cent of the Fresh and Sophs have one or more lines since Wednesday morning.

The Preliminary Stages of the game happened Wednesday morning and evening.

A Trio of Boats was a series of Wednesday evening, one on Sixth avenue, another on 12th and Pacific, the other at 9th and Broadway.

The Boys were watched by an audience of five hundred spectators at the boot on 9th and Broadway.

All the Students attended their classes Thursday morning—both of them.

The Struggle was called shortly after ten a. m. and made the stride interesting for us.

We Liked the attitude of both classes.

The Confet was enjoyed by all present. We Freshmen our proud victory of ’26.

DRAMATIC NOTES
The play production class is rapidly whipping two plays into shape—"Rebecca" and "The Mouse Trap" will be staged Monday, "Hyacinth" and "The Freshman" especially delay play, very realistic in character.

The committee on the College annual play is already busiest looking plays and cataloguing them into groups of excellent ones, good ones and worse.

CAMPAIGN OFFICE NOW
IN DOWNTOWN LOCATION

Preparations Under Way for Latest Campaign

The Campaign Office, which for the last three years has been situated at the College, recently moved downtown to the President Building, where the Campaign officials are undertaking the strenuous work of the third half million dollar drive.

Among the campaign workers are C. O. Oliver, Director of the Campaign and representing the department of Finance of the Board of Education; John W. Harcker, Counsel of Finance; Dr. Darvell, who was here two years ago and took part in the first million dollar campaign. Miss Helen Red McLean is director of the publicity department, working under Miss Frances Wrench, who is head of that department.

Work of Dr. Darvell’s is taken with the work of the campaign, but judging from our knowledge of his ability we should find confident that this will be another success.

Pail: I heard you are working in a saloon.

Mike: Yes, I am putting potatoes on a banana.

Male in the bannery, hay and slick; for a potato on the end of a stick. Creeps up behind him, quiet as a mouse of the associate students. We want admit that composed the most bloody part of the house Fresh and Sophs has not felt sure that some things have the material since they colored C. P. S. The modest scored bases. Many brave-warriors fell while hardcases of the Freshes lowered the pole to name them. AUTOMOBILE

The Athletic men were entertained at dinner Friday evening by the College Athletic department. The dinner was the form of a football rally for the purpose of interesting the bench men in college athletics.

Sports were made by Pete and Tom Swayze, representing the Associated Students, Coach McKinley, and Mr. Mayfield, general secretary of the Tacoma Y. M. C. A., after which a short address was made by Mr. Brodwater and the athletic situation took place.

Miss Ruth Wheeler had charge of the dinner with Miss Underwood as hostess. A number of other guests gathered tables and helped with the preparation of the dinner.

ALUMNI

Miss Winifred Pears is holding an important position in the food department of Washington B. C. Co. She is a government employee and besides the title of Doctor she is known as a microscopist. Her work is confined to microscopic work.

Harriet Moe was married early in the summer and is now living in Seattle.

Mable Anderson and Ernest Clay, two recent graduates of C. P. E., were married during the summer. They are now living in Chicago, where Ernest is attending medical college. They expect to go to China to do medical work.

Mr. and Mrs. C. J. James have returned from China with their baby daughter, Mrs. James is at Boston.

Mona Day and Roy Vaughn were married during the summer. They are living in Tacoma.
