He has taken major parts in all the works of the Campus Playcrafters and "Trees and Men," as a leading part, he has taken major parts is to indicate his ability among these: "Petified Forest," "Right of January Seventh," "The Perfect Alibi," "Why the China Bunge," and "Bury the Dead." I don't have the full context of the document, but it appears to be a sports section from a newspaper, possibly discussing college sports. The text includes mentions of basketball, football, and other activities. It seems to be providing updates on games, practices, and other events related to these sports. The text is in English.
