DEPRESSION IN JAPAN CHRONIC

Japan is rapidly becoming America's worst Depression in the history of the world. The present depression is much more severe than the previous one and is likely to last for a long time.

The depression has spread from the Pacific to the Atlantic, and from the North to the South. The result is a decrease in the purchasing power of the people.

The situation is likely to get worse before it gets better. The government is doing everything it can to help, but the people are not heeding its advice.

BEING A FRESHMAN IS STATE OF MIND

By BILL FROST

It is not an old tradition of most of the colleges throughout the country that the freedom of the freshman is the state of mind of the freshman.

The impression that was given to the author was that the freshman is a man who is not afraid to take the initiative.

THE PUGET SOUND TRAIL

SIX DAYS TO GO

To obtain the $135,000 offered by the Rockefeller Foundation, the College of Puget Sound must raise close to $125,000 within the month of October.

Though the 30 is the dead line set by the board for consideration of this institution. Already we have secured post commitments of the final settlement day. Now we find a crisis. It seems to be now or never as far as endowments go for Puget Sound.

Many outsiders and a few local citizens have contributed generously. Taconis papers have cooperated heartily in every endeavor.

With six days left, we appeal to you students. A number of you as well as your parents have heeded the call and your checks are now in the vault and will shortly be yet fulfilled. If these pledges are paid by next Wednesday C. P. C. can meet the Rockefeller offer.

An Intimate Correspondence

Elise Terry and Normal Shaw is without question the outstanding literary sensation of recent years. Elise Terry, inscrutable English actress and Bernarr Macfadden correspondent during the past century, revealed a deep and sincere attachment. Fortunately almost all of the letters which passed between them have been preserved and are here together to form a correspondence unique in English literature.

Unlike many such correspondences, the letters have not been written with an eye to self-aggrandizement, but with an eye to self-improvement. That is the secret Shaw's favorite purpose was to do this.

The book will be published in October by Putnam and will sell for $5.
