CAMPUSS DAY SCENES SHOWN

Arizona Defeats C.P.S. in Last Debate of the Varisty Season

Southern School Wins 20th Consecutive Debate; William Law and Shigio Tanabe Lose Close Debate on "Trial by Jury" Question; Small Crowd Greet Debators

As a finish to the varsity debate season here for this year, Wyoming, winner of 16 consecutive debates, made Puget Sound their 20th victim in a debate on the question of "Trial by Jury." The decision was close, two to one, and the debate was featured by good public interest.

William Law and Shigio Tanabe upheld the negative side of the question, "Repeal of jury by estoppel" was the affirmative for Wyoming.

PRIZE EXCELLENC

Puget Sound's William Law and a year's prize for being the outstanding speaker, will be the work for the boys and best of all the work. Both, a fresh, performed quite equally and showed that he was not for behind his insurance natural skill and ability.

Both Law and Tanabe made well, and Sankin's and Tanabe's affirmative for Wyoming.

Henry Norton

The day dawned fair and clear. There were no clouds to disturb the perfect blue of the sky, and the only sound which interrupted the stillness of nature was the soft murmur of the waves against the bank of the river. The morning breeze was blowing steadily across the water, and the flags on the mastheads of the yachts were flapping in the wind.

The course was laid out in such a manner that it would take the competitors around the city and back again. The starting point was at the foot of the bridge, and the finish line was at the foot of the same point. The distance of the race was 12 miles, and the time limit was 3 hours.

The competitors were all set, and the buzzing of the engines could be heard in the background. The starter gave the signal, and the boats were off like shot from a gun. The tide was running strongly against the race, and the boats had to make their way through the waves with great difficulty.

As they approached the finish line, the water was calm, and the boats could glide along without much effort. The spectators on the bank were cheering wildly, and the cheers could be heard clearly over the noise of the water. The last boat to cross the finish line was the winner of the race, and the crowd went wild with joy.

The day ended with a large banquet, and the competitors and spectators were all in high spirits. The regatta was a great success, and it is hoped that it will become an annual event.
Wealthy students staged a huge dance for the Golden West in order to defray expenses for a trip to San Francisco. The final score of the game was 30 to 18 in favor of the home team.

Several students have been selected to represent the school at the upcoming regional tennis tournament. These students have demonstrated exceptional skill and have been invited to participate in this prestigious event.

The Sigma Delta Betas are stepping up to full membership and are planning to host a special event this weekend to celebrate their induction. This event will include speeches, music, and a special guest speaker who will be announced shortly.

Important dates and events:
- **Monday, April 15** at the high school auditorium:
  - **Lincoln High Prep Team**
  - **Wally Scott**
  - **New Tenement Mentor Program**
  - Former National Intercollegiate Title Holder

**SPORTS**

**HOCKEY CHAMPION CHANGED BY WAINRIGHT**

This change affects the outcome of the recent hockey tournament, with Wainwright emerging as the new champion. The previous event had been held in a different location.

**WHITMAN PRINTS YELLOW JOURNAL**

Students at Whitman College are now printing the school newspaper, the Whitman Prints Yellow Journal. This event marks a significant milestone for the student body and the community at large.

**WALLY SCOTT, TENNIS TALENT HERE**

Wally Scott, a former national intercollegiate title holder, has arrived on campus to coach the tennis team. His presence is expected to boost morale and improve the team's performance.

**BOLD WATERS HOLD WOMEN ATHLETES IN TOW**

Events during Women's Conference Track Programs.

**SPORTS BULLION**

The world's attention is focused on the bullion market, with prices fluctuating due to economic factors. The future of this market remains uncertain, but investors are keeping a close eye on developments.

**WEATHER SLOWS TRACK MEN OF IDAHO**

College of Idaho, N. J. P., played a track meet against the visiting team. Due to the inclement weather, several track events were postponed or canceled. The program continues, with adjustments made to accommodate the changing conditions.

**NEW PLAN ALLOWS NON-LEADER TO EARN THEIR POINTS**

The new plan introduced for the Sigma Delta Beta sorority allows non-leader members to earn their points. This change is expected to increase the participation of all members in the organization.

### Female Help Wanted

`COME educated positions require women to assist in various hotel departments. Room service, cleaning, chambermaid, bath attendant, and elevator operator are all available. Apply to Hotel Manager for employment details. The hotel is located near the University of Washington, and offers a pleasant working environment. Applicants must have previous hotel experience and be able to work evenings and weekends.

### GOODY—FOREVER!

As the Trail humorist has announced in another part of the paper, vacation has “leaped upon us.” Spring vacation is a time to recuperate low finances, to others an opportunity to dissipate that spring fever that steals upon the unwary at this season. If we feel like it, we can loaf to our heart’s content, get away once again.

### Conquering the Cascades

Snow falls every month in the year throughout the Great Northern Cascades, presenting the traveler with the difficulty of the mining problem. No wonder so many miners’ efforts to conquer the Cascades.

In January, 1929, the new Cascade mine opened, providing new employment opportunities for the miners. The new mine was developed over a period of three years—record impossible without electric power. And electrification has been completed.

The conquest of electricity on the mountain range and the mountain itself, are making irresistible the impossibilities of yesterday. As our vision changes, our perceptiveness appears as a vital contribution to future industrial growth.
