The freshmen class this year at the College of Puget Sound have had an opportunity to familiarize themselves with the routine and customs of their newly adopted Alma Mater, by observing of freshmen work. Beginning Monday the new members of the school have been coming to John Hall each day, immediately by upperclassmen, to arrange schedules of the college.

Beginning with a general assembly Monday, at which Dr. Edward H. Todd, president of the College gave a welcome to the newcomers, Freshman Work launched into a week of acquaintance with the school, intelligence tests and group mental tests. Inteactive tests during this week culminated in the formation of the freshman classes for all the purposes of the school activities, and the programs arranged for the freshmen. Concurrently physical education classes were being held, aptitude tests and vocational interest examinations given.

In the afternoon, Monday, R. M. Ball and Miss M. S. Anderson, head of the Freshman Work, served refreshments to the freshmen and the various leaders of the school, the former being president of the Junior Class, Mr. B. M. French, the latter of the Sophomore Class, Miss M. L. Strongton. The program was not without its surprises, some being overjoyed by the reputation of the college they have heard. In the evening, a reception was given by Miss M. L. Strongton and Miss M. L. Strongton to the freshmen. The reception was held in the college center, and was a success, the students receiving great numbers of invitations to other functions of the college.

The freshmen work included an extensive program which aimed at acquainting the freshmen with the various departments of the college, and giving them an opportunity to be familiar with the campus and its surroundings.

The freshmen work ended on Friday night with a dance at the college center. The dance was well attended, and the atmosphere was one of joy and friendship.

The freshmen work provided a smooth transition for the freshmen into the college, an opportunity to meet and interact with their classmates, and a chance to explore the various departments and activities of the college.
NEW FACULTY MEMBERS

(Covered from Page One)

Looking forward to a fruitful year.

Dear Students,

Welcome to the School of Medicine.

Sincerely,

[signature]

NEW FACULTY MEMBERS
The College is getting a choice selection of freshmen girls for the outcome of the physical examinations given to each member of the class who may engage. According to Miss Wood, overlooking many from the Tacoma General Hospital the freshman group is the strongest group she has ever examined. One girl was found to be physically perfect. In the entire group the freckles disappear in the hand, such as to enable the selective hearing test the like was postponed. 

"This is undoubtedly true," said Miss Wood, "in the fact that these girls have undergone regular examinations for the past four or five years. Since we began examining groups of school age we have been able to see a definite improvement from year to year. Ever since we began examining, and ever since we have begun examining groups of school age we have been able to see an improvement from year to year."

Every incoming student to the College of Tacoma is required to take a thorough examination and everything that these are bringing is results is certainly the tremendous savings from the reports of the examining officials.

---

**FRESHMEN GIRLS IN HIGH RATING**

The College is getting a choice selection of freshmen girls for the outcome of the physical examinations given to each member of the class who may engage. BY EX TRODE

Another football grind is well started. There are plenty of new men in the Loughlin training camp this year.

Chief among the newcomers is Coach Ed Pecoraro. The coach comes from Montegrand College in Shore City, Iona. He is a hard working fellow who has made many things happen. He has the skill to make a hard working football player.

s p i r i t o f wholehearted and sincere loyalty on the part of you
a school that won't support itself, but that it is anxious and
star backfield men and linemen could possibly do.
It takes a lot of nerve to tackle a job when so many diff-
ficuntly constitute the city of Tacoma. When a man steps in
a step as this it indicates that he is master of his subject and
also of himself.
There are few men who would care to take the same step
and since Mr. Pursell is one of the few it is indeed gratify-
ing to know that he is in a master of the sport.

We can do just to present to show our appreciation of
the coach's trip to Cobham welcome his ball and wish him
the best of luck during the coming months.—J. R.

SPIRIT AND SUPPORT
College of Puget Sound football teams will never be a real
success, unless we are inspired to tide up with the rest of
Tacomans, as a unit, gets back of this school and her elevens
95 per cent is not enough as a few knockers, slackers or q u it-
athletic squads of this school must be 100 per cent. A mere
battle for their idea in spite of trouble and adversity.

A little observation held all the elements of truth
there it left much to be said.

There are few schools that have their ladies so much public spirit and unani mity of opinion and support g e r m i n -
and a small central group with enough conviction to battle
through their idea in spite of trouble and adversity.
There is but one place for support for Logger athletic
students backfield. That is the College of Puget Sound
student body. Until the members of this college stand as a single
front line and have their backs to one common enemy, we can
see the City of Tacoma furnish any further support.

This belief is now borne out today. The spirit of the
students in this school must be 100 per cent. A mere
65 per cent and as few as a few knockers, slackers or qui-
ters can color the teams reputation of thousand.

Nine times out of ten, the students are the most
public spirited and supportive. The best of the
star backfield men and linemen could possibly do.
So remember that the University of Washington is a
school that won't support itself, but that it is anxious and
star backfield men and linemen could possibly do.

The problem which now confronts the institution is to
sustained if anything like new material. Some of the
students seem to be losing interest in their work, but all in
that any attempt to stir things is fruitless, but that it is anxious and
willing to all the mounties join in a common manifestation of
spirit of wholehearted and sincere loyalty on the part of you
students.

ASSIMILATION
Once again, with the customary confusion and excite-
mnt, the new year begins its span at the College of Puget Sound.
There are the requisite old school students, looking about
the same as the usual annual, and in addition there are hundreds
of freshmen.

The problem which now confronts the institution is to
seamless Full—seems to be one of
Coach Pursell's special students. There are
seven or eight of them on the team, and they have made a
great deal of noise in the Pacific Conference. They are
able to be starred by any school that has the least
public spirit and unani mity of opinion and support g e r m i n -
