

COLLEGE OF PUGET SOUND

ALUMNUS

MARCH, 1948

WINTER NUMBER

VOLUME XII

ADMINISTRATIVE CHANGES

Above are President R. Franklin Thompson and new Head Football Coach John P. Heinrick scanning the contract to which the new coach had just affixed his signature. On the left is a close up of the new CPS athletic head. On the right is Dr. Raymond I. Powell, who has just accepted the position of dean of men at Puget Sound.

Administration . . .

JOHN HEINRICK TAKES OVER AS CPS FOOTBALL COACH

While grain prices take a nosedive, the athletic stock at the College of Puget Sound is on the upswing. John P. Heinrich, famous high school coach and popular sports figure of the northwest is now the head football coach and director of athletics in the Logger set up.

Heinrich took over the reins left untended for several weeks after Frank Patrick resigned in early December. For nearly a month after Patrick's resignation things were in the air as to who the new football coach would be. On December 22 President Thompson announced to the press that Heinrich had been appointed as director of athletics and head of the physical education department. The grid coaching job would be part of the new duties.

Dr. Powell Appointed Dean of Men

Dr. Raymond L. Powell, formerly head of the education department here at the college, now holds the position as Dean of Men.

The appointment was made by Dr. Thompson during the Christmas holidays. The position of dean of men is a new one at Puget Sound. In years past Dr. Register has handled both dean of the academic school tasks and the problems of the men. He will now be known as the dean of the college.

The new appointment brings the number of deans to three. The new dean will remain as head of the education department.

Dr. Powell took up his duties immediately, which deals with housing employment and other activities of the men of the college.

The new dean was head of the education department before the war. After 38 months of military service he returned to the campus and his old job.

With the enrollment of men higher than it has ever been in the history of the school the dean of men's office has taken on the proportions of a large university.

Dr. Powell was graduated from Coe College and received his master's and doctor's degrees from the University of Iowa. In the early 30's he was head of the education and psychology department at Parsons College, Fairfield, Ia.

"Speaking for myself and the board of trustees, I am happy that John has accepted the added duties at the college," Dr. Thompson said in his announcement. "I need make no statements as to our regard for his ability as a coach and his influence on young men—his record speaks for itself."

Coach John issued a statement at the same time expressing satisfaction with all the arrangements, but would not say anything concerning future grid plans of the Loggers. He intimated that the basketball season was the thing of most importance at the moment.

Heinrich's statement follows:

"I am very happy to accept the positions of football coach and director of athletics and physical education at the college. My association with President Thompson, the faculty, and students and the athletes have been of the highest order and I greatly appreciate their combined efforts in promoting, supporting and participating in the athletic program.

"I am fully aware that there are numerous problems to solve in any new position and that it will take several years to establish a well organized football program.

"At present we are in the middle of a very difficult basketball schedule and the players and myself are going to do the utmost possible to make it a successful season.

"As soon as the basketball season is concluded I will start working on plans for the 1948 football campaign and will do everything within my power toward developing a representative football squad for the college."

In 1945 John combined his duties as football coach at Stadium High School with that of coaching the post war Logger basketball squad. This is his third year as cage mentor.

He resigned his position in the Tacoma Public School system in the fall of 1947, and came to the college as an instructor in PE and the basketball coach.

Puget Sound Joins New Conference

After nearly 24 years as a charter member of the Northwest Conference, the College of Puget Sound Athletic Department, with the consent of all concerned, has thrown their lot with the newly formed Evergreen Inter-collegiate Conference.

The new Evergreen Conference will be formed of colleges within the state of Washington. Puget Sound, Pacific Lutheran, Western Washington College of Education, Eastern Washington College of Education, Whitworth College and St. Martin's College are the charter members of the new set up. Gonzaga, Seattle College and Seattle Pacific College indicated interest in the new loop, but are unable to join at the present time, as membership in the conference hinges on being able to field teams in the four major sports.

Every college in the state was invited to attend the meeting in Yakima on February 17 to form the new conference. All schools were represented except Whitman College, who are unable to join at the present time.

Lack of interest and wide geographical area of the old Northwest Conference were the main reasons for the Logger's change of scenery. With the new set up entirely within the state of Washington local interest and traveling facilities will be greatly improved.

For the college it will mean a change in eligibility rules and other regulations. It was also agreed between PLC and CPS to play each other two football games a season, the first being a King's X affair with the final tussle counting in the league standings and determining possession of the City Championship Trophy—the Totem Pole.

Clifford Olson, of PLC was elected president for the first year. Graham Dressler, Eastern Washington designated vice president, and Dick Smith, College of Puget Sound will handle the secretarial chores.

The new league goes into operation next fall. The football schedule has been drawn up and is printed in the sports section of this issue.

New Men's Dorm Named For Dr. E. H. Todd

Men living on the campus are now firmly entrenched in their new home, Edward H. Todd Hall—the new men's residence hall.

The out of town boys lived in temporary facilities in South Hall and the men's gymnasium last fall, but on returning to school after the Christmas holidays, the college presented some 116 men with their new home.

Most of the men residing in the hall are freshmen, and have received the nickname the "Todd Toddlers" from other quarters of the campus, but nevertheless the inhabitants of the new building are proud of their new abode, and will show it off at the drop of a chapeau.

"They can say what they want to about us 'Toddlers,' but I can lay in the sack until five minutes to eight and still get up and make an eight o'clock class, that's just a little better than anyone living off the campus can do," explained one of the dorm boys.

In the very near future the college administration is planning a formal opening, reception, or housewarming to show the alumni and the general public the latest in men's residence halls. The affair will be as soon as possible. Just to prepare one for the trip, here are a few things to look for.

The building rises three stories above the ground, but the lower floor, or basement if you will, really makes it a four-floor building.

On the first floor is the beautiful entrance hall, which catches one's eye immediately on entering the building. This main floor has 10 double rooms. The housemother's apartment is also located here.

Mrs. Lottie Peterson is the housemother, and having sons of her own she is well qualified for the position. The boys call her their "away from home mother," and are already well acquainted with her as she has held a position in the Student Union Building before taking over the job in Todd Hall.

On the main floor is the beautiful lounge, replete with modern furnishings and a huge fireplace. The Women's College League, a very active organization which furnished Anderson Hall, is responsible for the furnishing of the lounge. Mrs. Schneider, Mrs. Tom Porrs and Mrs. R. F. Thompson have spent many hours selecting the furnishings for the hall.

The second and third floors are strictly for the men. Each floor has 14 double rooms and one single. On the second is the housemaster, or proctor's quarters. On the third is the guest suite. These two,

NEW MEN'S DORM

The upper photo shows the new Todd Hall on the left. This shot is to show where it is situated in relation to the other buildings on the campus. That is Howarth Hall on the right, and the south end of Jones Hall in the middle. The lower is a picture of Dr. Edward H. Todd, President Emeritus, laying the cornerstone of the new building. Board of Trustee Members in the picture are from left to right in the foreground, Dick Wasson, President Thompson, W. W. Kilworth and Dr. Todd.

along with the housemother's apartment, are equipped with complete facilities for cooking. The apartment on the third floor is to be used for visiting dignitaries, a suite the President of the United States would be proud to stay in, even though it hasn't a back porch.

On the lower floor, or basement, are the dormitory rooms. There are two 12-men rooms and two 10-men rooms. Down here is a large study room, equipped with the most modern lighting facilities. A large recreation room, complete with piano, is set up for the boys to relax a little and entertain their guests.

The gem on this floor, however, is the laundry room. This is equipped with a

laundral unit. The boys can wash their own clothes for two bits, just as easy as putting a nickel in a juke box. There is strong suspicion floating around that some of the boys are taking in washing, as the machine showed a profit the first month of operation.

Todd Hall is built to house 122 men. At present there are 116 men living in the hall. There is already a long list of applicants for entrance in the fall of 1948.

The Board of Trustees decided to name the building Edward H. Todd Hall—a living tribute to a living man who has done so much for the College of Puget Sound.

Alumni...

PHILO'S REUNION

The above photo shows the Philomatheans at their reunion dinner at Homecoming. The lower photo shows the Speaker's table at the same banquet. Left to right: Prof. Slater, Mrs. Marsh, Dr. Arthur L. Marsh, Mrs. William Milligan, Dr. Milligan, the Toastmaster of the occasion, Dr. Edw. H. Todd, Mrs. Thompson, Dr. R. Franklin Thompson, Dr. Williston, Mrs. Seward, and Dr. Seward.

Charter Members In Attendance

Homecoming festivities held last October had as one of its highlights the first annual Philomathean reunion. Due to production difficulties the ALUMNUS has been thwarted in its attempts to relate the who, what and whereabouts of the affair.

The banquet was held at the Towers. (For Philos long departed from Tacoma,

the Towers is a restaurant with banquet rooms, not the power line support on the Narrows). Nearly 100 Philos attended the dinner. They came from all over the state, and the evening was spent in reminiscing and brushing up on the old songs and yells.

The reunion was engineered by a committee of Mr. and Mrs. Paul Granlund, Ruth Hallen, Marion J. Myers, Mrs. Raymond Seward and Mrs. Lester Wehmhoff. These people started early last fall contacting old Philos, and after several months of hard work saw their labor

materialize into one of the best reunions of old grads ever held.

Dr. James E. Milligan, now of Everett acted as toastmaster. Dr. Arthur L. Marsh, one-time adviser of the group, talked about Philo traditions. Dr. Frank G. Williston, now at the University of Washington, covered Philo reminiscences very thoroughly. Philos who have become famous, and those making history were duly noted in a short address by Prof. James R. Slater. A short session of group singing ended the program, but a discussion of memories and CPS in general went on for hours afterwards.

President Emeritus Todd, Dr. and Mrs. Thompson were special guests at the function.

Either through underhanded methods or using marriage as an excuse, several Amphictyons attended. They enjoyed themselves in the rival camp, and the grapevine has it now that they are out to have a reunion this June that will top the Philos. Looks as if the two old rival literary societies are at it again.

Charter members of the old society were well represented. Miss Zaidee Bonney, Miss Ethel M. Cotter, Mr. Raymond E. Cook, Dr. Arthur L. Marsh, Dr. James Milligan, Mr. Charles Olson, and Miss Lena Wilson were a few of the original members present.

Rev. and Mrs. Hugh William (Winifred Williams) listed Puerto Rico on their reservation as home, making them the ones the greatest distance from home. Mr. and Mrs. Lorin D. Lindstrom came from Sterling, Colorado, to attend.

Here is a list of those present at the dinner, and you old Philos get busy and see if you can pick them out in the accompanying picture.

Those present were Messrs. and Mesdames Helgey Anderson Bryan (Katie Burton), Charles Brady, D. C. Bowman, Crippen (Betty Pugh), Driskell (Marion Harding), Anton Erp (Thelma Hastings), Roger Elder, John Fairbanks (Annie Pedersen), Paul Granlund, Franklin Johnson, E. J. Lawson, Guy Kennard, Kirby (Mabel Meiers), Lyle Lemley, Guy McWilliams, Ray Morris, Bert Paul (Mary L. Baston), R. F. Preston (Ruth Vigus), Charles Rae (Gladys Harding), P. F. Stevens (Eileen Rader), L. R. Stebbins (Naomi Van Arysdale), Lester Wehmhoff (Mildred Pollom), Ray Winden (Josie Boardman).

Misses Grace Bowen, Ada May Gartrell, Ruth Hallen, Norma Judd, Helen Lief, Grace McGandy, Marion Myers also attended.

Messrs. W. H. Braun, Raymond E. Cook, Charles Olson, Arthur Slater, James R. Slater, Ralph B. Weaver and Mesdames Messie Robert Warne, Amy Snell Wilson,

Continued on Page 19

Science . . .

CPS Scientist Explains Theory

In the past months there has been a lot of talk about artificial rain. Mad scientists and the such who can go around and make it rain any time have been the topic of conversation. Dr. Robert Sprenger, professor in the chemistry department here at the college and alumnus of CPS, is one of the leading gents in this field of rain-making. He has developed a gismo, a silver iodide vapor generator, which is in the process of being tested now. We approached him, and explained very frankly that we didn't know from straight up on this whole deal, and we felt sure that there were lots of people in the same boat. The doctor is a modest gent as one will see when reading his explanations below.

By DR. ROBERT D. SPRENGER

The sun's evaporation of moisture from a body of water is the first step toward rainfall. Normally there are small foreign particles in the atmosphere such as smoke, which act as nuclei upon which the water vapor can condense. Such condensation results in formation of clouds.

The transformation of clouds into rain probably involves a variety of processes, none of which is too clearly known. However, it is apparent that some of the droplets must grow at the expense of others to reach the size sufficient to fall out of the atmosphere as rain. With droplets of different sizes present in the atmosphere the large drops tend to grow at the expense of the small drops.

One explanation for the formation of rain or snow involves the formation of ice nuclei in the atmosphere. Small particles are assumed to be present which permit water vapor to change directly to ice without passing through the liquid state, a common process called sublimation, occurring at low temperature. Water droplets, however, do not necessarily freeze at the freezing point of water, in some cases remaining liquid at 40 degrees below zero. The fall of ice particles through a region of such super-cooled droplets could result in their growth at the expense of the droplets. Continued growth could result in their falling to earth, as snow, ice, or rain, depending on temperature or other conditions.

Through laboratory experiments General Electric scientists found that ice nuclei would develop spontaneously at a temperature of 31 degrees below zero Fahrenheit. This knowledge prompted an attempt to produce large groups of ice nuclei in the atmosphere by dropping dry ice pellets from a plane, which resulted in a snow fall.

CPS RAINMAKER

Shown above is Dr. Robert Sprenger, installing his rain-making machine in an airplane before a test flight.

It appears that these pellets of dry ice produce very low temperatures causing small ice crystals to form in layers of air close to the pellets. With these crystals in the midst of a cloud of super-cooled droplets, there is rapid growth at the expense of the droplets and the formation of precipitation.

Fortunately the process is not confined to the layers of air surrounding the dry ice pellets or the method would not be practical. In the conversion of water to ice, heat is liberated which results in turbulence within the cloud and in spreading of the effect through a large volume of the cloud. A small amount of "seeding" may thus result in a considerable amount of precipitation.

Another method of seeding the clouds has been investigated by Irving Langmuir and Vincent Schafer, G. E. scientists. With the idea of using more permanent nuclei they sought a substance with a crystalline structure as close as possible to that of ice. One such substance discovered is silver iodide. As anticipated, it was found that when finely divided particles of silver iodide, in the form of an invisible vapor, were placed in contact with suitably cooled water vapor, precipitation resulted. These nuclei would be more permanent in the sense that they would not melt or

evaporate. Furthermore, because of the small size and resultant lightness of the particles they might be used at the base of clouds to be carried upward into the cloud to effect precipitation.

A silver iodide vapor generator has been constructed at CPS for use in an airplane and is now in the process of being tested in the Prosser area. This is apparently the first time that the use of silver iodide vapor has been tried in a plane under natural conditions. Silver iodide method is cheaper than dry ice method.

A silver iodide vapor generator has been developed at the College of Puget Sound for possible application in the production of man-made snow or rain.

Developed at the request of G. A. Sampson, '40, a wheat broker, and C. Chipman, flyer, of Prosser, Washington, it is hoped that semi-dry wheat growing areas in eastern Washington may be benefited by artificially releasing rain from moisture laden clouds.

In the winter of 1946 scientists of the General Electric Company first discovered that sprinkling dry ice pellets in a properly cooled cloud would produce a snow fall. Later rain was produced by the same process under slightly different conditions and it is now apparent that a mechanism for the artificial release of moisture from clouds has been discovered.

Campus . . .

LONG, LONG WAY FROM HOME

Shown above are a group of the foreign students on the CPS campus; reading from left to right are: Seated, John Rafto, Norway; Jacqueline Smith, France; Waldo Davila, Bolivia; Eunice Williams, England; Marie Prokopec, Poland; Kjell Aarnes, Norway. Standing, Rafid Askari, Arabia, and Rafael Mas, Puerto Rico.

If you chance to come back to CPS this year (and we hope you do) and make some inquiry at the Bursar's office, you may be greeted by an English accent in the person of Miss Eunice Williams. (She pronounces it "You-nee-see," in case you wondered, but the other name is standard stuff.) She is one of the many students from foreign countries that has made CPS a college home in the U. S. A. Rafid Askari, from Arabia, is one of the most intriguing of the foreign students. He is studying history and political science. Rafid is enthusiastic about the United States, and says that many of his fellow-countrymen wish to come over here to study.

Jacqueline Smith is another foreigner who is at CPS. Jackie comes from Paris, France, and doesn't think that the movies have exaggerated our country at all. She is also of the opinion that it is wonderful that we have so little homework over here. (We still have our own prejudiced opinions on that one question!) Li-Shen Liu is a 22-year-old Chinese student who came to CPS to finish his studies in biology. Li-Shen has a good opinion of America, too, except for the food situation. He prefers food cooked the way it

was done before the war in China to our American style. He states that one of his greatest thrills is to see the fully stocked grocery stores in America.

Some of the most enthusiastic skiers on the campus are the four Norwegian students who are pursuing their studies on the CPS campus. Signe Denstad, Mr. and Mrs. Kjell Aarnes, and John Rafto are all far from their native fjords. They all agree that skiing at Mt. Rainier is all that they expected when they came to the Pacific Northwest. Marie Prokopec is a student who comes to us from Poland, by way of Russia and the Middle East. Marie (we all pronounce it "Mary"), is taking out her citizenship papers so that she may eventually become an American citizen. Marie is one of the most widely traveled students on the campus.

With Graham Naylor from the Panama Canal Zone, Fred Carter from Hawaii, Victorino Reyes from the Philippines, Waldo Davila from La Paz, Bolivia, Valeria Dever from British Columbia, and Koula Xanthakou Davis from Greece, our campus is really taking on a cosmopolitan atmosphere. (Speaking of Greece, did you know that we have recently added Greek to our curriculum? It is being taught here

CPS PROFESSOR VERY BUSY AUTHOR

Prof. Murray Morgan of the CPS Journalism department has recently had published his sixth book, "Bridge to Russia." Prof. Morgan's other publications include: "The Viewless Winds," "Confederate Raider," "Fax," and another book being revised is a satire on the recent best-seller by another Puget Sound author, Betty MacDonald, author of "The Egg and I."

Prof. Morgan is assisted in his research work for his volumes by his wife, the former Rosa Northcutt, who does much of his fact-finding for his current volumes. Prof. Morgan is well able to do this journalistic work, since his experience includes working for the New York Herald-Tribune, Time Magazine, and the Columbia Broadcasting System.

DR. CHAPMAN HAS WORK PUBLISHED

January issue of the *Modern Language Journal* contains an article written by Dr. Coolidge O. Chapman, Professor of English at the College of Puget Sound. Dr. Chapman, whose specialty is Old and Middle English, is widely recognized as an outstanding authority on Chaucer and other medieval literature. The article in the *Modern Language Journal* deals with an intricate point of history in the ancient story of *Sir Gawain and the Green Knight*, one of the widest known of the Middle English romances.

JOINS CPS FACULTY

Announcement has been made of the appointment of Miss Jean Button, '44, to the position of Assistant Dean of Women and Assistant to the Registrar. Miss Button graduated from CPS in '44 and went on to Indiana University to get her master's degree in personnel work and counseling. Her new duties will include assisting Mrs. Lyle Ford Drushel, the Dean of Women, and assisting Registrar Dick Smith, as well as counseling students on the CPS campus.

While attending CPS, Jean was active in campus affairs. She was a member of SPURS, won four awards for women's athletics, a member of the Ski Club and vice-president of Delta Alpha Gamma sorority.

for the first time in many years, and is proving to be a popular course, despite initial difficulties!) When you walk from Jones Hall to the SUB now, you can expect to hear almost any language—spoken with a beginner's stutter, or the fluency of a native.

Music . . .

PROF. CLYDE KEUTZER
Heads Department

PROF. JOHN O'CONNOR
Band to Tour

CPS Music Department Is Accredited by National Heads

The College of Puget Sound has recently become the second institution of higher learning in the state whose music department is accredited as an associate member of the National Association of Schools of Music. Whitman College is the only other institution in the state whose music department has met the rigid requirements necessary to becoming an associate member.

It has been an open secret around the campus that scouts were here to see whether or not accreditation was possible, but the big announcement came in the first part of January. Prof. Clyde Keutzer is the head of the music department; and under his able leadership, it has expanded from a staff of 2 professors and 30 students to the present staff of 13 professors and 500 students.

The National Association of the Schools of Music will examine the CPS music department again in two years. If, at that time, we still meet their requirements, we will become an institutional member—an accredited school of music. There are very few of these accredited schools in the U. S., some of the better known ones being the Juillard School of Music and the Eastman School of Music.

Prof. Keutzer states that he expects to add two more staff members next year, but does not divulge the names of the two newcomers. Rumors have it that one of the new professors is a man of international reputation in music circles, and one of the most famous orchestral music conductors of the U. S. With such added faculty, and the retention of our present top-flight staff, it would seem that the next two years will see CPS right along with the accredited schools of music in the nation. Could be this is the reason for the mile-wide smile on Prof. (Butch) Keutzer's face these days!

This accreditation deal will make it possible for CPS to give its students a Bachelor of Music degree, after completion of requirements.

Music, music, everywhere—and not a bit too much, either! CPS is really going all out for music this year. Faculty members and students are giving concerts right and left, and plans are buzzing for additional musical entertainments throughout the year. The increased enrollment has made possible a crack marching band, as well as a tip-top group of Adelphians this year. The new Tacoma Symphony, under the direction of CPS Professor Raymond Vaught, has a total of 65 member this year. The Workshop Band, one of three of its kind in the United States, has a total membership of 17 members, with a "second team" all ready to step into place when graduation will vacate some of the chairs.

An orchestra of 30 pieces, a chorus from the Adelphian Concert Choir, and the Men's Glee Club will supplement the lead roles in the forthcoming presentation of "The Pirates of Penzance" which will be presented under the direction of Professor Clyde Keutzer. The costumes and scenery for this operetta could not be obtained locally, so will be shipped from the east for the performance at Jason Lee auditorium on May 14 and 15. Major roles will

be taken by Helen Traub, Joan Storhow, Lynn Mould, Clara Bowe, Howard Hitchcock, Marshall Campbell, Arthur Knight and James Ernst.

The first concert of the new Tacoma Symphony presented at Jones Hall on November 26 was a complete success. An original composition by Leroy Ostransky, director of the Workshop Band, entitled "Rhapsody for Saxophone and Orchestra" was presented with Richard Henderson as featured soloist. Other numbers on the program included: "Tocatta," by Frescobaldi; "Symphony in B Minor," by Schubert; "The Last Spring," by Grieg; "Perpetual Motion," by Strauss; "Adagio," from the Romantic Symphony by Hanson, and "Marche Slav," by Tchaikowski.

The Washington Music Educators' convention and Regional Clinic was held in Tacoma on January 9 and 10, with CPS as the host. Clyde Keutzer was the local chairman, and John O'Connor and Raymond Vaught of the CPS faculty assisted him. About 300 music educators from Washington, Oregon, Idaho and Montana were present.

Dr. Theodore Kratt, Dean of the School of Music at the University of Oregon and Director of Music for the Oregon State System of Higher Education, was on the campus in October to conduct an examination of the CPS music department for possible entrance to the National Association of Schools of Music. Dr. Kratt was formerly director of music for the Shrivensham American University in England. Dr. Kratt commented, "The enthusiasm and interest in music at the College of Puget Sound is excellent."

The CPS concert band, under the direction of Professor John O'Connor, is planning an extensive tour through eastern Washington this coming spring. Professor O'Connor states that his organization is one of the best in the Northwest, and that the entire band will be included in the trip. The Workshop Band will also take the tour, and will provide part of the program. The present plan is to present a program of half classical music by the concert band, and half modern music by the Workshop organization. Leroy Ostransky will wield the baton for the latter.

Be sure to check the following schedule so that you may attend the concerts when they are nearest your home town: March 8, 10 a. m., Enumclaw High School; March 8, 8 p. m., Wenatchee High School; March 9, 10 a. m., Ephrata High School; March 9, 2:45 p. m., Moses Lake High School; March 9, 8 p. m., Ritzville High School; March 10, 10 a. m., Connell High School; March 10, 2:45 p. m., Pasco High School; March 10, 8 p. m., Prosser High School; March 11, 11 a. m., Yakima High.

"Men of the Year" Selections Dominated by CPS Luminaries

In the Pacific Northwest this past year a terrific rash of "Men of the Year" selections were made. College of Puget Sound walked off with a good share of the laurels.

Head Coach John Heinrick was named the Man of the Year in Tacoma athletics for the past year.

This is the award presented to the man who has done most for sports in Tacoma during the year. It is presented annually by the Tacoma Athletic Commission.

President Howard Smith, of the TAC, in making the award cited how Coach Heinrick had taken a group of boys from all over the state and in a few days whipped them into a smooth running football team. His victory over the All-Seattle aggregation gained him wide recognition as a coach. Then, too, the committee pointed out, Heinrick's city popularity is extensive.

This is the second time Coach Heinrick has won the award.

The Tacoma Junior Chamber of Commerce named Tacoma's Young Man of the Year. It was John W. Slipp, director of the aquarium and park naturalist for the metropolitan park board. John is an alumnus of Puget Sound.

He was presented a distinguished service award key by Leo A. McGavick, chairman of the board of judges.

John went to work for the park board in 1945 and in a little more than two years transformed the Point Defiance aquarium into one of the top educational and interest spots in Tacoma.

More than 80,000 persons visited the aquarium last year.

His interests are not only centered at the park, as he travels throughout the city during the year teaching wild life and nature recreation in the park commission's education program.

At the present time John is on a short leave from the park board, and is doing graduate work at the University of Washington. He is married and has two children.

He was graduated from the college in 1940 where he majored in biology.

Heinrick (Con't.)

John has coached and handled men for nearly 20 years; first at St. Leos, then Bellarmine High, both of Tacoma, and 12 seasons as football coach at Stadium High.

At Stadium his grid squads have won seven city crowns and tied with Lincoln for two. His elevens also garnered three Cross-State league titles. Last summer he was selected to coach an All-State prep football squad, and as a fitting climax to his high school coaching career, his boys were victorious over the All-Seattle outfit, before some 20,000 fans in the University of Washington stadium.

Coach Heinrick is a local boy who has made good. He graduated from Stadium High School, where he found time to star in basketball. He attended Ellensburg Normal, and received his degree from the University of Washington in 1926.

In Everett, Washington, they had a man of the year in sports, too. And Bill "Grumpy" McLaughlin, former CPS grid great walked off with the honors.

Bill didn't do much last year, but lead his Everett Junior College football team through an undefeated season. Then to top it off took on the best JC team from California, and his boys whipped them, too.

"Grumpy" is Director of Athletics at Everett JC, and is head football and basketball coach.

At the present time his basketball squad is in the thick of the race for the state junior college title.

He is assisted by another CPS alum, Bill Madden, '46, who went to Everett as McLaughlin's aide last fall.

GRETCHEN FRASER, '39, OLYMPIC HEROINE

Gretchen Kunigk Fraser (Mrs. Donald W. Fraser), '39 CPS student, has flashed into international headlines. Mrs. Fraser was the first United States entrant in the winter Olympics to ever rate a first place trophy. She was also the second place winner in the Alpine combination in the same sports event. Her victory in the women's special slalom boosted the United States team into sixth place in the Olympic games.

While at CPS, Mrs. Fraser was a sophomore May duchess, a very active member of the CPS Ski Club and a member of the Kappa Sigma Theta sorority. In 1941, Mrs. Fraser took the national ski title in Aspen, Colorado, in the women's division. She also has been the holder of the Pacific Northwest crown, in skiing.

New Men's Dorm (Con't.)

The boys have their own government of the hall, and just lately the boys elected John Sampson, of Spokane, as their president; Richard Haywood of Seattle, vice president; Kenneth Haywood, of Lakewood, as secretary; Charles Morrison, of Zillah, as treasurer.

IRC MEMBERS ADOPT FRENCH ORPHANAGE

By BILL LEE

IRC Publicity Chairman

In the fall of 1947 the International Relations Club decided to attempt to organize a school-wide program to adopt a French war orphanage. Through Mr. William McNamara, the war orphanage, "De Bon Secours" in Paris was contacted and investigated. There are 35 boys presently in the institution, all orphans due to direct effects of the late hostilities. As evidence of their need of help we have a letter from a CPS alumnus, Mr. William T. Armstrong, who is currently residing in Paris. Speaking of the dormitory in which the children sleep, Mr. Armstrong writes, "The room is not heated—all of the beds have a mattress, one sheet and a blanket. They do not have enough food, not enough clothing, not enough heat, not enough money. As for toys—a few building blocks—reserved for little tots kept in bed because of colds. There were about a dozen blocks and five invalids! One little boy played with them until it was another's turn."

Assisting the Student Christian Association in the milk drive for the Christmas Ship and the Christmas holidays delayed the program until 1948. In January the program was offered to the students by the IRC and was overwhelmingly accepted, a total of \$874.00 being pledged to adopt the orphanage.

The Inter-Collegiate Knights generously assumed the burden of actual collection at school. A total of \$866.00 has been collected. The money is used to buy CARE packages, and the first 25 packages are already on their way. The remainder of the sum will be divided equally for CARE packages for each of the three remaining winter months. Anyone wishing to contribute to this campaign may do so by sending checks, or money orders, made out to College of Puget Sound, with the specific provision that it is to be used for the orphanage program.

Bill Stivers

Logger Hoopsters Are Conference Champs

The College of Puget Sound basketball team is bowing out of the Northwest Conference as the champions. They wrapped up the championship in their last game with Willamette in Salem. The Loggers had a conference record of 12 wins and two losses, which put them a good two games ahead of their nearest rival.

It was a battle down to the final game with Willamette. University of British Columbia and the Salem boys were contenders. The Loggers disposed of UBC first on the home court and then handled Willamette as mentioned before.

Through the course of the season, the Loggers lost one game to UBC in Vancouver, and their second conference loss was to Lewis and Clark, the final game of the season after the title was cinched. The Frosh played that last game, as the varsity was resting up for a playoff with Gonzaga.

Other than these two conference defeats the Maroon and White lost to the University of Washington, Portland University, Pacific Lutheran and Gonzaga.

The Loggers defeated Pacific Lutheran three times, however, in the course of the yearly four game series. This now makes it seven out of eight in the past two seasons.

CPS 1948 GRID SCHED ANNOUNCED

Out of the meeting in Yakima, February 17, came not only a new Evergreen Conference, but this nine-game football schedule for the Loggers next fall:

- Sept. 24—Pacific Lutheran at Tacoma.
 - Oct. 2—San Jose at San Jose.
 - Oct. 9—*Whitworth at Tacoma.
 - Oct. 16—*St. Martin's at Tacoma.
 - Oct. 23—Willamette at Salem.
 - Oct. 30—*Eastern Washington at Cheney.
 - Nov. 6—*Central Washington at Tacoma.
 - Nov. 13—*Western Washington at Bellingham.
 - Nov. 20—*Pacific Lutheran at Tacoma.
- *Indicates Evergreen Conference games.

Coach John Heinrick featured speed this year with the above pictured speed merchants spearheading the attack. Bob Angeline was the team high scorer and handled one of the guard spots. Bill Stivers, the whiz kid, usually started at the other guard, with Len Sawyer and Don Heselwood the first line reserves.

Big Bob Rinker, Dick Brown and Alvie Danielson handled the pivot position. This was supposed to have been the Loggers weak spot after the loss of Ron Button to WSC, but Rinker stepped in and made the fans forget Button.

Up front on the forward line, Captain Bob Fincham and Don Hoff kept things running smoothly. Bob Sater and Dick Burrows took care of the reserve duties.

The title is the second hoop bunting brought home by a CPS squad. The first came in 1940.

ZAGS KNOCK CPS OUT OF PLAY OFF

As we go to press news comes in from Ellensburg that the Loggers dropped their game to Gonzaga, 46-42. This loss puts them out of the running for a berth in the National Tournament to be held in Kansas City. PLC and Gonzaga will meet to determine the representative from this state.

Every year during the month of March the small colleges of the nation send their best representative basketball teams to Kansas City, and in the ensuing four-day Donnybrook, a national champion is decided.

This tournament is sponsored by the National Association of Intercollegiate Basketball.

The country is divided into districts and the best team of each district is picked by a board of coaches and officials. The choice is based upon the team's record over the season, and in some districts the issue is decided through play off tournaments.

The powers to be who pick the representative from the state of Washington are: Perry Mitchell, well known basketball official and mayor of Renton, Washington; Hec Edmundson, former basketball coach at the University of Washington, and Red Reese, basketball coach at Eastern Washington College of Education.

KAPPA SIGMA FIRST NATIONAL ON CPS CAMPUS

There are no more Zetes on the campus, they are all Kappa Sigs now. On February 13 and 14 the local chapter of Sigma Zeta Epsilon went through initiation ceremonies, conducted by teams from other Kappa Sigma chapters in the north-west, which culminated in forming Epsilon Lambda chapter of the national fraternity Kappa Sigma. It is the first national chapter to be installed on the campus.

The initiation of approximately 75 members of the Zetes marks the end of two years of effort on the part of the local chapter and Tacoma Alumni of Kappa Sigma to bring to the CPS campus the national fraternity, which was founded at the University of Virginia in 1869.

Teams from University of Washington, Washington State College, Universities of Oregon, Idaho and British Columbia and Oregon State College participated in the ceremonies.

After the installation old and new members of the first national fraternity on the campus joined in a banquet at the Towers. D. H. Swenson, an alumnus of University of Washington, is president of the Tacoma alumni of Kappa Sigma which has 112 undergraduate chapters at outstanding universities and colleges in the United States and Canada.

As a local, the Sigma Zeta Epsilon received its charter from the college in 1922. In 1924 Professor F. A. McMillan became adviser and has been in the same job until the eve of going national. Professor Mac had to step aside due to his affiliation with another national fraternity. Dr. Robert D. Sprenger, alumnus of CPS and former Zete, is the new adviser.

In 1926 the Zetes purchased their house—1702 North Alder. During the war years things came to a complete halt, but after the war under the direction of James Van Camp the local group was rejuvenated. The organization began at this time its work toward petitioning Kappa Sigma.

Now under the presidency of Warren "Bud" Greedy, the Zetes have reached their goal and become the first national fraternity on the Logger campus.

Alumni of the local group are eligible to membership in the national if they choose to enter. Those alumni now residing out of town are asked to direct all requests for information to Bud Greedy at the local Kappa Sigma house.

The fraternity house will remain in the possession of the Sigma Zeta Epsilon alumni and will be rented to the chapter.

CONDUCTED BY BONNIE HEINTZ

We thought it was something when our GI alumni were scattered all over the face of the continent, and heading for various foreign ports. Now we find that our alumni are making a habit of traveling to all parts of the globe.

For example, HELEN PAT BEEM is at Syracuse University, at Syracuse, N. Y. She is taking a special course in personnel training. Pat was a hostess for Pan American Airlines for a time, but decided in favor of more schooling . . . GRETCHEN KUNIGK FRASER is a member of the American Olympic Ski Team, which sailed for St. Moritz, Switzerland, December 3. Gretchen also plans to run in the famous "Kadahaar" Ski tournament in Norway late in February, while she is on the continent. While still in Norway, Gretchen will have opportunity to visit all her relatives who still live there . . . JANIS EISENHOWER CAUSIN, and husband, William, have recently returned from Ann Arbor, Michigan. Bill was planning to take his masters degree there (in chemistry, naturally), but the housing situation was too tough . . . MARGARET HEUSTON KABLE is taking primary school training this fall at PLC . . .

FRANCIS COLE is teaching Spanish and Art at the George Washington Junior High in Seattle this year. That sounds like a full schedule to us . . . JEWELL SORENSON '36, is now the director of the service department of HOLIDAY magazine. Congratulations, Jewell, the recent issue on Washington state was really nice going . . . ED HUNGERFORD, a '47 graduate, is now attending Cornell University. Ed is expecting to receive his Master's in English, with a view toward being an English teacher in the future. Enthusiastic reports drift this way from him about Cornell, and the "lit" courses he is studying . . . J. EDWARD TRIMBLE, '37, is starting his fifth year at Clover Park School this fall. Ed now has two boys, Richard, 5, and Ronald, 3. Ed is director of audio-visual education at Clover Park . . .

WILLIAM ARMSTRONG, one of our alumni who served as an interpreter in France during the war, is taking a year's study at the University of Paris. Bill majored in economics and French while at CPS. He was married to Raymond Vitali, of Paris, on September 20th; sounds like good interpreting! JAMES L. BUSEY, '40, has received his master's degree from Ohio State College . . . RUTH DeSPAIN, '36, is teaching at Shelton High School . . . Mrs. K. A. Swift (JESSIE O. WILLISON, '40), is living at 247 Don Casados in Santa Fe, N. M. Her sister, Mrs. A. W. Baker (HELEN WILLISON, '37), is at 740 Third Street, Petaluma, Calif. The post card we received didn't give any further information, so we hope they will write us a long letter soon . . . Mrs. E. W. Kirkpatrick (MARION MARGARET GYNN, '27), is now living in Portland, Oregon. Marion has moved there

In Memoriam

Miss Audrey Dean Albert, member of the English Club and Alpha Beta Upsilon while at CPS, and Stewart Jr. High faculty member, class of '29 at CPS.

Dr. George Swann Innis, oldest alumni of Ohio Wesleyan College, came to CPS as staff member 1922, died at 97.

Edwin Harold Bowers, '35, member of Delta Pi Omicron, while at CPS.

from Puyallup. (Any of you Portland Alumni, her address is 2800 Washington St.) . . . VIRGINIA MEKKES is now at the American Embassy in London, right on the world-famous Grovesner Square. She writes that she has been sightseeing in Parliament and the Law Courts. Drs. Jaeger and Chapman were gratified to know that she has also been down to Stratford-on-Avon, to see Bill Shakespeare's home town. She sent word that her latest plan was to spend Thanksgiving in Paris. Turkey ala DeGaulle, we suppose! . . .

CLARENCE KEATING, JR., '39, was recently elected Mayor of Seward, Alaska. While at CPS, Clarence was active in Sigma Zeta Epsilon, Debate Club, Inter-Fraternity Council, Letterman's Club, dramatics and journalism. That "Mayor" Keating sounds mighty good, eh Clarence? . . .

CAMPUS SENTINEL

RONALD RAU, another CPS graduate has received his doctor's degree from the California Institute of Technology. Ronald is now on the teaching staff of Princeton University, teaching in his major field of physics . . . CHUCK SWANSON and STANLEY BURKEY are now at the University of Washington going to Law School. BYRON LARSEN, is also at the University of Washington this year. Must seem like old home week when all of them get together . . . ALDO BENEDETTI, who attended CPS in '42, has recently resigned from the Navy. Aldo graduated from Annapolis some time ago . . . ESTHER MANN LUERS and family are now living in Vancouver, Wash. Hubby is the football coach there . . . JACK GRAY-BELL is in Washington, D. C., where he is studying to be a patent lawyer . . . HELEN JEAN DARLING PRICE has left for Chicago. Frank is going to Theological School there, and they plan to stay in Chicago until he finishes his studies . . . MILDRED TUMMONDS, former student of the CPS music curriculum, has recently been appointed director of music at the Sixth Avenue Baptist Church in Tacoma. Mildred studied with Hans Clemens and Edward Patjs Cornish after leaving CPS. She has been teaching music in and around the city, and teaching piano and voice at Fife school . . .

KARL BRITAIN KELLOGG, '42, received a very high honor from the American Chemical Society. He was chosen to read an article of his own composition, which was entitled "The Preparation and Properties of Perfluoromethyl Huperfluorite." Karl is now taking graduate work at the University of Washington . . . MARGARET TILLEY, '37, has made a short visit with her parents here in Tacoma. She flew from Honolulu via San Francisco, and returned to Honolulu on her way to Nanking, China. Margaret will do government work in China . . . BILL MADDEN, '42, former star Logger halfback and Zete member, is now teaching and coaching at Everett Junior College. (He got married, too, but that's in another column!)

MARIE GILSTRAP, '40, has just recently returned from a World Youth Conference in Oslo, Norway. Marie and her twin sister, Margaret, both graduated with a B. S. degree in chemistry. Marie has since become head of the laboratory staff in the Doctor's Hospital in Seattle, while Margaret is a member of the laboratory staff in the Virginia Mason Hospital, New York City . . . CAPTAIN RICHARD VIMONT, '41, who took a pre-medical course at ye old alma mater, later graduated from St. Louis University, and with an M. D. degree, no less! Dick is now the instructor of surgery at Brooks General Hospital, Fort Sam Houston, Texas . . . LOUISE KIPPER, DONNA MACINNES and MARGARET DEVOTO have joined

the staff of the Pierce County Welfare office—should be quite a gathering with all the CPS alumni down there . . . ROBERT A. TRIMBLE, '37, is with the Shell Oil Development Staff, near Berkeley, California . . . LOIS LYNCH, '47, has a mighty interesting job down at the Y.M.B.C. in Tacoma . . .

RON BUTTON, who was center on last year's basketball team, has decided to major in engineering at W. S. C. . . . INEZ DOHERTY MYER sailed for Japan this fall to join her husband, Lt. Myrl Myer, who is stationed there . . . TOM CROSS, who did graduate work at CPS in 46-47, is now a director in the recreational department of the Tacoma Park Board. Tom really has been doing a swell job this winter, judging from reports that have filtered in . . . Of the class of '47, ELIZABETH ANDERBERG, ELOISE CRUVER, GEORGE MILLER, DOROTHEA MEEK, MARTHAJEAN PACKARD and BARBARA REED are taking their fifth year at CPS . . . ROBERT McNARY, '47, is working for the Eastman Kodak Company in Chicago . . . JEAN, RUTH and JIM ALBERTSON were recently over to visit sister Barbara who came to CPS this fall . . . CAROL HAMILTON is teaching social science at Puyallup High School.

BETTY JO VAN ATTA, who now answers to the name of Mrs. Robert Mueller, is in St. Louis, Missouri. Robert is attending Washington University there . . . JACKIE MOORE really is in the money

—she's a teller at the National Bank of Washington here in Tacoma . . . MARY ROUGH, '47, is pursuing her course in Occupational Therapy at Pontiac State Hospital, Pontiac, Michigan . . . We have a note from CLYDE KINCH, '21, from Snohomish, Wash. Clyde, who has been selling Darigold products for 22 years there, was a four-year football star—1917-21—the captain of the team, and quite a man about the campus from the rumors that drift back . . . JANET ARMSTRONG HARVEY is teaching at Lincoln High in Tacoma this year . . . SHIRLEY McDONALD FOPP and husband, Martin, have gone to Switzerland. They are living with his mother at an address that sounds straight out of Grimm's Fairy Tales—Villa Eva Dorf. While they are in Switzerland, they plan to see the Olympic races at St. Moritz this year. Mrs. Clinton Cole Barnard (she was ALICE ANN CROSS, '47), and Clinton are living in Ithica, N. Y. Clinton was at CPS during his ASTP days, and after a year at the Sorbonne in Paris, he plans to finish up at Cornell . . . MR AND MRS. LAWRENCE HENDERSON, '42, (MISS MURIEL WOODS) have sailed to Portuguese West Africa. They plan to remain there for five years as missionaries . . . VIRGINIA BARKER, '47, has recently been appointed as Assistant Recreation Director at Western State Hospital at Steilacoom . . . Mrs. Harold Murphy (PEGGY DOUBEK, '46) is teaching Art in Olympia . . . News comes that BILL

Tacoma's Airport West of Fircrest

McMASTERS, '43, is living in Montana.

TOM BARKER, '43, has moved to Philadelphia. The new address is 3218 Powelton Avenue, Philadelphia 4, Penn. . . . LILLIAN THOMPSON, former Theta member, is living at Bellevue, where they have the drug store . . . Dr. and Mrs. Wandemann (HELEN RITCHIE) are living on Mercer Island. He

has been assistant professor in anesthesia at Ann Arbor, and is studying further in Seattle . . . EVELYN SWANSON STEIN is head nurse in Ward A at Tacoma General Hospital now . . . CLINTON (SPIKE) FERGUSON is attending dental school in Portland and now . . . Mr. and Mrs. Don McLean (LUCIA KISDUCAK) are living in Vancouver, Washington.

VIRGINIA DOUGHERTY CLARK and daughter, Carol, recently journeyed to Anchorage, Alaska. Mr. Clark is working with the Bureau of Internal Revenue in Anchorage . . . MARY LOU PONTON is in a fluid business, she's working for the Flett Dairy, in South Tacoma . . . RUTH PAULINE TODD ROCKWELL was a recent visitor to Tacoma. She is teaching in a Junior High School in Maryland, after receiving her Master's degree from Syracuse University. The position has a lot of responsibility, since she is setting up an experimental guidance department . . . Mr. and Mrs. Ben Korsten' Jr., (MARY LOU ERICKSON, '39) will spend Christmas in Holland this year. Holland is Mr. Korsten's home, so it will be double celebration for that family. The entire trip will cover two or three months, since they will spend some time in New York, Washington, D. C., and Paris on their journey . . . DOTTIE AND BILL CUMMINGS are in Honolulu. We hear that they have a pedigreed Irish Setter puppy, and that his pedigree is that long!

DOROTHY ANN SIMPSON WILSON and Johnny are in Boston. Rumor has it that they were lucky enough to find an apartment, and that they had enough left over to have a view over the Charles River . . . DORIS DAY SAPP and Allen are at home at 747 Wilcox in Hollywood. Seems like oodles of our grads are settling in California. They must appreciate the rainy weather . . . By devious routes, the word has gotten round that DR. GEORGIA JOHNSON OLSEN is now a medical missionary. Does anybody happen to know her present address? . . . Mr. and Mrs. George Savard (JEANNE WHITWORTH, '33), have built and are managing a winter resort. The name is "River Lodge," and it is on the Colorado River near Parker Dam, California. If any of

you Loggers wander that way, be sure to look them up. (That's free advertising. Jeanne, how about a special rate to CPS alumni and students?) . . .

WALT SEABLOOM is teaching at Kirkland this year. His wife, the former LUCILLE LUDWIG, is convalescing from a hard siege of sleeping sickness. We know that we speak for all of you when we say

that we're very happy over the news that she is progressing up the road to complete recovery . . . DOROTHY SCHWEINLER is learning all about insurance and bonds. She should have the best of instruction, too, because she is working at the Hanson-Rowland Insurance Co. in Tacoma . . .

"Baby Buggy Lane" has really been humming, not only with lullabys either! Seems as if our own alumni were out to provide the entire student body for the year 1967 single-handed. Proud mamas and papas have been keeping our phone wires hot with news of the latest arrivals—to say nothing of the grandparents of the little newcomers. We're happy indeed to hear about them, and expect to see them running around the campus in no time at all. Mr. and Mrs. Albert H. Price (she was Jane Thompson of the class of '44), have a new son who answers to the name of Arnold Jerome. Jane, as we recollect it, was president of the student body and a mighty popular gal . . . Mr. and Mrs. William S. Lingley (Betty Simpson of the class of '37), also have a new son, William, Jr. Last reports indicate that the Lingley family is living in Seattle now . . . Mr. and Mrs. Victor E. Ambrose (Dorothy Verone of the class of '40), has dusted off the baby buggy for the second time. The new little Ambrose, who will someday answer to the name of Joseph Paul, is residing with his parents at 3448 33rd W. in Seattle . . . Mr. and Mrs. Roy Steen (you'll remember her as Norma Jean Rice, '45), are the proud parents of twins—both girls. So far as we know, they are the only twins to join our big Alumni family in the last few months. Papa is passing out cigars at Pullman, Wash., where he is attending WSC . . . Mr. and Mrs. Troy Strong (she liked to be called "Helen" on the campus last year), also have a new son, who will be called "John" . . . News comes in that Martha McNeil Jenks has a new daughter, as do Bob and Shirley Brush, Dorothy Hager Barlow and Mildred Brown Boyd. Betty Mann Poinsett has a new son, John Raymond. Mr. and Mrs. James Van Camp (Hazel Hecht) are the parents of a baby girl. Jim and family are back in Tacoma after last semester at Washington . . . Margaret Galloway Williams and husband, George, are taking bows on their new baby girl . . . Ed McCoy, '38, and Mrs. McCoy are very proud of the bouncing boy that recently came to their house. (Why do they call babies "bouncing"? Or has anyone ever tried bouncing one?)

Mr. and Mrs. Earle Oakes (Emmy Lou Jenkins) are celebrating the arrival of a new daughter. Little Isabel is welcomed by two brothers, Garret and Nobel Clyde . . . Mr. and Mrs. Martin Packard (Frances Summers) welcomed a new son

DR. MARCIA EDWARDS, former Philomathean member, is now the Assistant Dean of the School of Education at the University of Minnesota . . . MRS. V. W. FREDERICKSON is another CPS alumni who is far from home. Her present address reads: 9 Ave. l'Espinette, Central Rhode St. Genese, Brussels, Belgium . . .

November 19. The new model (Packard, that is) is called Peter Summers, and has an older sister, Penny . . . Mr. and Mrs. James Griffith (Wyona Diemer) are announcing the arrival of William Diemer Griffith, who checked in on November 24. Serving on the reception committee also was William's older brother, James Sherwin Griffith . . . Mr. and Mrs. Robert Strobel (Elsie Korpela) seem to be running a race with Eddie Cantor. Their fifth girl came on November 29 at Tacoma General Hospital . . . One of the latest arrivals is little Marilyn Murnen, coming on December 1 to Mr. and Mrs. Ed Murnen (Evelyn Shaw) . . .

Wedding chimes have been ringing with increased regularity for our CPS alumni. Dr. Thompson, in addition to his duties as prexy of CPS, is much in demand as the official knot-tier, and the Little Chapel in Jones Hall is fast acquiring a layer of rice on its floor. So many of our alumni have been walking the middle aisle that we have been hard put to keep up with the latest ceremonies.

Among the recently married couples are Francis McGavick and James P. Raftis. Eloise Pavolka changed her name to Mrs. James E. McNerthney recently; the new home is at 70 North Lake Shore Drive, S. W. at Steilacoom Lake. After a recent fall wedding, Lloyd J. Neil and Barbara Jean Swanson have set up housekeeping in Yakima. Mary Enid Miller was wed to George W. Davis; their home will be at 2905 South 7th, Tacoma. Marvel Millich and Frank Walter, Jr., of the News Tribune editorial staff, are another of the recently married couples. Bill Madden took as his bride Shirley Jean Fitpold. They are living in Everett. The Donna Kiste-Fred Beck wedding looked like an old home week for CPS, with Dick Smith as best man, and many of their other college friends attending.

Other recent brides and bridegrooms are: Anita Waadne and Robert Preston, Elizabeth Savage Torre and Carl C. McConnell, Rosemary Salley and Howard D. Layson, Delores M. Walker and Carl A. Wahlstrom, Mable F. Shepro and Jack A. Martin, Hazel N. McCormick and Martin E. Wentworth, Jr., Margaret Armstrong and John R. Heaton, Elizabeth Ann Bonomo and Edmund Hilton, Jr., Gloria Gipple and Capt. Edw. A. Morrer, Patricia Joan Hildebrandt and William J. Owen, Kathleen Jean Freckleton and Ralph F. Johnson, Marjorie L. Landley and Richard A. Carter, Doris Wittren and Gareale Breazeale, Dorothy Ann Simpson and John Wilson, Jr., Patricia Louise Coffman and Richard L. Miller, Helen L. Willard and John C. Richards, Shirley Jean Milstead and Wm. Joseph Sullivan, Jr., Neva Iversen and Eric Anderson, Joan Stapleton and Robert W. Seabloom, Louise Boyd and Arie D. Duyfhuizen of Rotterdam,

Holland, Lois Rasmussen and Stanley Berquist, Kathleen C. Hardy and Joseph C. Skach, Delores Klaiber and Arthur J. Demers, Jr., Annabelle M. Lee and Allen D. Eklund, Anne Barlow and Albert E. Finnigan, Alice Stebbins and Howard L. Wright, Joyce M. Callow and Ensign Carl J. Ostertag, Jr., Barbara Gene Hufford and Frank Farron.

Sincere and hearty congratulations are in order for all the newlyweds.

We want to thank all of you who returned your questionnaires so promptly to the office. Lots of valuable information was secured thereby, and some addresses picked up which we unfortunately didn't have before. Be sure to watch for the next issue of the ALUMNUS which will contain some gleanings about CPS alumni.

Philos (Con't.)

Carrie Lofgren Simons, Florence Higgins Gordon, and Bertha Day Bailey.

For the more recent alumni who can't figure out what this is all about, the Philomatheans were an organization on the campus many years ago. It was a literary society and a very large organization it was. The Amphictyons were their arch rivals on the campus.

These two societies were disbanded in 1922, and from these were formed the nucleus of the local fraternities and sororities on the campus today. So as one can see this reunion was of really old grads of Puget Sound. The spirit exhibited in supporting this their first attempt at a large scale reunion shows that very few alums ever forget the old school ties.
