Time—The Present.
Place—The Dalglishfield Mansion in Virginia.

ACT I—Drawing room of the Dalglishfield Mansion. NOTE—During this act the curtain will be lowered for ten seconds to indicate the passage of a ship. The ship was engaged in foreign commerce. At this time the stage was suddenly illuminated by a flash of lightning, and all the lights were suddenly turned out. The curtains were drawn aside, and the audience saw the ship sailing through the stormy sea with a wind in her sails. The curtain was then raised, and the scene was repeated until the ship arrived at her destination.

ACT II—The kitchen—afternoon—two days later.

ACT III—The dining-room—before dinner on the same day.

STUDENTS ENJOY PLAY SKETCHES

Part of Second Act Is Given In Chapel on Monday

Selections from the second act of "Come Out of the Kitchen," which is to be presented by the College of Puget Sound at the Tacoma Theatre on the evening of May 1st, were enjoyed by the students during the chapel hour Monday morning.

Judging from the number of scenes that were broken during the rehearsal, the audience in the play will be a "smashing" success.

"Come Out of the Kitchen" is the most refreshing comedy and with a well chosen cast and an excellent setting it will be a tremendous success.

ON WITH THE PLAY!

The parts of "Come Out of the Kitchen" which were presented in chapel Monday show distinctly that the play will be a success from a dramatic point of view. Whether or not it will be so in a financial regard remains to be demonstrated by the students of the institution which is presenting the play.

With her usual determination, Mrs. Hanson declared she would place the play up on the stage as the students filled boy their faith in them. Central Saturday could not raise money to back the play for there was none to give. We could not expect the faculty to take the responsibility, for it is an ALL COLLEGE play. The Drama Club alone could not put across such a campaign, for it is an ALUMNI RISE job. Consequently, the student body was asked to manifest its interest in the play, and—true to its usual record in enough tickets to cover the amount necessary to make the play a success financially.

The amount is $8000 at the lowest, which means six hundred tickets must be sold. The play referred to is to be presented in the Lincoln theatre from six days to three days. The students who so gladly pledged themselves must now awaken that spirit again and see that these contracts are filled out. These contracts consist of five hundred tickets in six days.

It is a question of being able to do it; we only need to solve the necessity, and to get busy! This enterprise is not the first this college has engaged in, and in this field of student activity and loyalty. Neither will it be the last. The trust that the coach and the club placing in the students is shown by the way the play is rapidly approaching perfection.

The students should also "talk play" to every friend. Make the appeal this evening that all who have a college here, sell them a ticket to the play, and—then they'll know it. Let everyone know that the necessity is there, and to get busy! This enterprise is not the first the college has engaged in, and in this field of student activity and loyalty. Neither will it be the last. The trust that the coach and the club placing in the students is shown by the way the play is rapidly approaching perfection.

SPRING FROCTIONS

The spring a young man's fancy turns to that of love, the girl who might chance to be his. Between the frolicking of the three and the delighting of the air, all the world is gay.
