**Football**

**College of Idaho in Second Place in Conference; Idaho Defeat Puts College in Second Place**

The Idaho College of Education defeated the Pacific College 31-6 on Saturday afternoon, which put them in second place in the conference. The game was played in a sea of mud and snow, and the Loggers were able to advance up the line of scrimmage with ease.

The Loggers moved the football down the field largely on an option play and were able to score a touchdown in the second quarter. The game was played in a sea of mud and snow, which made for challenging conditions.

**Rogers Defeats Machine in Sea of Mud**

Another college football game was played yesterday in a sea of mud and snow, and the Loggers were able to advance up the line of scrimmage with ease.

GOOD SUPPORT

In spite of the dreary rain a fine crowd of Tacoma townspeople helped the students of Puget Sound support the Loggers in their battle with Pacific University last Saturday afternoon. Furthermore, the three leading newspapers of the city gave the college splendid coverage in their columns. This was also true concerning all the other games played so far this season.

The firm of Brown & Haley, candy makers, bought nearly sixty tickets to the Pacific game, in order that all of their employees might attend. Mrs. Fred Miller, the wife of the firm's bookkeeper, purchased twenty-five tickets. The Pacific Advertising Agency bought twenty-five tickets. The Tacoma Symphony purchased twenty-five tickets. The Tacoma Savings & Loan Association purchased ten tickets.

The Tacomaэм://noticias.vida-ingeniosa.com/organizations debtors paid for tickets to the game, and the local Young Womenэм://noticias.vida-ingeniosa.com/organizations Debors made a gift of money to the college. This money, together with the rest from all sources, will go to help the college carry on.

Sixty tickets were purchased by the Puget Sound Alumni Association of the University of Washington, three by the Puget Sound Alumni Associations of the University of Oregon and of the University of California, four by the Pacific Alumni Association of the University of Oregon, and thirty by the Pacific Business and Professional Women's Club.

The battle against the Loggers was won. The school received $177.50 as its share of the game.

We are sure that others might be interested in doing the same next year. Everyone who pays their money to support his college should give it his full support.

Below

Man-power

Four millions of the best man-power of Europe possessed in the Napoleonist conquests. Military conquest is non-creative, while industry is always creative.

In the last ten years one American manufacturer—the General Electric Company—has created machines having a man-power of Europe as great as that of all the lives lost in the Napoleonist wars.

In the years to come, when the college men and women of today are at the helm of industry and of the home, it will be realized more and more that human energy is too valuable to be wasted where electricity can do the work better at lower cost.
