Confusion Reigns as Adelphians Leave on Annual Spring Tour

A young man who lived in a small village in Portugal had just finished his studies at the University of Coimbra. He had no money to return home to his village, so he decided to travel to Spain to find a job and earn some money to support himself. He found work in a small village where he was charged with feeding the horses. He had never done this before, but he was determined to do his best. Over time, he became skilled at the task and was able to make a decent living. This experience taught him the importance of hard work and determination, which he carried with him throughout his life.
