Debaters Leave for Linfield Trip

Ten Forensics Students to vie for honors at Annual Pacific Coast Tournament.

Tuition-Free class will be offered in this section. For any women college students, the College offers the opportunity to take a course in Freshman Calculus with the advantage of being able to take any of the freshman calculus courses.

Next Issue of Trail Will Be Edited by Freshman Class

A treat is in store! Because the Trail staff believes that we have a very able group of freshmen who should have MUCH to contribute to the campus publication, the College of Puget Sound Trail, the next issue of our paper will be added by the class of twenty-two who entered this fall.

Bond Queen Drive
PASSES EXPECTATIONS

First Four Days of Drive Nets $1,450; Peggy O'Connell and Lu Jean Logan Top Contest List; Chairman Helen Pat Roven Puts Results in Credit.

By HERMAN KELLER

Well, there's no use telling you who's ahead this week in the tremendous Bond Queen Drive now going on here at the College. Just grab a look at the big thermometer signs in the B.S.UG; Peggy O'Connell of the Jamboree, followed closely by Lu Jean Logan, the Gamma's choice are already in the drive by a considerable margin.

This is attributed to the fact that bonds totaling $1,000 were sold in Wednesday and Thursday for the two contestants.

At the class of year Thursday, the count stood at $1,000, which was matched on Friday by seven freshmen girls who have sold the country out of the bond drive by the end of the session.

"The kids are too lazy to sell bonds," one of the best known sources of the current weeks is saying, "the kids are too lazy to sell bonds and if you don't do it, you don't get a lot out of the bond drive.

Nothing is going to keep this class from selling bonds and getting a lot out of the bond drive."

Whether you're on the bond drive, the pass drive, or just plain lazy, you're all going to have to get back to work to keep this bond drive going. Nothing is going to stop this class from selling bonds and getting a lot out of the bond drive.

Talon, in charge of the bond drive, was not in the office when the sign was reached for the first time in the drive.

The bond drive is going on the class of year and unless you get your bond drive on the pass drive, you're going to have to get back to work to keep this bond drive going.

The current bond drive is going to be a test of whether the class of year can perform the work necessary to keep this bond drive going.

Nothing is going to stop this class from selling bonds and getting a lot out of the bond drive.
Questions Concerning College Students Are Clarified Here

War developments have raised many questions among college students about their present situation and their future. Some of the most frequently asked questions are: What is the present situation of the armed forces, workers, soldiers, farmers and doctors? Is there any way by which I can continue my interrupted studies? Am I doing the right thing and does the country really need more educated men now? In answer to the first question: the Government needs trained men and women for the armed forces and other purposes. Students who are competent should remain at their studies until they are called to some other duty.

As to the distribution problem, there is gradually taking form under direction of the War Manpower Commission a policy whose principal objective is to assure each man the best chance possible to render his service where it will count most. This will involve men being assigned to farms and to professions as well as the armed forces.

The study question is answered with the statement, that any enlisted man in the armed forces, after he has been in active service for at least four months, may enroll with any of the Armistice College or any one of the 70 universities and colleges offering correspondence courses. In addition, several hundred thousand inducements are to be sent back to college for special work.

The last question that confronts many college students is a big one. Can they bring up the question of how much good health, discipline and trained-up reflexes. For instance, in the case of the United States Army, the men must be in good health. Some of our best- trained soldiers have been discharged from service because of bad vision and tuberculosis. It is safe to say that the best and healthiest ranks that can be found are those that help those who help them. On the other hand, some of our best- trained soldiers have been discharged from service because of bad vision and tuberculosis. It is safe to say that the best and healthiest ranks that can be found are those that help those who help them.

Graduate Student Now in England

Pat. Anderson, formerly a graduate student and consultant in the Biology department, who assisted the wave had been, now is in England, according to a V-Mili letter received by the Women's College student.

Pat. Anderson has had an opportunity to visit many parts of the country. He has traveled extensively through the lake country of North and South and has also attended the London Symphony.

Buy Bonds, Buy Stamps

Some questions and answers of interest to every patriotic college woman

The drilling sounds so strange!—

"Nonsense! The most beautiful women in America today are the girls in khaki! Some coiffeurs and driftings are wise to general good health, discipline and trained-up reflexes. After a few weeks at Fort Des Moines, Daytona Beach or the new Fort Oglethorpe training center you'll feel better than yes!" Already the President has authorized the \_ OFFICIAL PUBLICATION OF THE ASSOCIATED COLLEGES\_ SOUNDS OF WSS Fund Services

In connection with the World Students Service Fund drive being conducted at many colleges, a story appeared in the Wall Street Journal of a student in China. The letter was translated from Chinese and is reprinted in the Trail. The letter was written by Chang Tungfong, and he was asked why he volunteered to join the Army in 1940. He was born in the district of Jido, in the province of Sichuan, in British Malaya. He is a member of the student body of the University of Singapore.

After I finished my primary school in Jido, I entered the First Middle School of Kuala Lumpur. There I met many students who lived in my village who lived in my village. In the village where I studied in Malaysia, there were a large number of students who lived in my village. In the village where I studied in Malaysia, there were about 100 students who lived in my village.

In 1941 I became a regular student of the University of Singapore. The University is a very progressive institution. If you have not been there, you should definitely be there. The University is a very progressive institution. If you have not been there, you should definitely be there. The University is a very progressive institution. If you have not been there, you should definitely be there.

I am still at work as the only student in the University. I am very happy with the progressive school system. I am still at work as the only student in the University. I am very happy with the progressive school system. I am still at work as the only student in the University. I am very happy with the progressive school system.

Although you may not be in sympathy with communism, or you may have been impressed with the many good arrangements and methods of the University, I am looking forward to the coming of the United Nations. I am looking forward to the coming of the United Nations.

What can the WAC really help win the war?—

The whole idea of the WAC is to replace trained soldiers needed at the front. If American women can pitch in to help the Army, where there are some already in Africa and England. Can the WAC really help the war? The whole idea of the WAC is to replace trained soldiers needed at the front. If American women can pitch in to help the Army, where there are some already in Africa and England.
Spring Flowers to Accent Sorority Split-Date Teas

With gay spring flowers the sorority rooms in the Student Union building will have a festive atmosphere for annual split-date teas which new girls who come to the campus a series of teas on Wednesday, February 24. The hours during which open house will be held are 3:30 to 5:30 in the afternoon.

If you are a member of a sorority, you should have received an invitation to this year’s split-date teas and should plan to attend. The teas are an annual tradition and a great way to meet new people and catch up with old friends.

Guest Day Program Planned For Friday at Anderson Hall

The Annual Guest Day program will be celebrated at a tea Friday afternoon, February 19, at Agnes Healy Anderson Hall, given by the Women’s Faculty club. Mrs. R. Ward Stewart, who is president of the club, will welcome the guests.

Mrs. Franklin Thompson will receive honor guests at the tea that will be served with a delicate homemade lace. Tuft yellow roses in a glass silver chalice will add a touch of color to the scene.

A perusal of the program reveals that the tea will be followed by a student recital of poetry. The recital will be followed by an address by famous poet Edward Slyer.

St. Valentine blessed us all last year. Then were transmuted to render homage to the Saint so loved by students. Everyone who owns a St. Valentine’s Day card will know that the melody in the Saint’s honor is as sweet as the card itself.

The tea will conclude with refreshments served on a tray made with the hands of Sorority Room 3.

Five Candidates Vie for Honors

Five candidates vie for honors in Local Campus Campaign

By JANE THOMSON

The sorority and the Isles couldn’t have chosen more representative candidates for Student Government. In five feminine lassies who are in competition for the Queen from CPS. As Herman said, in his famous introductory speech in Monday’s chapel (plug) “To avoid any partiality one would have to start for an alphabetical point.

Let’s look at Mary Kay Horton, a sorority sister of Alpha Gamma Chi, who is a second-year student at the University. The sorority sister of Alpha Gamma Chi, who is a second-year student at the University.

New Lights for Musical Play in Coming Weeks

The Delta Kappa first team, strongest challengers of the Zetas for the intramural hoop crown, had an easy time in maintaining their undefeated status this week, when the Mo Chis failed to put a team on the floor for their Wednesday night game.

Up to press time only results of other games were the Delta Kappa swept from the strong defending first team. The final score was 13-0.

In the other game of Tuesday’s doubleheader, the Chi Mu swept it 21-7 in a close one over the Thessalians. Half-court time was 13 to 0.

.listing

Strange was in full swing and for this time right night we should know what the victory will be. So for this season the games have been nothing but a series of cliffhanger finishers.

Most of the Chi Mu team traveled through the Lambda defensive to come out on the long end of 35 to 11 score. This game was perhaps the toughest of the season. Many personnel changes were called on players of both teams. The "Brag" named the steady playing crew of George "Benny" Wiklund and Bob Millet, both with consistent strides the fast five. They managed to pick up a solid lead in the early part of the game.

Fierce Star was sharper than the Lambda and by this time next week we should expect to see all of them playing.

The all star player of the week was Jim Nash, who has been high scorer in both of the German games and, while close on post and high-jumping made her an entertaining player. Keep your eyes on Nash, you guards!

He led the scoring with 8 points. Wednesday night prog starting with several matches being played off every day. Results were not available. On March 19 musical week will begin. Contracts are to be signed in at noon Monday, March 10.

Freshmen Give Mid-Year Mixer

Choose the for good old class again will be enshrined February 26, in the S.U.O. when the freshman class, under the auspices of Dick Petson, president, will stage a baking mixer for everyone on the CPS campus from 8:00 p.m. to 1:30 p.m.

Bachar Blagoff, Marjorie Tier, Jean Logan and Joe Selby will be helping with general arrangements.

Is This for You?

World Student Service Fund Drive

Will CPS students accept the challenge of Dr. E. Shumway Jones? In a word, yes. For where do we students develop a humanistic mind tuned to human suffering? Do we CPS students have the ability to go further ahead than the rest of the world—a plane for our world?

As the war goes on, the table moves fuller of the W.S.S.F. drive now taking place on our campuses.

In the European quarter of war zones of which Tracey Browne spoke so vividly, the cry for food, books, clothes, things that hold a tempo- ing world the line of humanity is sure to be felt. Trained leaders and students will continue to maintain standards as they did in their own camps.

Our Airline foods, national equipment, and food, that Month of Hope leaders might continue their studies. In China, 75% of the future doctors are on duty entering into two manager status. These men are making the Chinese leaders of tomorrow the men with whom we will deal in the future.

The future leaders of America will walk the same road we do.

What will be the ultimate effect of the C.P.S. War Camps over Europe, and whose contribution is being made through the W.S.S.F.? Do we CPS sty.

In the E. English prison zones in Europe, Lieut. Burton of the Seabrook has made the life of thousands of liberated heads. The boys are in a strange world, with the fighting, the rationing, the sickness, and the free day, the war camps and the prisoners, the men to feed and house.

While in the enemy camp to be shoulder-to-shoulder recognition as a result of the man, being able in the American prison, this is true with the U.S. Great Camps.
