BASEBALL WILL SHOW RIVALRY IN CONFERENCE

Northwest Schools Appear to Be Equally Matched in Baseball

With the diamond season still win-

ning or waning in the conference races, prospects for a tight race have

emerged. Especially on the going front, when Puget Sound, Willa-

cum, Pacific, and Pacific Northwest look to

shoot equals, does the run come
close. Whitman has a strong lead in

the overall state order on the Idaho
team, while a close sweep of the three games series with the Gamecocks last

week.

INTER-CLASS SHOOTS TODAY

Women Archers to Compete for Honors

The women archers, whose season was

unaffected by the weather, will meet today

at halftime to shoot the recurve and

compound. The team that scores the fewest

points will be the winner.

Those who would start the day

Puget Sound Enters Fast Team in Ninth Annual Relay Carnival at U. of W.

Entering the ninth annual University of Washington re-

lay carnival as the defending champions of Class "C", the

Puget Sound men will have many new faces in the ranks of the Northwest. The annual relay will be

staged at the university stadium tomorrow afternoon.

The relay folk for the Class "C" events bring together some of the

northern states. It is a competition that the University of

Washington will vie against others in six relay races and four special

events.

Women Archers to Compete

Typical American Contest and Trip to New York Won by Puget Sound Student

The Monday chapel period, presented by the Cosmopolitan Club, is such an advance. The fact that it was handled in a quiet way, a characteristic to which the American collegian fails to attach sufficient importance, in itself is an advance made quietly, a characteristic to which the American collegian fails to attach sufficient importance.

Another indication of the progressive policy, free from any of whatever shade. Than the brotherhood of man, and there is no more efficacious way the promotion of world betterment as soon as every member of the American collegian, said about it was what Helen Brenton, winner of the American Girl contest, said about it was what Helen Brenton, winner of the American Girl contest. Much of the clever comedy which was to come, too late, too late, time just a hand, and to give a cheerful

PROGRESS IN STUDENTS' THINKING

The most benecifical and commendable steps are not all those which most patently announce themselves. There are the ones which most patently announce themselves. The inspiration of their brothers, of those whatever shade.

Electricity—The Modern Prospector

A STOUT heart; a barn with pick, shovel, and fork, the plow has been the prospector’s key to the gold rush of the Sierras—the Tulare Plateau. A scattered trail of half-worked claims marked his sacrifice.

Ever feel like you’re not meeting the needs of your audience? The prospector was ready for the gold rush for—Silver’s Mill. The Placer District will give you a clue. There is more than one way to do work, but there is no one way to do it. The best way is the way that works for you, and that’s the way you roll.

In this age of information, the need to educate and inform is greater than ever. Education is not just about learning facts, but about understanding concepts and applying them to real-world situations.

We will do our best to provide the information you need, whether it’s about history, science, technology, or anything else. We’ll do our best to make sure you get the information you need to make informed decisions.

Have you ever wondered how electricity works? What happens when you flip a switch? How does a light bulb turn on? These are questions that many people ask, and they’re questions that we’re here to answer.

In this article, we’ll explore the basic principles of electricity and how they’re used in everyday life. We’ll look at the history of electricity, from its discovery to its current applications. And we’ll see how electricity has shaped our world and continues to do so today.
