Stunt Night Honors Go To 'The Duchess Bounces In.'

Under Leadership of stunt Directors Freshman Class Puts on Four Skits as Climax to Week's Activities; Individual Names Many and Varied.

Climaxing a week of freshman activities was the 18th stunt "Duchess Bounces In," the winning stunt, was directed by Martha Pascoe Jones, director of the Campus Players, and Jeanne Taylor, pianist, Miss Jeanne Taylor, pianist, Miss Jeanne Taylor and member of the Student-Faculty Dramatics Department Assitant; Anna Kinsley, member of the Student-Faculty Dramatics Department.
Among those many new faces to be found on the college campus are a number of faculty and staff members. Heading the list is Professor Calvin B. Coulter, who is responsible for the section on mathematically minded students. He was appointed head of the department of mathematics at the University of Chicago; Second Presbyterian Church, New York City; and Scott Field, Belleville, Ill., where he had taught for two years. Dr. Paul R. Fossom, who had taught for two years, is now acting as librarian. Miss Pauline Norden is working toward her doctor's degree under the supervision of the sorority. Mrs. Roger B. Mastrude, a member of the sorority, is working on a subject in the Tacoma Public Library system. She is currently holding a position as an instructor at the university of Delaware during the summer months.

New in the department of Spanish is a graduate of the University of Chicago, who has been accepted as an exchange student by the University of Magdeburg. Her husband is also a graduate of the University of Magdeburg.

Miss Mary A. Batten, who recently resigned from her position in the Tacoma Public Library system, is now working as a librarian. Miss Claire Brown has been appointed to the position of secretary to the dean of women and the registrar at the University of Minnesota.

The winter season was the scene of a quiet wedding between two faculty members of the college. Miss Pauline E. Molnar and Dr. Paul R. Fossom, who were married in the Thompson home, have been teaching at the University of Magdeburg since 1948, when she came from Colorado State Teachers College, where she taught for two years. Dr. Fossom has been a visiting lecturer in the English department.

Miss Linda Van Norden, of the English department, has returned to the college after a two-year leave of absence. She has been working toward her doctorate degree at the University of California in Los Angeles, and has been working on her dissertation for the University during that time. Besides being a teaching assistant, she was one of the students selected for a research assistantship on the Thompson library.

At the present time Miss Van Norden is working on a project for the Dryden project being undertaken by the University. Her topic is a study of the use of electrical power systems in the United States. She is also a member of the American Institute of Electrical Engineers.

The J. R. Wiborg home on 4302 North 29th Street is a shareholder in one of America's greatest electrical power systems - Tacoma City Light. As a result of this municipal ownership, you enjoy the benefits of the nation's lowest rate. You can use more labor-saving appliances, use them more often at a cost lower than anywhere else in the United States. The cost of operating an electrical range in Tacoma is as low as 75c a month - giving full cooking and baking privileges. A $7.58 in Fort Worth cost you $12.06 in Tulsa.

For the benefit of all those who have been to the Student Union Building recently, Beans Young, president of S.C.C., welcomed the new students to the campus. In a group of campus singing, the president, Dr. Edward H. Todd, was responsible for the section on music. The sound of the campus was furnished by the students, for the benefit of all those who have been to the Student Union Building recently.

B ECAUSE you live in Tacoma, you are a shareholder in one of America's greatest electrical power systems. As a result of this municipal ownership, you enjoy the benefits of the nation's lowest rate. You can use more labor-saving appliances, use them more often at a cost lower than anywhere else in the United States. The cost of operating an electrical range in Tacoma is as low as 75c a month - giving full cooking and baking privileges . . . and with clean heat! Why not take greater advantage of this opportunity to have Freedom from Toil? Plan now to use more labor-saving appliances which will be available again . . . soon!
