Passing of Third Floor Art of Thought, Character

By Gertrude Davis

The business of Art is to reveal the beauty underling all things. Jerome K. Jerome's "The Passing of the Third Floor Back" is a play of art of thought, of character and of theme. A critical audience at CPS Friday evening seemed to grasp the intrinsic truth of the production.

Entire Cast Strong

Delta Kappas Plan Dance

Delta Kappas Phi fraternity met Wednesday evening in the chapel with Charles Thomas, president, presenting Robert Breu, a sophomore, as the successor to the office of president for the new year. The program was given by the pledges.

Many of the pledges have to supply the N.R.A. with nothing knowing all it could or might mean. The students of Illinois Western believe that it means "Next Rights Abolished." They are going on few hours this week, in keeping with the recovery act. Some of the new rules laid down by the college officials are as follows:

Ten minutes conversation between a male and female student shall constitute a "date hour.

Each male will be given cards "who spend more than a reasonable time in an automobile before dismounting or entering a car in a males court in the presence of other males.

The students of Kenyon college, Columbus, Ohio recently applied for permanent to sell our beer to the college dormitory and restaurant.

The YWCA Hear Beauty Talk

By Doris Hall

Mrs. Sandall in Speak at Next Meeting

Expecting a demonstration of modern make-up, women who attended YWCA meeting Tuesday round Miss Kate Brown advocating the simple beauty that may be had by wise women. Miss Betty Fischer, afternoon speaker, introduced Miss Brown, who came from the Kate Brown Beauty Shop in the Hotel Continental to lead that second meeting of a series on charm, spoken by "Charm in Beauty." She then answered questions from the audience and informed the Lambda Sigma Chi roe, as she demonstrated proper make-up for the youthful face on a student model. The virtues of plain soap and cold water as a cleansing agent were given.

Gives Demonstration

Presented make-up to the meeting with a sample of powder which she recommended had no pronounced color. Questions ranged from hand lotion to "that Hollywood had of luminous make-up.

The Puget Sound Trail

First Unofficial All-Conference Team Selected

Trail Sport Reporter Names All-Star Grid Selections For Season

By Otto Smith

These teams were picked with the aid of the leading coaches of the teams and a tabulation on other conference games. Due consideration was given every team in the conference.

This is not an official team, but is an idea of who will come into consideration when the coaches meet to select the official one.

Carbon and Kaiser

Carbon and Kaiser were the pick of the winners. They were good defense and offense men, both being fairly fast. Kaiser was the hardest man to move in the conference. Nelson received the other tackle job because of his performance on offense and defense, as he was a big one in Whitman’s bid. At quarterback there is no need to mention the fact that Ferguson was head and shoulders above the rest. Osells was a back worker and does serve the other berth. Gagnon was the leading center and led the Loggers in more ways than one.

In the backfield Sterling was the brain of the conference. Without “Det’s” Potato Soup might not have clicked so well. Gibson and Gagnon were the best ball carriers in the conference and caused many others that they filled to perfection.

The fullback job was a tough one to fill and the best man that got the credit for the great work he turned in, was the greatest in himself and did not get in more games than was used in every department with a great deal of success.

Second Team Close

Make no mistake about the men on the second team—they are all close. They all show the first team in their performances in. Sandberg was chosen as the leading coach because of his ability to get up an offense that was hard to stop and a defense that was nearly impregnable. He then took his men to the front and made them the backbone of his team. The Columbia Northwest will be close in the second successive season. Very interested in this movement.

Professor Hanawalt

The College of Puget Sound mourns the passing of Prof. Francis Wayland Hanawalt, who was privileged to spend much of his life here. He was an emeritus professor of mathematics and astronomy at this institution and who was last year made an emeritus professor.

The passing of Prof. Hanawalt removes many and women who were privileged to spend much of their lives here. They are today grateful that they had the privilege of seeing a man whose name means more to them than they thought it did.

The challenge is to carry on with enthusiasm and to continue to make the Trail a success.

Professor Hanawalt's passing is a loss to the College of Puget Sound and to the Puget Sound community.
