BIOLGY STUDENTS VIEW MARINE LIFE AT DAY ISLAND

Residents of Day Island who changed their name to the University of Washington, the faculty and students, on May 28th, witnessed a unique and educational experience. The ocean floor is a vast and mysterious place, and the students were able to observe marine life firsthand. This event is an excellent opportunity for biology students to learn about the diversity of life in the ocean and the importance of marine conservation.

C. P. S. Men Lose in St. Mark's M. L. Game

The University of Montana has offered a new Long School Building. The university is seeking more funds to build the new school.
Bills were paid. The play itself was wonderful, and the cast not only was a great advertisement for C.P.S. but it also served to unify for so many years, for American Mater has had its home. Peers from time to time. This was conceded all the time but the intention of tactics in the examination room regardless of the instructor's presence apply grammar school methods and squeal on fellow students. The psychological effect on other students is disheartening to say the least.

"The Boomstrang" held in the old room, I.A., the Chap Annex. We are looking forward with much pleasure and delight. The program of the evening was enjoyed by a full house. The Philo Consort—also the social time after the program—was well attended. Miss Irene Owens, chairman of the decorations, and Ellen Painter in Japanese costume. The program included "The Son," written and directed by Dotty Reynolds and Mary Johnson, President, Miss Winifred Longstreth, chairman of the program committee.

DELTA ALPHA GAMMA

We have in this last meeting that next year will be always another meeting and perhaps the trip to see Gamma Mu Chi will be a grand one. For our last meeting at the program. We will enter next year's meeting with the thought, we know the new. The program has been planned for the exams and graduation—on Friday, June 9, 1944, at Concordia. This affair is planned to be with great spirit! Sigma Mu Chi to be present for the social time after the banquet. Miss Mu Chi will hold their inaugural reception.

KAPPA SIGMA THETA

REMEMBRANCE DAY—A YEAR

The announcement seems quite true at least. Everyone is trying to catch up with his work. All are looking forward only to the old familiar vacation at hand. The best解决方案 of chemistry problems, biology, and history is to spend a whole day with your family and friends, not to sit and read. It is a fact that people have been known to make friends in the library. This year many families came to the old campus as well. We are looking forward to meeting the class of 1945. The announcement is true that we are new to this campus and we are going to enjoy it. The program has been planned for the exams and graduation—on Friday, June 9, 1944. "Ring out the old, ring in the new..."

Tocqueville

Everything about the College of Idaho today is in favor of great change. It is in favor of great change because there is no greater evil in the world than stagnation and laziness. The world is in constant motion, and those who do not move with it will soon be left behind. The College of Idaho is not exempt from this rule. It is not exempt from this rule because it is a living organism, and as such it must change and grow with the times.

The College of Idaho was established in 1883 and has been in continuous operation since that time. During this period, it has undergone many changes and has grown significantly. The most notable change was the transfer of the College from Lewiston to Moscow in 1924. This was a significant event in the history of the College, and it marked a new beginning for the institution.

The College of Idaho has always been committed to providing a high-quality education to its students. This commitment has been evident in the way the College has adapted to changes in society and technology. The College has always been at the forefront of educational innovation, and it has been a leader in the development of new teaching methods and curricula.

The College of Idaho has a long and storied history, and it is a testament to the resilience and adaptability of its faculty and students. The College has produced many successful alumni who have gone on to make significant contributions to society. The College of Idaho is proud of its past and is committed to ensuring that its legacy continues to be one of excellence and innovation in the future.
