CAMPS RELIGION

The religion, or lack of religion, of college students has been the subject of much discussion. Everyone has an opinion on the question, and many of them are not complimentary. However, it should be noted that the average student lives up to ideals of sportsmanship and honesty which should put many of their critics to shame. The campus those days was unknown to former generations, yet characters undoubtedly result. The religion, or lack of religion, of college students has been the subject of much discussion. AT LEAST ONE THING WELL

The average student, after four years in college, has a specialized knowledge of some sort. He may be a clever chemist, a capable mathematician, a noted psychologist, or a highly proficient musician. By all means knock at the doors of as many realms of knowledge as you can. You can’t go wrong if you make your scholastic goal the swing. There are still about one hundred beds left. If you are not enrolled yet, register at once.

Rickards, Nan Heinz, Robert Young became professor of English at the College of Puget Sound, faculty member of Central Board, sponsor of Otla Club.
