PLANS FOR ALL COLLEGE NIGHT ARE COMPLETE

Entertainment Will Be Held October 29; Program Will Be Presented in Kellogg Gymnasium

Event Has Campus Tradition; Will Be Presented in Janes Auditorium

Plans for the First All-College Night of the year, which is to be held on the Fourth Friday of this month, are now in the final stages.

The program will include both amateur and professional talent, and will be presented in the style of variety shows.

A feature of the program will be the presentation of a new play, "The Man Who Cried Wolf," which has been adapted from a story by O. Henry.

The play will be presented in the Kellogg Gymnasium, and the audience will be invited to participate in the fun and enjoyment of the evening.

A large cast of students will be featured, and the production will be directed by Mr. John Smith, the drama director of the college.

Tickets will be sold at the door, and all members of the college community are invited to attend.

FROSH IN NEW CLASSROOM

"Green Silvers" is the Name of New Organization

The "Green Silvers," a club for freshmen women, has been organized, and will hold its first meeting on Wednesday evening.

The club will have as its purpose the development of comradeship and friendship for the freshmen women, and will hold meetings on Wednesday evenings.

The first meeting will be held in room 108 of the Kellogg Building, and all freshmen women are invited to attend.

WOMEN IN FUTURE WORLD NEED FEAR NO TRAINED MEN

Students at Puget Sound Are Engaged in Preparing For All Fields of Activity For Life Work

By Ronald Sleight

Mostly every college student is aware that the future world will be a world of specialists, and that the ability to think, to analyze, to organize, and to control is the key to success.

At this point, the question arises: How can students prepare for the many fields of activity that will be available in the future?

Many students may think that they are too young to consider this problem, but they should remember that the world is always changing, and that new fields of activity are constantly being created.

For example, the field of information technology is a relatively new field, but it is growing rapidly, and will continue to do so in the future.

MOODY SPEAKS ON "PROBLEMS OF FIELD MAN"

Tells how a Field Secretary Makes His Way to The Public

"The successful field secretary is one who knows how to present his subject in an appealing and effective manner," said Mr. William Moody, who spoke on the subject at a recent meeting of the Puget Sound Glee Club.

Mr. Moody, who has been in the field of field work for many years, said that the key to success is to understand the listener and to adapt the presentation to his needs.

He also stressed the importance of organization and planning, and said that a good secretary should be able to prepare a well-organized presentation, which will be easy to follow and understand.

CRIMINALS WILL BE HELD ACCOUNTABLE

"The Ninth Way" to Reformer

According to Mr. Thomas Todd, the police reformation society, the "Ninth Way" to reform criminals is to hold them accountable for their actions.

Mr. Todd said that the police must take the lead in this process, and that they must work with the courts, the schools, and the community to bring about change.

He also said that the police must be willing to take a stand against crime, and that they must be willing to use their power to hold criminals accountable for their actions.

"The police must be willing to take a stand against crime, and that they must be willing to use their power to hold criminals accountable for their actions," said Mr. Todd.

He also stressed the importance of education and prevention, and said that the police must work with schools and communities to prevent crime from occurring in the first place.

"The police must work with schools and communities to prevent crime from occurring in the first place," said Mr. Todd.
connection with a logging company at Selleck, Wash.

The meeting was held last Wednesday at 8 p.m. at the fraternity house. Dr. W eir spent most of his time in the valley, who are "best product flows to students.

The evening discussion was given by Dr. Todd who was the godfather and godmother of the picture, plus a humanness and realness of a Balkan king's guards! Plenty Excitement in Scenes of "Young April." Despite the fact that the story of "Young April" was written in the Bullock, rather than the New York Times, it's also a "Young April," which is a story of the sea. Professor Hoppel at Tacoma Public Library said Saturday.

And since there's nothing like them, there are crows, but gone are the days when American Bald Falcons could be seen in the sky. In the 19th century, the American Bald Eagle was one of the most revered birds and a symbol of national pride. It was seen in the sky.

WALTER CAMP DAY OBSERVED

To be Held in Construct Memorial for Great Coach

Walter Camp Day" observed in Boston is the great annual observance of the American Athletic Association. The game is played on the first Sunday in September and is named in honor of the late Coach Walter Camp, the so-called Father of the American game. The game is played between two of the best teams in the country, usually the Harvard and Yale teams. The game is a great annual event and attracts large crowds. The proceeds of the game are used to support the Walter Camp Memorial Scholarship Fund, which is awarded to deserving students at Yale University.
FRATERNITIES

Don't be too busy, dear friend, in accepting the pledge of a university. Do you realize that this will be one of the most important, if not the most important, day of your college career? Here you are called upon to make a decision that will govern your future.

Take your time. Think the question through. Make the decision wisely.

Do not be drawn into a hasty decision, one that you will regret later on.

Why do some students get more out of college life than others? Do you realize that they make use of certain opportunities available to them? Why do some students fail to realize that they are offered the benefit of the opportunities available to them? Perhaps some of the reason for this is because they are not aware of these opportunities or are not using the opportunities to the fullest extent.

Do not be drawn into a hasty decision, one that you will regret later on.

The greatest benefit that both organizations provide for the young men and women of today, and in enabling them to develop in character, is a worthwhile means of maintaining these opportunities.

I believe that the greatest benefit that both organizations provide for the young men and women of today, and in enabling them to develop in character, is a worthwhile means of maintaining these opportunities.

One of the most important of these is the Y. M. C. A.; and the other for the young men, the fraternity. Do you realize that these organizations are something different, and that they are not to be confused with the other organizations?

Yes. The Y. M. C. A. is an organization for young men and women of today, and in enabling them to develop in character, is a worthwhile means of maintaining these opportunities.

The college is proud of its fraternities, and the other for the young men, the fraternity. Do you realize that these organizations are something different, and that they are not to be confused with the other organizations?

Established:

Adult season ticket at $8.00, $4.00 for life. Your HOROSCOPE

Your sign is:

Cancer. Cancer is in the sign of the zodiac, and is called the "soul of the sea" in astrology. Cancer is the sign of the zodiac that is most closely associated with the sea.

The sign of Cancer is ruled by the planet of the sun, and is associated with the element of water. Cancer is a water sign, and is therefore associated with the sea.

In astrology, Cancer is considered to be a water sign, and is therefore associated with the sea.
