ABOUT THE HONOR SYSTEM

The situation, whether it be as sorry a state of an honor system as at Pomona College, or a system that is at least temporarily sound, is a reflection of a moral and social attitude. We all know that an honor system can work perfectly well as long as we are students who are not in personal honor, but what we do to that a core of right directors. An honor system would be a success. The influence of public opinion is such that honor system would be as sound or as weak in promoting idealism as it is in checking the motives of the students. The system was in its own way.

CHRISTIAN RALEIGH ESTABLISHES HONOR SYSTEM

In his address, he mentioned the strengths of the student body and said that an honor system would be as sound or as weak in promoting idealism as it is in checking the motives of the students. The system was in its own way a reflection of a moral and social attitude. LET'S BE PATIENT

For the past year or so, some of the students of the College of the Puget Sound have been surprised because the Administration of the College has not gone ahead with the building program for the campus, which has now been abandoned. Furthermore, much more attention has been given to the school and to the man who is to equip and compile the faculty of the institution.

The idea behind all of these steps seems logical enough, there are a good many things which may be said in defense of the policy of the institution in the present times, the institution can handle a certain number of students, and we have already stated the wonderful endowment.

The idea of giving the school the right to express its opinion through the press has been well done, many people are interested in this.

Article One

The students of America are not being consulted in the shaping of events, in the formation of political ideas.

Article Two

We have no idea what the man of the street thinks about the college.

There is only one other way in which the College can come to a decision on the present time, and that is by borrowing money on its endowment. At the present time, the College has not done any expenditure and has not been able to pay off debts and gain out of the red ink.

The weather is getting warm and it is customary for the off-duty house to be a little hot.

CAMPUS SUICIDES

Certain people in this town seem to be worrying a great deal about what they think is a comparatively large number of suicides among the students.

There is only one other way in which the College can go about the business of deciding on this matter, and that is by borrowing money on its endowment. At the present time, the College has not done any expenditure and has not been able to pay off debts and gain out of the red ink.

The weather is getting warm and it is customary for the off-duty house to be a little hot.

ARE WE COLLEGIATE?

Recently, a group of the college students, the senior class, was asked whether or not they believed that they were being guided in their choice of a college, and it was found that the majority of the students were not.

It seems to me that a lot of college students do not have this attitude as it makes a good story. Then when the every-day college student reads the story in the paper, they will start up and start their little song about the young folks going to the dogs.

Some people are found to be enough to believe it.
