Thanks To Students Who Helped Keep Trail Going

It has been two years since I first took the responsibility of being Editor of the Trail. During this time I have made an attempt to build it up to the place where you, the students, can get something of value out of your college life.

It has been my hope that in some way I may have helped to make your college memories more vivid through the pages of the Trail.

At times we have had a tough pull. In fact there were times when the staff dwindled to a mere handful of interested workers. I am glad to say that in those times we found people who were interested in the Trail and were willing to keep your college paper alive at a time when it might have died altogether.

To such people as Jeanne McGonnigal, who has played a big part as both feature and society editor, of Mary Ann Schenck, who has also been a grand help on the society page, to Betty Jane Cappa, Margaret Lindeman, and Anna Marie Vaughn for their untiring efforts, to your next year's Editor, Elizabeth Anderberg, and Business Manager, Anna Marie Vaughn, I wish to extend my hearty congratulations, and the College of Puget Sound.

To you next year's Editor, Elizabeth Anderberg, and Business Manager, Anna Marie Vaughn, I wish to extend my hearty congratulations, and the hope that they will put out an increasingly better and better Trail through the coming year.

Juniors Show Sneak But Capture Hatchet Prize

As always, the truth will finally out. But the pages must be turned back to view the full events from a proper angle.

It all began one dark, dark night... figures were running to and from the huge brick building, leaving trails (at times) nothing more than a pair of janas. However, their every movement was being watched (that is even possible... until they actually did)

Not far away, in the same neighborhood, there was another group of watchers, the hour being late (or very early), in fact, but may be it was dawn (or was it the wee small hours) the hatcher began to move. In fifth jacks they kept one (or anyway big) eye on the proceedings.

"Jiggers. Here comes a car. Dark." And with this whispered warning, with their eyes wide open, they've got them cornered.

"Ah, what can those cars be doing in that alley over there? Hum... it's backing out now. Wonder if they're playing hide and seek in my open garage.

Some time later the telephone rang, the quiet air was filled with a most disquieting sound. The hatcher had struck..."

Senior Chapel Held Interest

Senior Chapel held interest. The announcement of the presentation of a memorial to be given to the school by the senior assembly, May 15, by Frank Price. The gift, which was accepted enthusiastically during the service and hung in the lower hall before the fall semester, is to be a polished log of light wood bearing the same name “Loggers” in large letters, with an axe driven into one side and a sheaf of corn suspended by a beam from its top. Wearing their caps and gowns, the seniors wound up the assembly with a procession on an arch formed by the gold and white streamers held by members of the senior class. Helen Put Steer gave a review of the noteworthy activities of the class of ‘45, among which were: the initiation of the song fest, the introduction of the Junior freshman banquet, and the organization of a war activities committee.
