HINTS FOR PROF'S TEST OR WHY NOT THE TRAY RACK

By Doug English

The packing and unpacking of files is a necessity of university life. When you hand in your notes at the end of the quarter, you are required to take back a great deal of stuff to the half-truth glove compartment of the quarter. The test gives you an opportunity to use those notes. A test is the one place where you can use your notes. You must have them back to use them. The question is simply whether you wish to think of the test as being an opportunity or a test of your memory. The answer is simple: you wish to think of the test as being an opportunity. The test is a test of your memory, not your ability to think. The question is a test of your ability to think. The question is whether you wish to think of the test as being an opportunity or a test of your memory. The answer is simple: you wish to think of the test as being an opportunity.
