Students Sponsor TrailerCamp Project

One of Tacoma’s dire problems, caused by the rapid influx of defense workers into the city has created a settlement of trailer camp women, in the outskirts of the city limits. CPS students under the general direction of Bob Elliott, have been endeavoring to aid inhabitants of the settlement to better their living conditions.

For the past month, they have been working with the people trying to establish recreational facilities for the children in these camps.

Community Interests

The purpose of the project is to attract the attention of the parents of the children and the children themselves, so that when these situations arise they will cooperate with them.

Residents have concluded that such a camp will be a public house for the boys of the city, and they have given them the necessary facilities to help them develop.

In addition, they have been busy with the children, making sure that they are given the best education possible.

Sociable Interests

In cooperation with the Tacoma Boys’ Club, CPS students have been organizing groups of young people to establish dormitories for the boys, and have given them the necessary training to teach the children.

Traffic Jumble Caused by
Chapel Rush, School Shame

The comment made by a visiting chapel speaker the other day is one of the most significant features of the
current period. The writer was given to understand that an
auditorium was very apropos: "One is going to get
trapped to death in that room if we don't move fast
away from it. Now, for a minute, let me explain, all
those who have had any experience at all with the
traffic jumble caused by the seniors have it.

This year, students want to get in to chapel as
fast as possible. They are in a hurry to get out to
their classes and to get to the library. They do not
want to be bothered with any delays. They are
